

CBI Group is committed to sustainability.

Trees are planted in our national forests for every desk we deliver.

Trees Are a Crucial Part of Any Ecosystem

Trees restore watersheds, improve wildlife habitat, and mitigate the impacts of deforestation. As the trees grow, they can sequester 2.8M Metric tons CO₂e, equivalent to removing approximately 600,000 cars off the road for a year!

A portion of the proceeds of **every** desk we sell is donated to the NFF and used to plant trees in areas of great need. You get the custom office solutions you need while also supporting the healthy rehabilitation of our nation's forests! A real commitment to sustainability with visible impact on our environment.

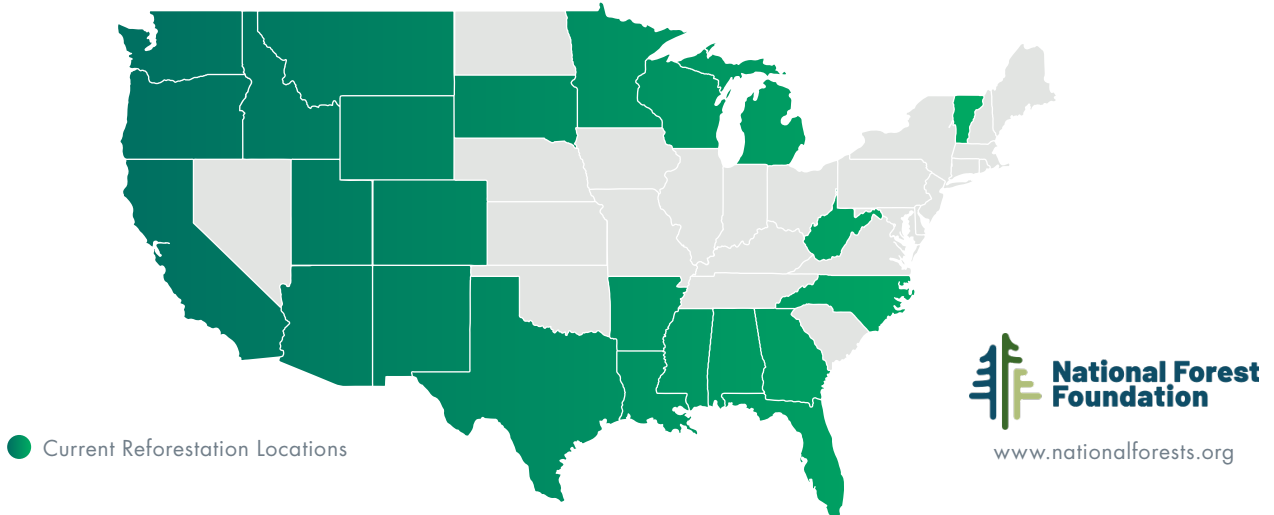

Last year we planted more than **13,600** trees in our nation's forests, and hope to contribute even more in 2022!

Together, we can rebuild our forests.

Let's make a positive impact on our environment.

The National Forest Foundation planted 5.6M trees in 2020, including 308K in our home state of Texas
