INDUSTRIAL CONNECTIVITY SOLUTIONS

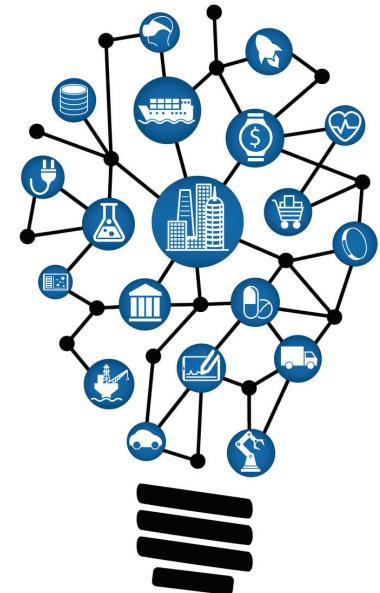

SUPPORTING INDUSTRY 4.0

jaycor.co.za

INDUSTRY **4.0**

INDUSTRIAL INTERNET OF THINGS

Smart Factories and Automation

Representing the fourth industrial revolution, Industry 4.0 is a collective term embracing several automation, data exchange and manufacturing technologies. These technologies coalesce under Cyber-Physical Systems, the Internet of Things and the Internet of Services.

6 Design Principles

1. Interoperability

The ability of cyber-physical systems (i.e. workpiece carriers, assembly stations and products), humans and Smart Factories to connect and communicate with each other via the Internet of Things and the Internet of Services.

2. Virtualization

A virtual copy of the Smart Factory which is created by linking sensor data (from monitoring physical processes) with virtual plant models and simulation models.

3. Decentralization

The ability of cyber-physical systems within Smart Factories to make decisions on their own.

4. Real-Time Capability

The capability to collect and analyze data and provide the derived insights immediately.

5. Service Orientation

Offering of services (of cyber-physical systems, humans or Smart Factories) via the Internet of Services.

6. Modularity

Flexible adaptation of Smart Factories to changing requirements by replacing or expanding individual modules.

IIoT (Industrial Internet Of Things)

Over the past three decades JAYCOR has witnessed globalization and the enormous step-change in the evolution of technology and the impact it has had on businesses and consumers. And within that change, connecting technology has provided the essential pillars to support an interconnected world, through the Internet of Things (IoT) and the Industrial Internet of Things (IIoT).

Today's cabling and connector technologies are pivotal to the advancements of big data, renewable energy, automation and the many other mission critical technologies that shape our present and future.

One Single Platform for all Data | Combining Facilities and Connectivity

PatchPro® - One Single Platform for all Data

Unlock Value with PatchPro®

JAYCOR in partnership with Belden has developed a DCIM SaaS (software as a service) solution, fit for the purpose for South African enterprises, their facilities, networks and data centers.

Our solution incorporates the well-established and highly-regarded PatchPro® DCIM software, combined with international and local expertise, experience and resources to deliver and execute a DCIM SaaS through a 24/7 managed service.

DCIM (Data Centre Infrastructure Management)

- Asset tracking and management
- Power and Cooling optimization
- Alarms and what-if scenarios
- Platform security

PPM (Planned and Preventative maintenance)

- Mechanical, electrical, environmental and support systems
- asset tagging and management
- Contract management and service schedules
- SLA Management

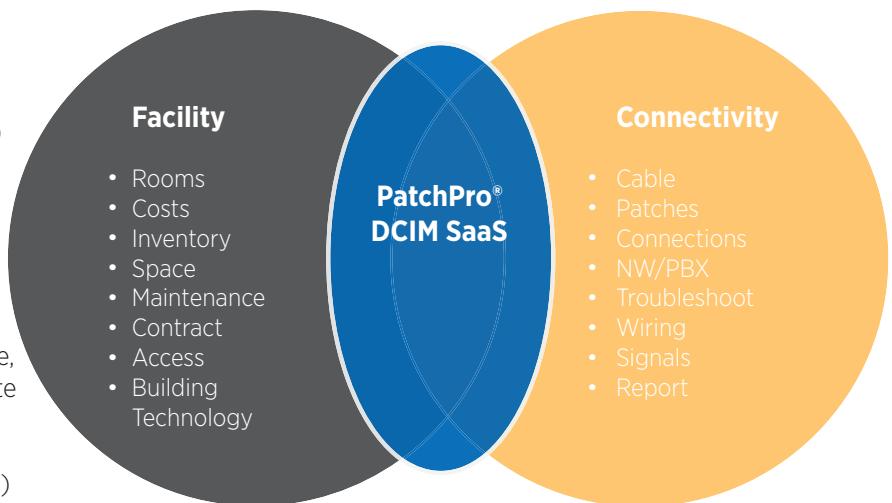

Onsite support

24/7 Service desk

Software Components

-CAFM	Integrated Cable Management, Network planning and documentation
DCIM/AIM	
-Database	Oracle or SQL-Server
-CAD-System	AutoCAD or CADVANCE
-Modules	Integrated or Stand-Alone
-API	Interface for individual programming /expansion
-Language:	Object oriented Programming (C++)

PatchPro® DCIM SaaS

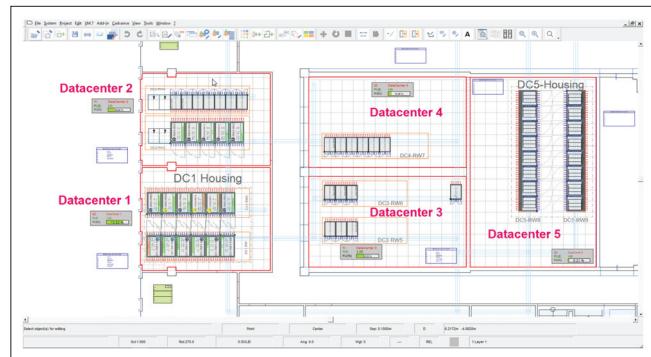

Combining Facilities and Connectivity

PatchPro® Software Capabilities Include:

-iPLM Infrastructure Physical Layer Management

Manage your physical infrastructure - cabling, ducts, routes, patches, cabinets and all other assets.

-DCIM Data Centre Infrastructure Management

Manage racks and inventory (hardware), connections, patches and cross-connects, work orders and more.

