Going Green

In 2010 the Sunbeam® Hospitality team introduced a line of greensense™ products designed to work in harmony with nature and save hoteliers money. Over two years in development, the products were specifically created to save hoteliers up to tens of thousands of dollars per year by reducing water and energy consumption – something that helps the entire planet.

This year we're offering even more greensense™ products, including new wall-mount hairdryers and mirrors. Now spanning six product categories, hoteliers have 21 quality products to choose from to save money and delight their guests. An average hotel can save up to \$26,000* by converting to the entire suite of products!

From water-saving showerheads and aerators to energy saving mirrors, nightlights and hair dryers your guests will rest easy knowing they are helping do their part to preserve our precious natural resources.

green 
sense™

Look for this symbol throughout the catalog to start saving big – and helping the environment – with greensense™ from Sunbeam Hospitality.

*savings based on average energy and water usage of a 150 room hotel with 67% occupancy converting to a greensense™ shower head, aerator, iron, hairdryer and nightlight.

IRONS & ACCESSORIES

Sunbeam® Hospitality irons are renowned for their quality and performance, and this year's lineup is no exception. With durable non-stick soleplates and features such as secure retractable cords, self-cleaning, Safe Storage Strips, and Motion Smart® 3-way Auto-Off – our irons are a smart choice for value and safety. Your guests will love the versatility and crisp look they can get with our Vertical Steam, Shot of Steam® and Spray Mist® Functions, and with our drip-free technology, water only goes where you want it. Plus, 7 of our irons are greensense™ products, designed to deliver water savings of up to 45% vs a standard iron.

HAIRDRYERS

For 2012, we are continuing our heritage of innovation in hospitality hairdryers with the introduction of our wall-mount HD series. Designed specifically for hotels, these new products combine the best in styling performance of a hand-held, with the convenience and security of a wall-mount. With features such as 1875 watts, separate air and heat controls, cool shot buttons and full-size handles for the ultimate in styling flexibility. Plus, we haven't forgotten our commitment to the environment, our new wall-mounts are energy-saving greensense™ products, with features such as LED nightlight and wattage adjustment from 1875/1500 to 1200 watts. Designed to fit on a 1632 wall-mount bracket, upgrading is a breeze.

COFFEEMAKERS

Whether it's used as a morning ritual or a mid-day 'pick-me-up' coffee is a daily staple for many. Our entire coffeemaker collection has been designed with special attention to all the right features to brew the most delicious cup of coffee possible - like brew temperature, brew time, and flavor sealed lids. We also make clean up easy with dishwasher safe carafes, brew baskets and non-stick warming plates standard on all carafe models. Whether you are looking for a compact, efficient one-cup brewer or an upscale programmable 12-cup with stainless accents, we have a coffeemaker for you.

BLENDERS

Let them treat themselves to a perfectly blended refreshment from an Oster® branded blender. The perfect blend is possible thanks to the easy-to-use feeder cap found on every one of our blenders. This feature enables a perfectly smooth blend every time. The pulse function is also built into all blenders so that chunky ingredients can fall down into the blade and become impacted for the ideal, silky smoothness.

[Nightlight/Clock Radios]

NIGHTLIGHT/CLOCK RADIOS

Help your guests wake up promptly and refreshed with a Sunbeam® clock radio. Our newest model, the Sunbeam® Elite clock radio couldn't be easier for a guest to use – with innovative voice commands and voice confirmation designed to help the guest quickly set the alarm and give them confidence it is just the way they want it. Plus, we've added features specifically for hotel guests, such as Nap, White Noise and a Seek function for the radio. And the CR1001 and CR1003 models feature a Daily Alarm Reset, so no risk of waking up to a prior guest's alarm. Music choices? We've got that too, with an iPod dock, aux audio jack and AM/FM radio. Getting a good night's sleep just got easier.

FANS

Proper airflow is imperative to comfort and our fans make it possible to regulate circulation and eliminate any stuffiness that could be uncomfortable for guests. People are used to many different types of living environments and the convenience of being able to control circulation assures that your guests' room climate is as close as it can be to home.
