The Chamber is your voice in government. Our Government Affairs team addresses the issues of concern to your business on the local, state, and federal levels. We take proactive measures to ensure that government considers business objectives and viewpoints. We'll keep you informed of relevant issues through our newsletters, and committee and council meetings.

The Public Policy Committee takes pro-business positions on legislation that will have an impact on your business. In addition, four subcommittees examine specific areas of policy. Their objectives are:

Energy and Environment:

To develop, coordinate, and advance long-term business-sensitive strategies for sustainable energy efficiency initiatives, environmental protection, and infrastructure development that will improve the business climate and quality of life for business owners, employees and their families in the Lehigh Valley.

Health care Legislative:

To educate and assist Chamber members to control health care costs while maintaining exceptional health care quality for employees by making an impact on these factors: personal accountability, transparency, tort reform, consumerism and promotion of free-market policies promoting competition in health care.

Tax and Regulatory:

To advocate against unfavorable mandates on businesses, tax increases or new taxes that will adversely affect business growth, community development, or economic development; encourage the restructuring of the personal income tax (PIT) by shifting from federal taxable income to a model of adjusted gross income, and promote a state tax policy that retains and encourages business investment, such as phasing out the corporate net income tax (CNI).

Transportation:

To develop, coordinate, and promote regional transportation strategies and proposals – or state or federal transportation proposals with the potential for regional impact – which effectively utilize public resources, support commerce, and facilitate economic development.

The Chamber is also actively involved in workforce and education issues partnering with the Lehigh Valley Workforce Investment Board. We wholeheartedly support the need for pension reform at all levels of government and have partnered in the Coalition for Sustainable Communities, which is a statewide group committing to helping Pennsylvania's rural, suburban, and urban communities address growing economic and financial challenges. For more information, visit www.coalitionforsustainablecommunities.com.

For more specific information on these and other Chamber legislative positions, please visit www.LehighValleyChamber.org/PublicPolicy or contact The Chamber's Executive Vice President of Government and External Affairs, Michelle Griffin Young at michelley@lehighvalleychamber.org or 610-739-1514.

Main Street Lehigh Valley

The Greater Lehigh Valley Chamber of Commerce Foundation was established as a 501(c) 3 in Bethlehem, originally to raise funds for holiday decorations. Now that The Chamber has merged with other regional partners, the Foundation has also grown to strengthen all of its communities. The Chamber's charitable arm provides funding from the private sector and assistance from Lehigh and Northampton counties to directly support community development projects **On Every Main Street** in the Lehigh Valley. Currently in its fifth round, almost \$200,000 has leveraged over \$4 million, over 100 projects in 18 communities.

Borough Business Revitalization Program (BBRP)

The Borough Business Revitalization Program (BBRP) identifies and promotes each borough's physical, economic, cultural, and historical assets. It is a bottom-up program whereby volunteers and business representatives work together to establish goals and enact projects that fit the need of the participating community. The BBRP serves to educate volunteers according to the nationally accepted four point approach to Main Street revitalization:

- **Design:** Getting downtown into top physical shape and capitalizing on its best assets
- **Economic Restructuring:** Helping to maintain existing business while recruiting new enterprises
- **Promotion:** Selling the image and promise of Main Street to all prospects
- **Organization:** Ensuring that all concerned stakeholders are working toward the same goals

The BBRP is a regional Main Street program that represents a partnership between the Greater Lehigh Valley Chamber of Commerce, Main Street Lehigh Valley Initiative of the Greater Lehigh Valley Chamber of Commerce Foundation, the PA Dept. of Community and Economic Development, Lehigh and Northampton counties, and the seven participating communities: Alburtis, Bangor, Bath, Catasauqua, Coopersburg, Hellertown, and Pen Argyl.

The BBRP strives to be the catalyst for the prosperity of the communities it serves as well as building on the strength of the Lehigh Valley as a whole. The BBRP was recognized in 2010 as the top performing regional Main Street Program in Pennsylvania; it also received National Accreditation from the National Trust Main Street Center for the last two years.

Why more than 3,000 area businesses said

Thanks to E-power® rebates from PPL Electric Utilities, Lehigh Valley businesses have received over \$10 million in rebates to help fund their energy efficiency projects. They saved big on the cost of those improvements—as much as 75% in some cases—plus they'll keep saving on electricity costs month after month, year after year. In fact, Lehigh Valley businesses have saved a total of 100 million kilowatt-hours already.

What are you waiting for? Make this the year your business says **yes** to E-power rebates. Learn more at:

Sure thing.

Life has no guarantees, but in business
I knew exactly what I wanted.
A company that gave me the start-up help I needed,
freedom to make my own decisions ...
plus the chance to earn a great living.
With so many unknowns in life,
my career isn't one of them. That's for sure.