In Partnership with

**Your Single-Source End-to-End
Industrial Connectivity Solutions Provider**

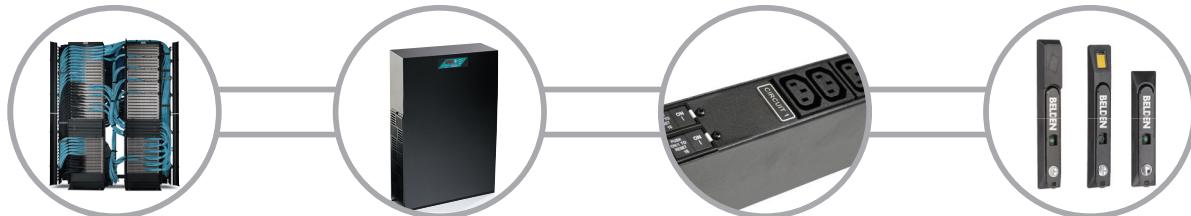

The Quickest Connections Worldwide

The Belden portfolio extends from a comprehensive range of cables and connectors, through rugged Ethernet switches, to routers and firewalls – all harmonized to work seamlessly together. With this portfolio we can meet the exacting requirements of our customers, who demand robust, high-quality products for use under extremely challenging conditions.

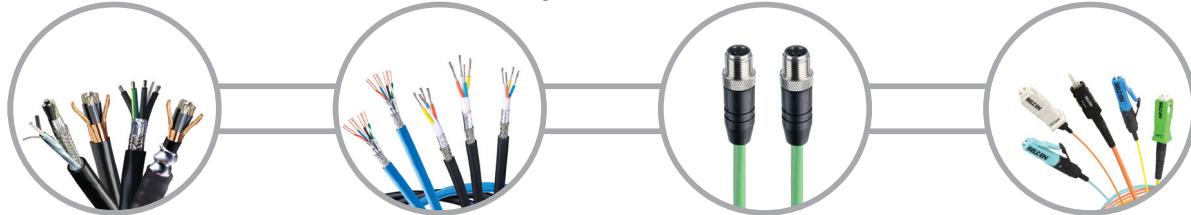

With top-quality products from the Belden, Hirschmann™ and Lumberg Automation™ brands, backed by professional service and support, we provide you with the best possible complete solution in automation, whether for monitoring passenger flow, for traffic surveillance in tunnels, for networks at airports, on ships, or for on-board entertainment systems.

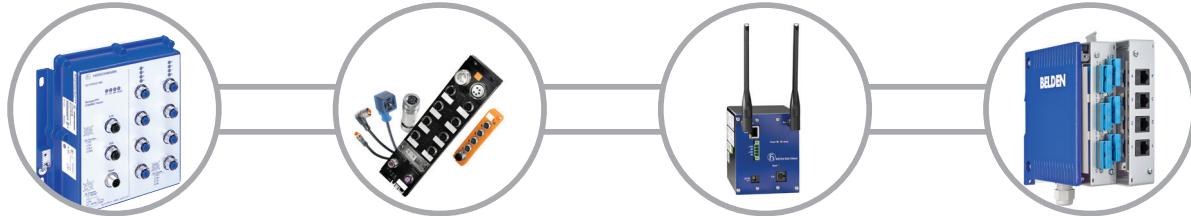

Infrastructure

Connectivity

Transmission

Industrial Control & Instrumentation Cables

Product Features

Multi-conductor cable products deliver low voltage analog data signals within enclosures, from controllers and I/Os to devices such as temperature and pressure sensors, relays, valves, meters, thermocouples, solenoids, actuators, contacts, push buttons, and alarms.

They also are applicable for communications, instrumentation, sound, control, audio, data transmission, and many more applications.

Quality, reliability and proven performance

- Designs that exceed UL and other international standards
- Local content

Broad range of conductor sizes, screen options, and conductor counts

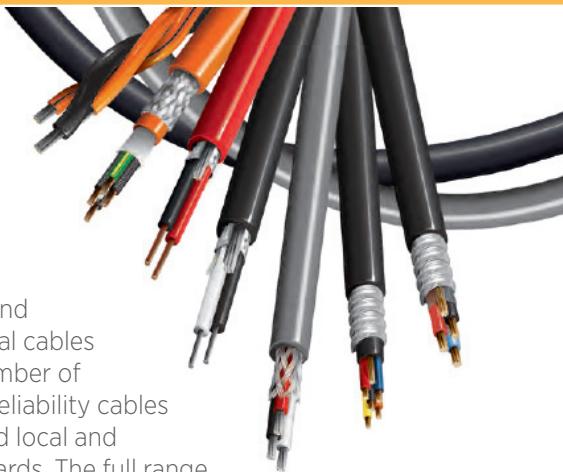

- 0,08mm² to 25mm² (28AWG to 0AWG)
- Multi-core & Multipair – 2 to 60 conductor combinations
- OAM Foil, IAM/OAM Foil, Braid and combination OAM Foil + Braid screens

Insulation and sheath materials

- PVC and FR-PVC and Nitrile PVC
- Polyolefin provide lower capacitance performance compared to PVC
- XLPE, LSZH and HFFR
- Polyethylene
- Polyurethane
- Silicone and Neoprene rubber
- Teflon® and Tefzel®
- Cut lengths available on locally stocked items

Applications

JAYFLEX, JAYFOIL, Dekoron, Belden® and Northwire® industrial cables include a select number of high-quality, high-reliability cables that meet or exceed local and international standards. The full range offers best-in-class products and a cost conscious range to suite all applications and budgets.

Suitable for process control networks, industrial automation and building automation systems such as heating, ventilation, air conditioning (HVAC) and security systems. They are ideal for data transmission between multiple systems and often in long distance links.

CSA Control cables are available for general-purpose cables used in the oil and gas, pulp and paper, mining, petroleum and chemical industries as well as in commercial buildings.

Industrial Connectors

LEMO® Connectors

- The Original Push-Pull Connectors

LEMO Connectors deliver unrivalled mission critical performance for aggressive industrial environments.

S Series – Stepped Inserts IP50

Contacts: Unipole, Multipole 2 to 106, Coaxial and Triaxial 50 and 75 Ω, High voltage, hybrid contacts and thermocouple.
Over 60 shell styles.
Temp. range -
-55°C to 250°C.
ILME Connectors
Allied Connectors

T Series – IP68

Contacts: Multipole 2 to 32 contacts.
Compatible with existing b sockets.
Temp. range -55°C to 200°C.

