SMB SERIES

Standalone IP-based Fingerprint, Face, Finger Vein, Palm Vein and RFID Wiegand Access Control Readers

TF1700	F22-ID	SMK-V	SMK-H	MB700-ID

- Easy to install and program. No need for panel or computer.
- Often use the same wiring and power as existing readers
- FREE user-friendly ZKAccess management software
- Communication ports include TCP/IP, Wiegand In/Out, USB and RS485
- Relay contacts for Lock, Alarm and Exit button (REX)
- Connect with both ZKTeco and 3rd party access control panels via Wiegand protocol.
- FAST & ACCURATE Fingerprint, Face, Finger Vein & Palm Vein recognition
- Stores up to 3000 fingerprints, 1500 faces and 1000 finger-veins.

ATLAS SERIES

Access Control Kit with built-in Web Application

Atlas400-4 Door Kit	Atlas460-4 Door Kit

- Fast & simple installation. Access control panels require NO software.
- Panels support PoE and Wi-Fi communication
- Built-in web application supports up to 84 doors
- Advanced access control features include User Enrollment & Management, Door Control & Monitoring, Lockdown, Reporting, Maps, Anti-Passback and more.
- Panels support both Wiegand and OSDP prox card readers
- Atlas x60 Series panels store & match up to 5,000 fingerprints & card holders (use ZKTeco FR1500A fingerprint readers)
- Mobile app available for device and user management

ZKTeco USA

Flexible, Affordable and Comprehensive Biometric & RFID Security Solutions

UL Certified Pro Series Access Control Panels

Pro Series Standalone IP-based Fingerprint, Face, Finger Vein Wiegand Access Control Readers

ZKBioSecurity Software used to manage Pro Series Panels and Readers at one low price

Variety of Access Controllers, Readers and Accessories to satisfy ANY requirement:

C3-Pro Access Control Panel / Compatible Readers

C3-Pro Bundle

KR500E   KR702E   KR500H   KR502H

- Next generation of C3 series of access control panels
- Advanced access control features include: Global Anti-passback, First and Multi Card Opening, Duress password/card entry, E-map support and Real time Push protocol
- Available in 1, 2 and 4 door panel only or UL certified bundles which includes panel, metal cabinet and power supply
- Supports both ZKTeco and 3rd party Wiegand readers.
- Storage capacity up to 30,000 card holders and 100,000 transactions
- Compatible only with ZKBioSecurity software which includes enterprise level features for management and configuration
- SDK available for OEM software developers

inBio-Pro Access Control Panel / Compatible Readers

inBio-Pro Bundle

FR1500-HID   KR500BT   SLK20R

- Next generation of inBio series of access control panels which store and match fingerprints on the panel
- Advanced access control features include: Global Anti-passback, Duress finger/card/password support and Linkages for aux relay inputs and outputs
- Available in 1, 2 and 4 door DIN rail mounted panel only or UL certified bundles which includes panel, metal cabinet and power supply
- Designed to be used with ZKAccess FR1500 slave fingerprint readers, but works with any ZKTeco and 3rd party Wiegand readers.
- Storage Capacity up to 20,000 fingerprints and 60,000 card holders and 100,000 transactions
- Compatible only with ZKBioSecurity software which includes enterprise level features for management and configuration
- SDK available for OEM software developers

ProRF-T   **ProCapture**   **ProCapture-X**

ProCapture-WP   **ProBio**   **inPulse+**

- Options for PoE and IP65-rated weatherproof biometric models which read fingerprints, faces or finger-veins.
- Fingerprint models include next-generation SilkID sensor.
- Relay contacts for Lock, Alarm and Exit button/REX
- Communication ports include TCP/IP and Wiegand IN/OUT
- Stores up to 5,000 fingerprint templates and 1,500 face templates and 1,000 finger-vein templates
- Compatible only with ZKBioSecurity software which includes enterprise level access control features.
- Mobile app available for device and user management

HID Compatible Card Readers* and Credentials

KR500H   **KR502H**   **KR503H**
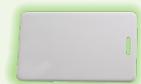

HID Prox Card Thick   **HID Prox Card Thin**   **HID Prox Key-Fob**

*KR50xH series also reads ZKTeco credentials

ZKBioSecurity is the ultimate "All in One" enterprise level security platform with integrated modules for Access Control, Elevator Control, Video Camera and VMS Integration, Visitor Management & Badging and LPR gate control.

ZKBioSecurity works only with ZKAccess Pro Series panels & readers and provides the most advanced solution for a whole new user experience.

- Supports up to 8,000 doors
- Advanced Access Control Functionality including mobile app, Zone Control and Who's inside status
- Global Anti-Passback and global linkage triggers with email notifications
- VMS Integration (i.e. Milestone, OnSSI, Mirasys, Arteco, etc)
- Video Linkage with Hikvision, Dahua and any Onvif compliant cameras
- Automatic and Scheduled Data Backup
- Real Time Monitoring screen with animated icons displayed on the map
- System Log Monitoring and support for different databases
- Active Directory integration
- Supports encrypted communication between panels and software

Time Saving Installation Tools

PoE Splitter
Option to eliminate need for hard-wired power
(supports only 1 & 2 Door installations)

InBridge Server
Option to eliminate need for downloading management software

Elevator Controller & Readers

EC10
(Elevator Control Panel)   **KR500E**   **FR1200**

UHF Long Range & LPR readers

FLR-UHF-30   **FLR-UHF-60**   **LR-UHF-12**

FLR 2B Fob   **FLR 4B Fob**   **ZLR Card**   **ZLR Tag**   **LPRS 1000**

Why ZKTeco Biometric and RFID Security Solutions?

Flexible: Often can be mixed and matched with 3rd party readers and panels

Affordable: ZKTeco USA is one of the lowest priced security vendors in the industry. Our huge economies of scale allows us to pass our significant cost savings on to our customers.

Simple to install & operate: ZKTeco panels and readers install like any other conventional access control devices. They often use the same wiring, power and communication as existing systems.

Access Control Hardware Features: Multiple relay contacts for door alarm, door sensor, door bell, exit button/REX, etc. RFID card reader options include ZKAccess 125 kHz, HID 125 kHz, HID iClass or Mifare. Options for PoE, Inbridge Server and Wireless Bridge further reduce installation time & money.

Applications:
Traditional door/gate/elevator access control
Turnstile access control
Electronic Safe/Cabinet/Drawer access control
Door Locks for small business and residential applications
Cardboard baler start-up control
Forklift truck start-up control
. . . control ANY 12V electrical device!
