## Our Eco-Commitment

Frigidaire's collection of kitchen and laundry appliances is ENERGY STAR®-qualified, where applicable, and offers a wide variety of sleek and stylish appliances that are from 10% to 80% more energy-efficient than non-ENERGY STAR®-qualified appliances. Innovative features that minimize energy and water consumption are a priority across the appliance line, from washers that use up to 82% less energy and 60% less water to refrigerators and freezers that use up to 10% less energy, to dishwashers that use at least 41% less energy and 40% less water than was used just 10 years ago. In fact, Frigidaire® dishwashers use five gallons of water per load versus 27 gallons for hand washing – a savings of over 50,000 gallons of water over the average life of the product.

## Save Money and Energy

Check out our Energy Savings Calculator to learn why now is the time to switch to Frigidaire® ENERGY STAR®-qualified appliances. [frigidaire.com/energysaving](http://frigidaire.com/energysaving)