ALLIED Mil-spec Circular

The Allied MS (threaded) and MG (bayonet) connectors are circular coupling connectors designed as per JSS 50812 (equivalent to American MIL-C-5015).

These connectors are ideal for use in highly ruggedized applications, where power/ signal is to be transmitted in an environment of extremely low or high temperatures, with high vibration and shock also present.

Apart from providing mechanical protection to the contacts, the connectors offer the advantage of being light weight and easy to handle, which facilitates ease of mating/ un-mating.

B Series – IP50

Contacts: Multipole 2 to 64, coaxial, high-voltage, Fibre optic hybrid contacts and thermocouple.
Over 60 shell styles.
Temp. range -55°C to 250°C.

K Series – IP66/68

Contacts: Multipole 2 to 64 contacts, High voltage, Fibre optic, hybrid contacts and thermocouple.
Over 60 shell styles.
Temp. range -55°C to 200°C.

ILME Rectangular Multipole

Heavy-duty rectangular multipole connectors for industrial purposes are used in electric and electronic machinery, control units, electric panels, control equipment and wherever connections are required for power and signaling circuits. (N.B. the connectors must not be handled live).

The connectors are in conformance with the standard DIN VDE 0627 (European standard IEC 61984) and where applicable, to the standard DIN 43652 (European standard EN 175301-801 developed by CENELEC TC48B).

Industrial Patch Cords

Industrial networks require ruggedized and flexible patch cords to perform in harsh environments. JAYCOR's range of Belden industrial networking patch cords are resistant to high and low temperatures, oils, fats and chemicals, and are offered in PVC, PUR and LSZH materials.

Machine crimped and moulded assemblies can be ordered, JAYCOR also offers locally assembled and tested patch cords in a variety of connector combinations - RJ45, M8, M12, M23, SUBD and 7/8".

Profinet

Custom Cable Assembly

JAYCOR offers the service of terminating custom cables assemblies with various types of connectors, plugs or sockets to suit customer's specific requirements for motor control, instrumentation, and various other applications.

Plugs and sockets of various types are also available for quick termination and, if required, cables can be fitted with crimp or solder type contacts of various sizes. As most connectors and cables are ex-stock, completed assemblies can be supplied within a few days of ordering.

Save your engineers and technicians valuable time by using our qualified termination specialists.

LEMO® cable assemblies are used in a variety of specialized industrial control, Industrial Ethernet and test and measurements applications. JAYCOR, the sole agents for LEMO® products in Sub-Saharan Africa, assembles and tests all our LEMO® copper and fibreoptic cable assemblies in Johannesburg and Cape Town.

Fibre Solutions

Fibre infrastructure cables for heavy duty (HDD) indoor/outdoor, direct burial, armoured and other industrial applications.

Industrial Gigabit Media Converters

from Planet Networking combines Ethernet media conversion from 1000Base-X to 10/100/1000Base-T with optional 802.3at PoE delivered in an IP30 rugged strong case.

1000Base-X fibreoptic uplink ports provide long distance, high speed and stable data transmission to remote core network. Operating from -40 to 75 degrees C.

72 Ports/U high-density **patch panels** and standard type 12 to 24 port/U panels are available to suit all applications and budgets.

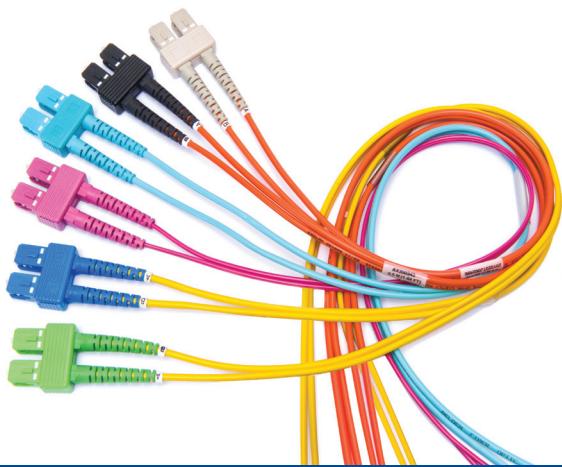

Belden's XNM Series **NEMA Industrial Cabinet** with self-contained AC cooling units are ideal for use in industrial networking. Designed for dusty environments, Belden XNM enclosures allow hosting of networking/control equipment in factories,

warehouses and on the production floor. Optional air conditioning AC units allow temperature control for stand-alone applications. Belden has extensive NEMA-style networking enclosure experience and capability to customize product solutions.

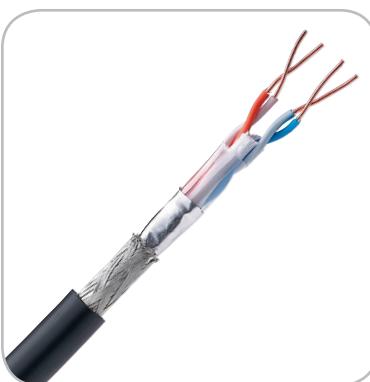

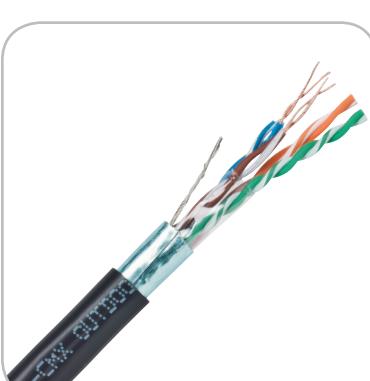

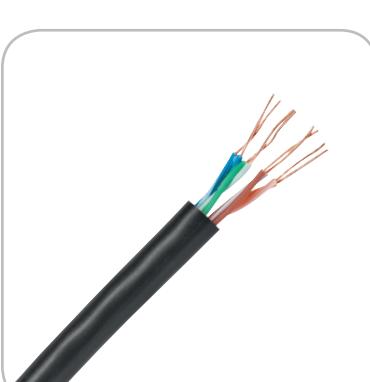

Patch Cords - SC, LC, FC and ST fibre patch cords are stocked in standard lengths, with custom lengths and combinations made up within 3-5 working days.

