Upon arrival in Fremantle, the Braveheart will re-provision and refuel to 90,000 to 100,000 liters of fuel. We will load the materials we've obtained from the NCRG, do a little shopping for personal supplies, set up our maritime mobile station, take our sea sickness pills and patches, and be prepared to sail on January 15th.

We'll be passing through some rare grids on the way to Amsterdam Island and we are anxious to hand out QSO's from them. Be sure to look for us on the bands and track us on our website in near real time. Landing on Amsterdam can be "exciting." Wish us good luck with this. We'll have some heavy work to do upon landing and expect our set up time to take at least a full day. We'll let you know when we get there.

This will be our last press release. It has been a long time of preparation and a great deal of work, but that is behind us now. The next time you hear from us, it will be a signal from the Braveheart or from Amsterdam Island.

As you can see from our financial status on our home page, we still need help. If you haven't helped us yet, please consider doing so. If you've supported us, thank you - you've kept us afloat to date.

The FT5ZM Team reached Amsterdam Island around 1 UTC on 24 January. They were waiting offshore for the island general to come aboard and do an inspection at their 8 a.m. (3 UTC). Once this is done, they can begin to unload all the cargo onto the Zodiac and on to the island. When the team is ashore, they will have 18 days to set up, conduct the DXpedition, and tear down for departure. See www.amsterdamdx.org for updates and logsearch.

IOTA CONTEST • The 2013 IOTA Contest logs have now been uploaded to the IOTA database. This means that credit can be obtained for IOTA QSOs where participants submit matching contact details. Cards for these QSOs are not required. Dom, MOBLF reminds island chasers that the criteria for a match are:

- the other station must have submitted a log for the IOTA Contest
- your QSO must be in the other station's log
- the band and mode must match exactly
- the time must be within +/- 15 minutes
- the QSO was not rejected by the IOTA Contest Adjudicators

If there are any problems, please email [iota.online\[@\]rsgb.org.uk](mailto:iota.online[@]rsgb.org.uk).

IOTA DINNER • The 19th Annual Islands On The Air (IOTA) Dinner will be held on Friday, 4 April at the Visalia Marriott Convention Center, in conjunction with the 65th International DX Convention (www.dxconvention.com). For additional information regarding this event, please contact Ray N6VR ([rayn6vr\[@\]cableone.net](mailto:rayn6vr[@]cableone.net)) or Will WC6DX ([wc6dx\[@\]sbcglobal.net](mailto:wc6dx[@]sbcglobal.net)).

It is recommended that logs be uploaded in ADIF (.adi) format; a log prepared as an Excel spreadsheet will be accepted, but paper logs will not be processed. Any questions should be sent to [iota.chaser\[@\]gmail.com](mailto:iota.chaser[@]gmail.com). Submissions for the concurrent Activators Marathon should be emailed to [iota.activator\[@\]gmail.com](mailto:iota.activator[@]gmail.com). The deadline for all submissions is 28 February 2014.

"If you have sent a card before 01/01/2014 then your QSL will be processed however I have no further QSL Cards for VK0TH and cannot process the volume of QSL's still being received almost 2 years after the expedition. My apologies and hope you understand. I am more than willing to process eQSL and will look at making the log available via other means".

SOUTH SHETLANDS • Vlad, UA4WHX was active from King George Island, South Shetlands (AN-010). He operated as RI44ANT from the Russian Bellingshausen Station and as XR9H2O from the nearby Chilean Base Frei.

TROMELIN 2014 • Vincent, F4BKV has joined the operating team, in place of F5SIH. The Northern California DX Foundation (www.ncdxf.org) has announced a grant of \$25,000 to the Tromelin Island DXpedition planned for late October-early November [425DXN 1182]. "Tromelin is a very small and very environmentally fragile area. There are strict limitations to the number of visitors and the time allowable on the island. The team's antenna plans, pilot feedback plans and enthusiasm should make this entity available to many DXers".

VK9MT: OPERATOR NEEDED • "To better distribute the workload and keep as many stations on the air as possible, the Mellish Reef 2014 DXpedition team will add one additional operator to the team, bringing the total to 12. We are seeking an experienced SSB and RTTY operator. The pile-ups will be energetic and, at times, challenging. Candidates must have the 'Determination - Time - Finances' to join this exciting DXpedition. As with all projects of this type the team will share in the cost to launch the project. Each operator is putting up about 12,000 USD to pay the costs associated with this DXpedition. Surplus funds will be evenly divided across the team after the books close. Each operator will pay their own way to and from Australia, as well as their living expenses before and after the DXpedition. Previous DXpedition experience is preferred but not required. We welcome a seasoned DXer who is capable of operating over an 11 day period on a rotating shift schedule. The team will sail to Mellish Reef on a 25 meter (crewed) passenger vessel with previous DXpedition experience. You would need to be at Mackay, Australia no later than March 23, 2014 and plan to leave Mackay on April 16, 2014. If this opportunity interests you please send a short biography of your ham radio experience to info[.]vk9mt.com. As the time is short, we would appreciate hearing only from candidates who can commit to the project before January 15, 2014". Information about the DXpedition can be found at <http://vk9mt.com/>.

+ SILENT KEYS + Max de Henseler (**HB9RS**), the founder and president emeritus of 4U1UN at United Nations headquarters in New York, died on 30 December at 80 years of age. In 1976 he reactivated the UN Radio Club station (K2UN), and introduced the new call sign 4U1UN on 4 February 1978. During his UN career he operated under various call signs, including 3D2RS, 5W1BK, 9Y4RS, DJ0AB, EL2DX, ET3RS, FOORSM, HP1HN and XW8HB. As for the current status of 4U1UN, The Daily DX reports that the station "was dismantled in early 2010 due to the massive renovation project on the Secretariat Building. All of the antennas were removed from the roof and all of the equipment packed up and are being stored in the UN. The club is seriously looking at several options in order to get 4U1UN back on the air as quickly as possible. Some of the options being considered include remoting the station, putting the station on the ground floor

and running some 400-500 feet of coax to the top of the building or moving the station to another sovereign UN building".

Hubert Walcott Benjamin Sr (**EL2BA**) passed away on 4 January. Born in Antigua in 1935, he lived in England, Liberia and since 1990 in the US, under what he referred to as "self imposed exile". He was the President of the Liberian Radio Amateur Association (LRAA) for 17 years, and served as IARU Region 1 Executive Committee Member on 1972-1987.

John G. "Jack" Troster (**W6ISQ**) passed away on 11 January at the age of 93. A founding member of the Northern California DX Foundation in 1972, he served as an NCDXF Board member for 26 years and was the Foundation's third President (1975-1986). Back in 1988 he was inducted into the CQ DX Hall of Fame.

Bruce W. Butler (**W6OSP**) became a Silent Key on 16 January. He was 79. In 1990 he joined the Board of the NCDXF as its Treasurer, and served as the Foundation's President from 2009 until his retirement at the end of 2011. He participated in a number of DXpeditions, notably H40AA (Temotu 1998), 3B9R (Rodrigues 1999), K4M (Midway 2009) and PJ7E (Sint Maarten 2010).

Other recently reported Silent Keys include Hans Rixin (**DJ6QP**), Miloslav Bartos (**OM3FZ**) and Jerry Pittenger (**K8RA**), well-known manufacturer of a line of iambic and single-lever CW keys.
