

Certified for Skype for Business

Headset & Conferencing Solutions

Every word matters

Even in the busiest working environments, clearly understandable conversations are an absolute must for today's business communications. However, perfect speech intelligibility is only one part of enabling you and your listener to stay focused on your tasks. Also, the usability of your device has a strong impact on your performance in every day's business.

Sennheiser headsets deliver unparalleled sound, and also best-in-class ease of use. Combined with the high-grade design, they make a real difference in business communications.

With the right choice of materials and exceptional craftsmanship, every Sennheiser headset is built to last. Giving you a highly comfortable wearing experience that will improve the quality of your working day and boost your productivity.

The Microsoft–Sennheiser cooperation

Getting the most out of your Skype for business investment means matching with the best possible communication tools – because ultimately, your users' experience is only as good as the headset or speakerphone you choose. Our Certified for Skype for Business headsets and speakerphones let users communicate with plug 'n' play simplicity and with proven compatibility in renowned Sennheiser high-quality audio. It simply doesn't get any better.

Sennheiser headsets and speakerphones have been fully tested to ensure compatibility with Skype for Business and Microsoft® Office 365. You can simply answer or end calls, adjust volume, or mute calls through the headset or speakerphone's call control features. The combination of Skype for Business with Sennheiser headsets and speakerphones gives superior sound quality, excellent comfort and user-friendly controls for all Contact Center, Office and Unified Communications professionals. It's a seamless, high end-audio experience that promises the optimal user experience.

Make the Cortona Connection

Cortana is Microsoft's voice-controlled personal assistant, who makes users lives easier by providing them with answers, reminders and help with other daily tasks. With a Cortana certified headset from Sennheiser, getting the help you need is just a conversation away, thanks to crystal clear communication that makes sure you're always understood.

Try and buy with our evaluation program

Our Sennheiser – Microsoft Evaluation Program gives you the chance to try out our headsets and speakerphones first-hand in your normal working environment – before making a final decision on a solution for your Skype for Business deployment.

D 10 Series

- Sennheiser D 10 Series is single-sided wireless DECT headsets made for office professionals
- Single connectivity – connects directly to your Skype for Business client
- 2-in-1 wearing style (headband or ear hook) for all-day use
- ActiveGard® technology protects users against acoustic injury caused by sudden sound burst on the line

Sennheiser Wireless DECT Series

For busy business professionals, the advantages of a wireless headset solution are obvious: Users are no longer tied to their desks and conversations on the go keep business moving. The ability to use both hands for other tasks and to answer calls when away from the desk can also boost job satisfaction and help to create a pleasant working environment, while improving a company's overall efficiency.

A Sennheiser DECT solution offers a wide range of wearing styles to suit all individual preferences and work situations. Designed for maximum comfort, they are ideal for fatigue-free, all day use in a wide variety of office environments.

* SD Series only available in the Americas

Siemens chooses Sennheiser

Culture™ Series
Certified for Skype for Business

„At Siemens we were looking for new headsets, because we were switching to a Siemens office concept, where employees don't have a fixed work space and can use different ways of communication. The headsets have an important role in this scheme.“

Stefan Hamers
IT Program Manager, Siemens Nederland

Compatibility

Sennheiser Headset Compatibility Guide is a tool to help you find Sennheiser solutions (headsets and/or connectors) that works with your device(s).

Do you need help choosing, or need assistance setting up your product? If so, please visit: www.sennheiser.com/headsetcompatibility

** When a SP 220 MS variant is connected to a mobile device, only one of the SP 220 MS speakerphone units is in use

*** Merges softphone /PC and mobile calls into one conference and allows you to talk simontaneously on PC and mobile calls