Available in all fibre types: OM1 to OM4 and OS2 and standard or angled polished ferrules.

Simplex and Duplex Fibreoptic Patch Cables

Fibre Type/Count:	Part Number:
Simplex *SM 10/125um	J61SMSIMLSYE
Simplex *MM 50/125um	J61MMSIM5LSOR
Simplex *MM 62.5/125um	J61MMSIM6LSOR
Duplex *SM 10/125um	J61MDUPLSYE
Duplex *MM 50/125um	J61MMDUP5LSOR
Duplex *MM 62.5/125um	J61MMDUP6LSOR

Construction:
1. Aramid strength member
2. Easy strip tight buffered fibre μ
3. Orange LSZH sheath
4. Black Ruggedized LSZH sheath
* Add "R" to part number for Ruggedized version.

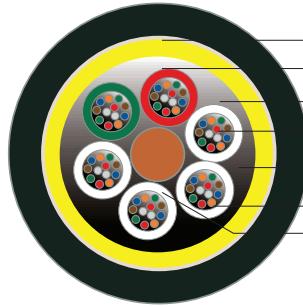

Distribution Cable - Tight Buffered - Indoor Applications

Fibre Type/Count:	Part Number:
4 Fibre *SM 10/125um	J61SMDC04RLSZH
4 Fibre *MM 50/125um	J61MMDC04RLSZH
6 Fibre *SM 10/125um	J61SMDC06RLSZH
6 Fibre *MM 50/125um	J61MMDC06RLSZH
8 Fibre *SM 10/125um	J61SMDC08RLSZH
8 Fibre *MM 50/125um	J61MMDC08RLSZH
12 Fibre *SM 10/125um	J61SMDC12RLSZH
12 Fibre *MM 50/125um	J61MMDC12RLSZH
24 Fibre *SM 10/125um	J61SMDC24RLSZH
24 Fibre *MM 50/125um	J61MMDC24RLSZH
36 Fibre *SM 10/125um	J61SMDC36RLSZH
36 Fibre *MM 50/125um	J61MMDC36RLSZH

Construction:
1. Non-halogenated outer sheath (LSZH).
2. Aramid strength member.
3. Individually colour coded tight buffered fibres.
4. Central member included when required.
"Distribution" cables are compact tight buffered cables specially designed for a wide variety of in-building and inter-building connections. They will tolerate vertical installation and can support their own weight for considerable drops, making them ideal for risers.

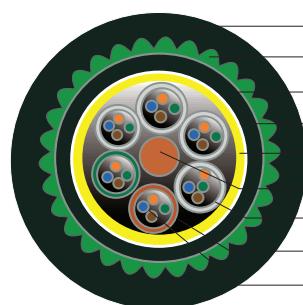

Heavy Duty Duct Cable - Loose Tube - Outdoor Applications

Fibre Type/Count:	Part Number:
4 Fibre *SM 10/125um	J61SMHDD04BK
4 Fibre *MM 50/125um	J61MMHDD04BK
08 Fibre *SM 10/125um	J61SMHDD08BK
08 Fibre *MM 50/125um	J61MMHDD08BK
12 Fibre *SM 10/125um	J61SMHDD12BK
12 Fibre *MM 50/125um	J61MMHDD12BK
24 Fibre *SM 10/125um	J61SMHDD24BK
24 Fibre *MM 50/125um	J61MMHDD24BK

Construction:
1. Polyethylene water resistant sheath.
2. Core binder.
3. Aramid strength member.
4. Interstitial water blocking material.
5. Gel filled loose tubes.
6. Colour coded fibres.
7. GRP centre strength member.
(48, 72, 96 Fibre counts also available in Singlemode and Multimode on special request.)

CST Armoured Cable - Heavy Duty Duct - Loose Tube - Direct Burial Applications

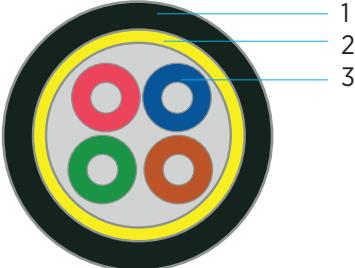

Fibre Type/Count:	Part Number:
4 Fibre *SM 10/125um	J61SMHDDCST04BK
4 Fibre *MM 50/125um	J61MMHDDCST04BK
08 Fibre *SM 10/125um	J61SMHDDCST08BK
08 Fibre *MM 50/125um	J61MMHDDCST08BK
12 Fibre *SM 10/125um	J61SMHDDCST12BK
12 Fibre *MM 50/125um	J61MMHDDCST12BK
24 Fibre *SM 10/125um	J61SMHDDCST24BK
24 Fibre *MM 50/125um	J61MMHDDCST24BK

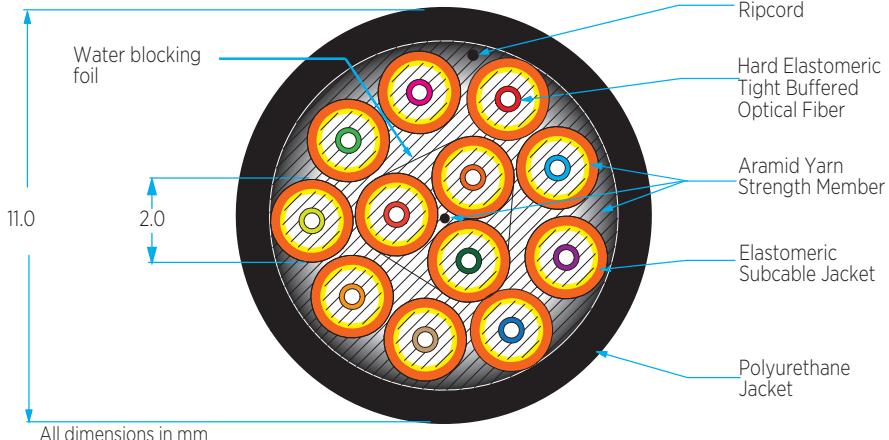

Construction:
1. Polyethylene outer sheath.
2. Plastic coated corrugated steel tape armour.
3. Polyethylene bedding sheath.
4. Core binder.
5. Aramid strength member.
6. Interstitial water blocking gel.
7. Gel filled loose tubes.
8. Colour coded fibres.
9. GRP centre strength member.
(48, 72, 96 Fibre counts also available in Singlemode and Multimode on special request.)

