Choosing Your Primary Care Provider

Each Alliance member needs to choose a family doctor, called a Primary Care Provider (PCP). If you do not choose a PCP, you will be automatically assigned to a PCP in your area.

Please carefully review the provider listings in the PCP section of this directory before choosing your PCP.

- Note the hospital with which the PCP is affiliated as this is where you will go for hospital care, if necessary.
- Note where the provider's office is located, what the office hours are, what the telephone numbers are, and what languages they speak.
- Some hospitals and other providers do not provide one or more of the following services that may be covered under your plan contract and that you or your family member might need: family planning; contraceptive services, including emergency contraception; sterilization, including tubal ligation at the time of labor and delivery; infertility treatments; or abortion. You should obtain more information before you choose your PCP. Call your prospective doctor, medical group, independent practice association, or clinic, or call the Alliance at (831) 430-5500 to ensure that you can obtain the health care services that you need.

Important Information about Referrals and Authorizations

- Authorization or referral may be required to access some providers.
- Only your current Primary Care Provider (PCP) may issue a Referral Authorization Form (RAF).
- When your medical condition requires services not available through this directory's list of contracted physicians/providers, your PCP may request authorization for the services of physicians/providers outside of the Alliance network. If you have a question regarding a particular physician/provider's participation with the Alliance, please call the Alliance Member Services department at (800) 700-3874.
- You can access **some** Allied Health Services without an authorization from your PCP. Please refer to your Member Handbook or call the Alliance Member Services department at (800) 700-3874 for more information.
