2020/12/10, 7:31 pm - Marissa Botha: Its important to note that Samara intends

WhatsApp Chats with community_Scoping Phase

to conduct prospecting with bulk sampling. They will focus their bulk sampling activities to specific prospecting

pockets within the greater prospecting right application areas.

2020/12/10, 7:36 pm - Marissa Botha: Their intention is to excavate 10 trenches, each 100m x 25m x 4m, to collect bulk samples. Each bulk sample will be 10 000m³ in size. This means 10 trenches will

be excavated per application area from the identified prospecting pockets.

2020/12/10, 7:37 pm - Marissa Botha: I will include a project description document on the group now.

PRAA 2_Appendix 3_Location Map REGULATION 2(2)[1] 12663.pdf

2020/12/11, 8:54 am - Marissa Botha: Its important to note that Samara intends to conduct prospecting with bulk sampling. The will focus their bulk sampling activities to specific prospecting

pockets within the greater prospecting right application areas.

2020/12/11, 8:54 am - Marissa Botha: Their intention is to excavate 10 trenches, each 100m x 25m x 4m, to collect bulk samples. Each bulk sample will be 10 000m³ in size. This means 10 trenches will

be excavated per application area from the identified prospecting pockets.

2020/12/11, 9:01 am - SM-Boeta Aroe: Can you please elaborate on the proposed prospecting methods

2020/12/11, 9:02 am - Marissa Botha: Yes, I am going to share a project description document on this group soon. Just busy preparing.

2020/12/11, 9:03 am - SM-Boeta Aroe: Can I take your word that this platform will not be used as proof for the public engagement process

2020/12/11, 9:08 am - SM-Boeta Aroe: If no answer...than you can remove me now from this Group

2020/12/11, 9:09 am - Marissa Botha: Public engagements are planned for January 2021. This group was created to announce planned engagements and vir the communities to raise issues. This helps us to

gauge the issues on the ground that needs to be addressed in our public engagement meetings.

2020/12/11, 9:16 am - Marissa Botha: This is not proof just another avenue to communicate with the communities.

2020/12/11, 9:22 am - SM-Boeta Aroe: M concern ..what if the country goes into a hard lock down...and no gatherings are allowedwill you postpone or use this platform as proof

2020/12/11, 9:46 am - Marissa Botha: If it goes into hard lockdown we would first need to consult the DMR on what we stand to do. Postpone or meet with key community members via virtual meetings

(Zoom or Microsoft Teams), this is if the community members have access. The NEMA EIA Regulations stipulate the minimum requirements for public

WhatsApp Chats with community_Scoping Phase
participation in such instances.I will gladly share

this with you on this group.

2020/12/11, 9:51 am - Marissa Botha: In the last hard lockdown on our other EIA processes we conducted virtual meetings with key community members. In other cases we were to extend the public

consultation period until the lockdown reached a level where people were allowed to return to work or alternative measures were published by government.

2020/12/11, 9:58 am - SM-Zuna Links: As you said before that the intention is to excavate 10 trenches each 100 m×25×4 m to collect bulk samples.The question now is,if you are not satisfy with

this bulk results and Samara Mining is not interested anymore in specific areas ..What then?Will there a be rehabilitation plan on the table or you just leave the area like that ..because

people in the past just come and destroy our area and make a mess of the environment and leave it like that....

Chalwyn Thomas Kuboes

2020/12/11, 10:03 am - Marissa Botha: Then the will not proceed

to apply for a right to mine.To open up a mine it must make financial sense. Samara will implement a full rehabilitation plan and will pay a financial provision to the DMR in order to rehabilitate

the affected areas.

2020/12/11, 10:05 am - SM-Zuna Links: Thank you for the answer Marissa

2020/12/11, 10:06 am - Marissa Botha: For now the first want to determine if there is an economically feasible resource to mine.Thereafter they will prepare a feasibility study which states

whether it makes financial sense to mine the resource.Next if its a positive outcome they will apply to DMR for a Mining Permit.

2020/12/11, 1:25 pm - SM- Henley Strauss Eksteenfontein: Good questions asked so far with positive answers. I am following the chat. Henley, Elsteenfontein.

2020/12/11, 1:31 pm - Marissa Botha: Good day/ goeie dag,

2020/12/20, 11:47 am - Marissa Botha: Good day,
Please be advised that Naledzi Environmental Consultants, in terms of the NEMA
EIA Regulations of 2014 may not consult or conduct public

participation during the period of 15 December to 5 January.

2020/12/20, 11:48 am - Marissa Botha: We can therefore not answer calls or
consult during this period. From 6 January 2021 we will be online again and
resume consultations.

2021/01/06, 2:23 pm - Marissa Botha: Good day/ Goeie dag, verskeie vrae is op
die groep gevra gedurende Desember 2020 aangaande die projek. Hiermee aangeheg
is die lys van vrae asook die terugvoer

daarop deur Naledzi en Samara.

Full response to_List of Comments from Communities.pdf

2021/01/06, 2:30 pm - Marissa Botha: Neem ook asb kennis dat die gemeenskap
vergaderings geskeduleer vir 12 en 13 Januarie 2020 sal moet uitgestel word tot
verdere kennisgewing.

2021/01/06, 2:32 pm - Marissa Botha: Op 28 Des 2020 het die President weereens
regulasies uitgereik wat publieke vergaderings verbied tot en met na 15 Januarie
2020 of soos die staat dit hersien.

2021/01/06, 2:33 pm - Marissa Botha: Dit is n geweldige frustrasie vir Naledzi
maar ons moet aan die vereistes voldoen.

2021/01/06, 3:07 pm - Pieter DE Wet: Baie dankienog n laaste vraag
asb..Volgens my kennis is die Noorde/Ooste grense van die bestaande reghouers
die middle van die rivier en slegs die MWP die

100 Jaar vl uitsluit..in hierdie geval wil dit voorkom dat Samara aansoek
oorvleul ..en DMR nie n reg op n reg kan toestaan.