*SM - Singlemode *MM - Multimode

Flexible Tactical Field Deployable Cable – Tight Buffered

Fibre Type/Count:	Part Number:	Construction:	
6 Fibre *SM 9/125/um	J61SMTBFDHY06		
12 Fibre *SM 50/125um	J61SMTBFDHY12	1. Special thermoplastic polyester compound. 2. Aramid strength member. 3. Colour coded "easy strip" tight buffered fibres.	
*SM - Singlemode			

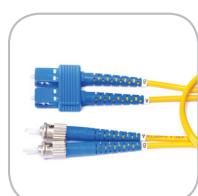

Belden® Flexible Tactical Field Deployable Cable - Breakout Style

Fibre Type/Count:	Part Number:	Construction:
12 Fibre *SM 'Breakout'	YE03244	
Construction: Cable Specifications (construction in accordance with IEC 60794) 1. Primary coated optical fibres: Ø 280 ± 10 um. 2. Tight buffered fibres: Ø 0.90 ± 0.1 mm. 3. Aramid yarns as strength members. 4. Numbered coded thermo polyester elastomer jacket (Ø 2.0 ± 0.2mm) 5. The single fiber units are helical stranded, surrounded by water blocking aramide yarns. 6. Polyurethane outer jacket with (polyester) rip cord.

J010003/5JZ50 Series Jay-Oil Flexible Cable 300/500V

- Multi-strand plain copper conductors to DIN VDE 0295 class 5 + IEC 60228 class 5 + HD 383 class 5
- PVC insulation T12 acc. to DIN VDE 0281 part 1 + HD 21.1
- Oil resistant and flame retardant Grey PVC, TM2 acc. to DIN VDE 0281 part 1 + HD 21.1
- 300/500V grade (Test voltage: 3000V acc. to DIN VDE 0472 part 508)
- Black numbered cores + 1 Green/yellow earth core

Temperature rating: -5°C to +80°C

- Extra finely stranded plain copper conductors
- Special PVC insulation
- Fleece wrapping
- Flexible grade PVC sheath, Grey
- 300/500V grade
- Black numbered cores

Temperature rating:
 -40°C to +70°C (Fixed)
 +5°C to +70°C (Flexing).

- Multistrand plain copper conductors

- PVC insulation

- PVC sheath - black (BK), white (WH), grey (GY)

- 300/500 V grade

- XX - indicates sheath colour required

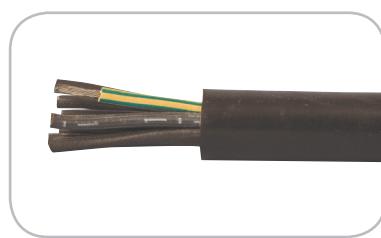

- Core Colours:

- 2 Core: brown, blue

- 3 core: brown, blue, green/yellow

- 4 core: brown, blue, green/yellow, black

H07RN-F Neoprene Rubber Trailing Cable 450/750V

- Multistrand plain or tinned copper conductors

- EPM rubber insulation

- PCP (Neoprene) rubber sheath - BLACK

- 450/750V grade

- 2500V test voltage

- Colour Coding:

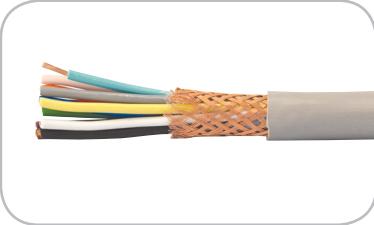

- 2 to 5 cores, coloured cores.

- Above 6 cores, black numbered cores + 1 Green/Yellow earth core.

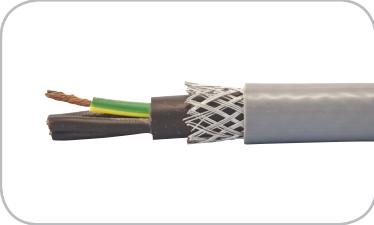

Cables manufactured generally to specification VDE 0282.

JHK Heavy Duty Polyurethane Cable 500V - Outstanding Abrasion and Oil Resistance

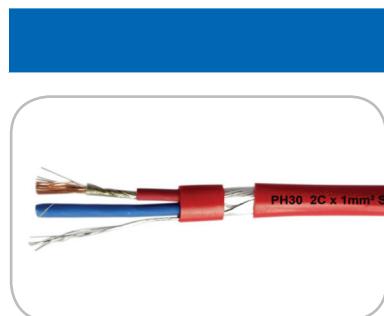

- Multistrand tinned copper conductors
- EPM rubber insulation
- Polyurethane sheath, ORANGE
- 500V grade
- Colour Coded cores (up to 4 cores), above 4 cores, black numbered cores.

Fire Alarm Cables

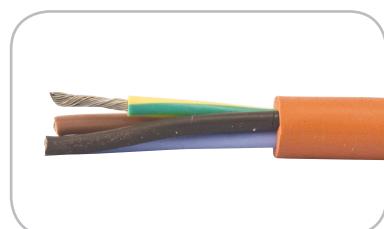

- FR20
 • 0,8mm dia. solid plain copper conductor
 • PVC insulation, TWISTED PAIRS
 • Overall aluminium-mylar® foil screen
 • Tinned copper drain wire
 • Flame retardant PVC sheath - Red
 • 500V grade
 • Colour coded pairs

Cable printed "FIRE ALARM CABLE"

Jaycor Part Number	Conductor Size (mm ²)	Strandings (no./mm)	No. of Pairs	Nominal O.D. (mm)

PH30/120 • Plain copper conductor, class 1,2 and 5 in accordance with SANS 1411-1 with special fire resistant tape wrapping • Halogen free polymer compound • Overall aluminium-mylar® foil screen				
• Tinned copper drain wire • Halogen free fire retardant polymer Red sheath - complies to IEC 60092-359(SHF1) and SANS 1411-5 • 300/500V grade • Colour coded to DIN VDE				

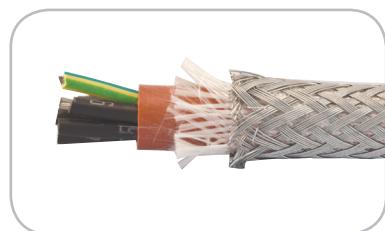

J2500066 Silicone Cable (-60°C to +200°C Continuous, 250°C Intermittently)

- Multistrand plain or tinned copper conductors
 • Silicone rubber insulation
 • Silicone rubber sheath
 • 660V grade
 • Colour coded cores up to 5 cores, above 5 core: black numbered cores + 1 green/yellow earth core

J55 Screened Teflon® Cable (-60°C to + 155°C) 600V

- Multistrand tinned copper conductors
- Tefzel (ETFE) insulation
- Overall tinned copper wire braid screen
- Teflon (FEP) sheath - WHITE
- 600V grade
- Colour coded cores
- Manufactured generally to MILC-27500 Specifications.

