**PCN# 20120619001**  
**Stellaris Select LM3S Product Production Part Numbers**  
**Information Only**

**Date:** 8/2/2012  
**To:** Newark PCN

Dear Customer:

Because you have purchased one or more of the products listed on the attachment during the past twenty-four (24) months, we would like to ensure you are aware of the appropriate production orderable part numbers for each product.

The products listed in the affected products column of this notice are non-qualified revisions. Although standard procedures do not require notification for non-released products, we are issuing this notification to assist customer communication and customer product development and release.

The part numbers listed in the production device column are released to production. Please ensure your product BOM (Bill of Materials) references the part number in the production device column rather than the affected device column.

The replacement note for all products is listed as type "Q", meaning the production device has the same functionality and PIN-OUT as the affected device but is NOT an exact equivalent. The production device is intended to be a drop in replacement for the affected device, but may include datasheet errata fixes that customers should incorporate as appropriate.

If you have special requirements or questions about the differences between the affected and production part numbers, please contact your local Field Sales Representative. There is no guarantee of continued supply for the products listed in the affected device column.

For questions regarding this notice, contact your local Field Sales Representative or the PCN Manager ([PCN\\_ww\\_admin\\_team@list.ti.com](mailto:PCN_ww_admin_team@list.ti.com)).

Sincerely,

PCN Team  
SC Business Services

**Replacement Notes:**

F = Similar functionality but not equivalent.

P = Same functionality but not pin-for-pin equivalent and may not be parametrically equivalent.

Q = Same functionality and PIN-OUT as the compared device but is NOT an exact equivalent.

S = EXACT equivalent in functionality and parametrically to the compared device.
