

## Product Information - **CANADA**, December 2001

### *New Products*

#### **NEW ViewSonic® G90fb**

ViewSonic is proud to introduce the new PerfectFlat® ViewSonic G90fb with the “b” referring to its black color bezel. This 19” (18.0” viewable) features ViewSonic’s award winning PerfectFlat screen technology for edge-to-edge precise images with sharp focus and ultra fine text. For those who work long hours with computers, the PerfectFlat G90fb provides comfort to the eyes by minimizing light reflections. The G90fb is an excellent choice for graphics design, CAD/CAM, and general business applications. The G90fb features the new OSD lock function that prevents accidental or intentional changes to optimized monitor settings. The monitor equipped with a base design that allows the optional ViewSonic USB hub to be snapped in for connections with other USB peripherals. The G90fb is TCO '95 and Energy 2000 certified to meet today strict standards for low emissions and power efficiency. Complete setup information can be found on the Product & Pricing Exhibit. The ViewSonic G90fb is shipping in early December.

#### G90fb Brief Description:

19” (18.0” viewable), PerfectFlat screen, SuperClear® technology, 0.21mm horizontal (0.25mm diagonal) dot pitch, 1600x1200 maximum resolution at a flicker-free refresh rate of 77Hz, OSD lock function, ViewSonic Wizard CD-ROM with E-Color’s True Internet Color® and Colorific® software included, new base design for optional ViewSonic USB hub, TCO '95 and Energy 2000 certified.

#### **NEW ViewSonic PJ500**

ViewSonic is pleased to introduce the new PJ500. The PJ500 is the ideal projector for anyone putting their time in on the road. At 1200 lumens it is the best lumen per dollar value on the market. The PJ500 offers a short focal length, digital keystone correction, and zoom functions. In addition, the component video feature for enhanced video quality and eco-mode setting for energy and lamp life conservation make the PJ500 ideal for any small conference room, office or training room setting. Complete setup information can be found on the Product & Pricing Exhibit. The ViewSonic PJ500 is shipping in immediately

#### PJ500 Brief Description:

5.3 lb. LCD projector, true 800 x 600 resolution, 1024 x 768 maximum resolution, 1200 lumens, 300:1 contrast ratio, manual focus and zoom, component video, eco-mode, and digital keystone correction.

#### **NEW ViewSonic Wireless Keyboard & Mouse**

The ViewSonic Wireless Keyboard & Mouse (VS-WKBM) is part of the ViewSonic Ultimate Desktop Solution. Replace your old keyboard and mouse with this state-of-the-art wireless set. Its silver metallic hue sets a style for your desktop when paired with a matching black or two-tone silver and black ViewSonic LCD or CRT display. (The VS-WKBM is not designed for use in a corporate environment. For home/SOHO use only). Complete setup information can be found on the Product & Pricing Exhibit.

### *Product Changes*

#### **Improved ViewSonic E70f and E70fb**

The ViewSonic E70f-2 and E70fb-2 now have an OSD lock function to prevent unwanted changes to the display settings, reduced power consumption to 70-watts (typical), and an increased vertical scanning frequency of 50-150 Hz. New setup information can be found on the Product & Pricing Exhibit.

#### **Improved ViewSonic E50**

The improved E50-4 adds an OSD lock function, which prevents accidental changes to optimized monitor settings. The E50-4 maximum resolution is still 1024 x 768, while the horizontal scan rate has changed to 54kHz. The

optional USB base has been replaced with a standard base. New setup information can be found on the Product & Pricing Exhibit.