Belden® Screened Teflon® Cable (-65°C to +200°C) 600V

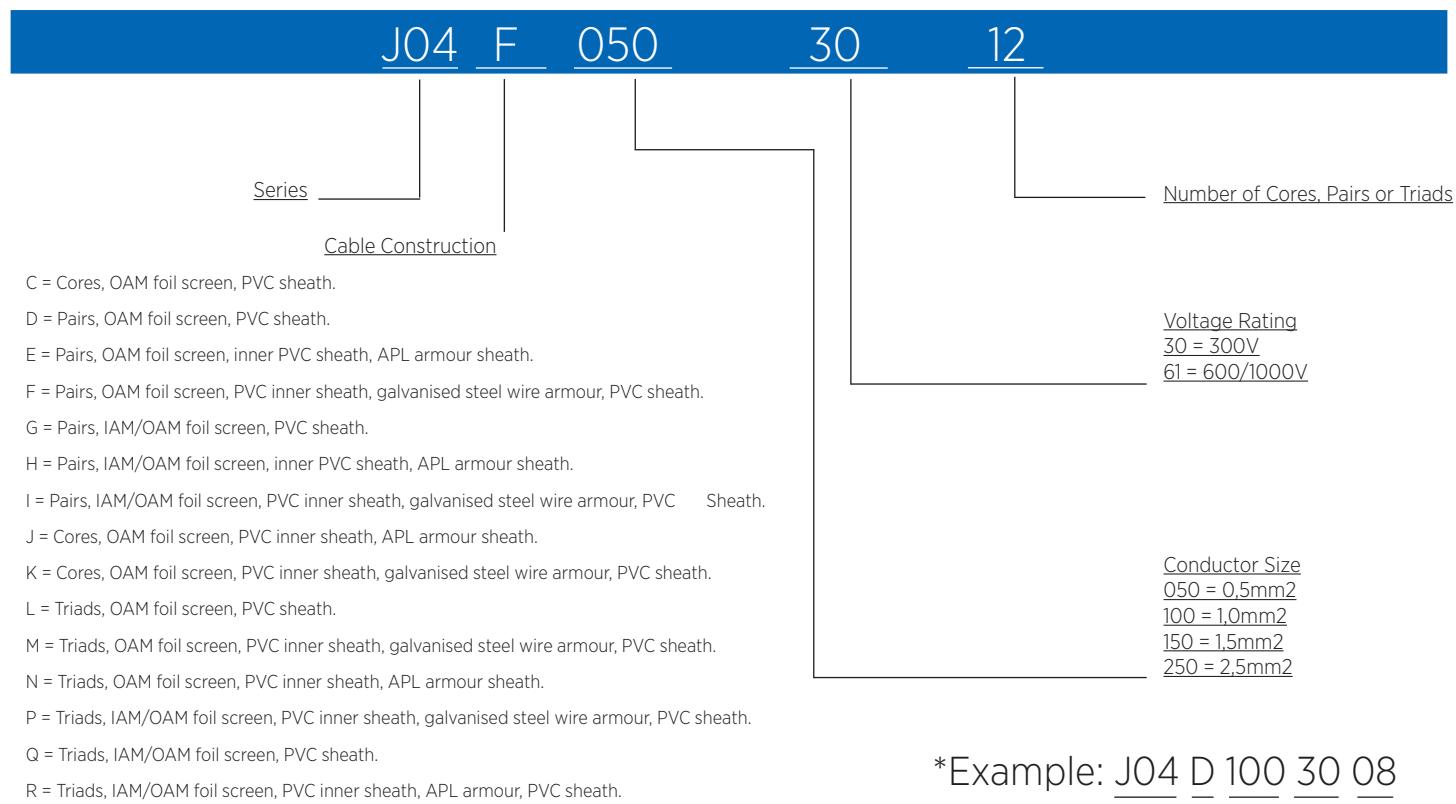

- Multistrand silver-plated copper conductors
- Teflon® (TFE - Tetrafluoroethylene) insulation
- Overall silver-plated copper wire braid screen
- Teflon® (TFE - Tetrafluoroethylene) sheath
- 600V grade
- Flame Test - UL1685 UL Loading, VW-1

JO4E Overall Screened + Armoured Jaybon Cable

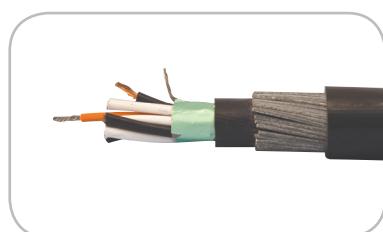

- Multistrand plain copper conductors.
- XLPE insulation, TWISTED PAIRS
- Tinned copper drain wire
- PVC insulated communication cord
- Overall aluminium-mylar foil screen
- Inner PVC sheath
- Aluminium-polyethylene laminated (APL) armour sheath

- 300V grade
- Black/white numbered pairs

For low halogen or halogen free versions, add: *HFRR - Halogen Free Flame Retardant, black with white stripe sheath
*LHCL - Low Halogen Chlorine, black with blue stripe sheath

JO4I Individually & Overall Screened + Amoured Jayarm Cable

- Multistrand plain copper conductors.
- XLPE insulation, TWISTED PAIRS
- Tinned copper drain wire (for individual screen)
- PVC insulated communication cord
- Individual aluminium-mylar foil screen
- Tinned copper drain wire (for overall screen)
- Overall aluminium-mylar foil screen
- Inner PVC sheath
- Galvanised steel wire armouring
- PVC sheath - BLACK (FR - Flame Retardant)

- 300V grade
- Black/white numbered pairs

For low halogen or halogen free versions, add: *HFFR - Halogen Free Flame Retardant, black with white stripe sheath
 *LHCL - Low Halogen Chlorine, black with blue stripe sheath

- Bi-colour insulations also available
- Temperature rating: -60°C to +155°C

Suitable for aircraft wiring and for applications where high temperature and resistance to chemicals is required.

Specification:
MIL-W-22759/16 and MIL-W-22759/18

Belden® MIL-W-16878/4 Teflon® Wires (200°C)

- 600V grade
- Many colours available

For complex, high density wiring applications where excellent electrical properties, small size and low weight are important factors.

- Temperature rating: -65°C to +200°C

Also available in 250V and 1000V grades.

- Multistrand silver-plated copper conductors
- Teflon TFE Insulation

Special Teflon® & Tefzel® Wires for Extreme Temperature & High Voltage Applications

Jaycor Part Number	Conductor size and type	No. of cores/pairs	Cable Construction	Nominal O.D.	Remarks

MIL-C-5015 Series Connectors MS Threaded Coupling

MS 3100E / MS 3100F

**WALL MOUNTING RECEPTACLE
WITH INTEGRAL CABLE CLAMP**

MS 3100E or MS 3100F wall mounting receptacles are used to carry wires through walls or bulkheads or to provide a means of disconnection at a Bulkhead. MS 3100E or MS 3100F receptacles mate with 3106 and 3108 styles. For new equipment customers should specify MS 3100F.

MS 3101E / 3101F

**CABLE CONNECTOR
WITH INTEGRAL CABLE CLAMP**

MS 3101E or MS 3101F cable connectors are used for cable extension requirements, where mounting provisions are unnecessary. MS 3101E or MS 3101F connectors mate with 3106 and 3108 styles. For new equipment customers should specify MS 3100F.

MS 3102E / MS 3102R

**BOX MOUNTING
RECEPTACLE**

MS 3102E and MS 3102R box mounting receptacles are used in junction boxes or as an integral part of equipment. These connectors are identical in construction and mate with 3106 and 3108 styles. For new equipment customers should specify MS 3102R.

MS 3106E / MS 3106F

**STRAIGHT CABLE CONNECTOR
WITH INTEGRAL CABLE CLAMP**

MS 3106E and MS 3106F straight cable connectors mate with 3100, 3101 and 3102 styles. MS 3106F is identical to MS 3106E except for 'O' ring under the coupling nut, thus effecting a seal. For new equipment customers should specify MS 3106F.

MS 3108E / 3108F

90 ° ANGLE CONNECTOR

MS 3108E 90 ° cable connectors (without "O" ring seal with cable clamp) are used where there is limited space and where wires must be brought at abrupt angles. This connector mate with 3100, 3101 and 3102 styles. MS 3108F is identical to MS 3108E except for "O" ring under the coupling nut.

PREFIX

Military Standard for E, F & R Construction

SHELL STYLES

- 3100 - Wall mounting Receptacle
- 3101 - Cable Mounting Connector
- 3102 - Box / Panel Mounting Receptacle
- 3106 - Cable Connector - Straight
- 3108- Cable Connector - angular

SHELL CONSTRUCTION

- E - Environment Resistance (With cable clamp for cable end connector)
- F - Environment Resistance (With cable clamp & "O" ring for 3106 & 3108 cable connector)
- R - Environment Resistance (for Receptacle 3102)

INSERT NUMBER

Consist of Shell Size 10SL, 12S, 14S, 16S, 16 18, 20, 22, 24, 28, 32, 36, 40, 44 and Contact arrangement code number of pin configuration as per JSS 50812(MIL-C-5015)
See Pages 6 to 11

CONTACT TYPE

- P - Male
- S - Female

ALTERNATE INSERT POSITION

W, X, Y or Z for alternate position depending on insert
(Omit for standard position.)
See Pages 12 & 13

* SPECIAL

GP - Flash Gold Plated Contacts
SI - Silicon Insert

NI - Nickel Plated Shell (Omit for standard)
ENI - Electroless Nickel plated shell
ZCG - Cadmium Free Zinc Alloy, Plating-Green

ACCESSORIES

C & C - Cap and Chain Assembly
TB - Telescoping Bushing
DC - Dust Cap

SQG - Square Gasket for Receptacle 3100, 3102
(Accessories are not in scope of standard supply)
See Pages 17 to 21

MODIFICATION

A-30 - Crimp contacts-Silver plated
C-30 - Crimp contacts - Flash Gold plated-
Available in select contact sizes
211 - Less backshell grommet & follower
PMC - Pre Mating Contact
(Modifications are not in scope of standard supply)

GENERAL SPECIFICATION

Shell Housing	Aluminium Alloy
Plating	Olive Drab Cadmium
Insulator	Polychloroprene
Contact Material	Copper Base Alloy - Silver Plated
Mating Cycle	500
Operating Temperature	- 55 ° C / + 125 ° C
Insulation Resistance	Min. 5000 Meg Ohms at 500 VDC
Current Rating	Upto 150 Amps. (Depends on Contact Arrangement)
Working Voltage	200 to 3000 VAC rms (Depends on Contact Arrangement)
Wire Termination	Solder Type

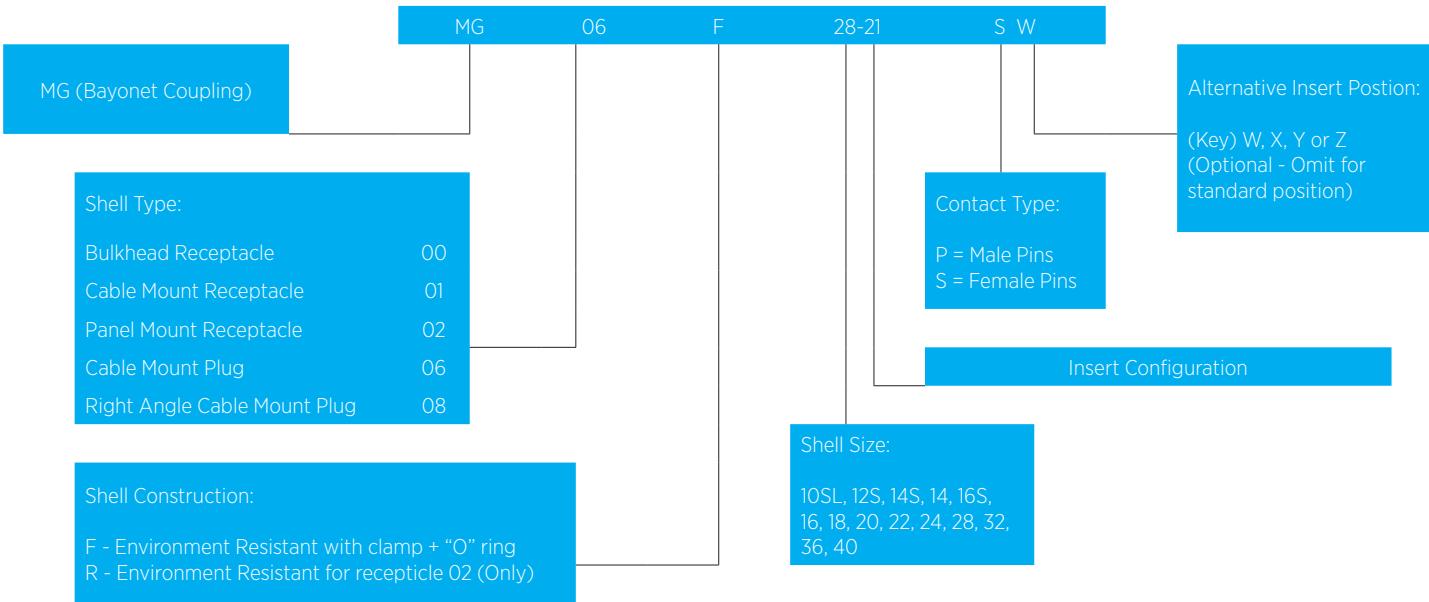

MG circular bayonet coupling connectors are MIL-C-5015 'type' connectors that provide superior performance.

MG Bayonet is designed for the most difficult environmental conditions. The insulators, grommets and 'O' rings are all made of high quality polychloroprene that can withstand temperature extremes from -55°C to + 125°C. to be used in industrial processing plants, power stations, factories and any other required indoor or outdoor applications.

The number of contacts available can range from 1 to 150 including mixed high and low current options, and there are various connector shell styles to choose from to suit your application. A quick 120 degree turn of the coupling nut and it audibly locks into place.

MG Connector Part Number Construction

LEMO Multipole Connectors

The Original Push-Pull Connector

LEMO is the acknowledged leader in the design and manufacture of precision custom connection solutions. LEMO's high quality push-pull connectors are found in a variety of challenging application environments including medical, industrial control, test and measurement, audio-video, telecommunications, Defence and Aviation.

LEMO has been designing precision connectors for six decades. Offering more than 50,000 combinations of product that continues to grow through custom specific designs. LEMO, and its affiliated sister companies REDEL and COELVER, currently serve more than 100,000 customers in over 80 countries around the world.

Part Number Example:

Cable Mount Plug:

FGG.1B.306.CLAD62 - straight plug with key (G) and cable collet, 1B series, multipole type with 6 contacts, outer shell in chrome-plated brass, PEEK insulator, male solder contacts, D type collet for 6.0 mm diameter cable.

Cable Mount Socket:

PHG.1B.306.CLLD62Z - free socket with key (G) and cable collet, 1B series, multipole type with 6 contacts, outer shell in chrome-plated brass, PEEK insulator, female solder contacts, D type collet for 6.0 mm diameter cable and nut for fitting a strain relief boot.

Panel Mount:

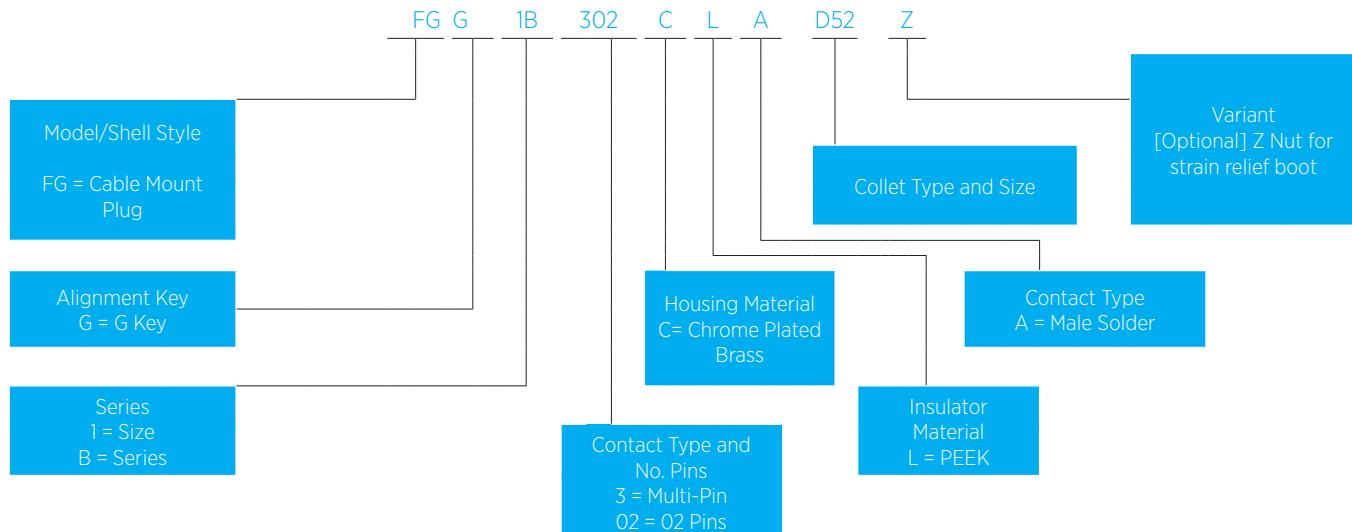

EGG.1B.306.CYM - fixed socket, nut fixing, with key (G), 1B series, multipole type with 6 contacts, outer shell in chromeplated brass, PEEK extended insulator, female crimp contacts.

To view LEMO's complete multipole connector range, refer to the LEMO Unipole & Multipole Connector catalogue.

LEMO's full range of products are available for download online www.jaycor.co.za.

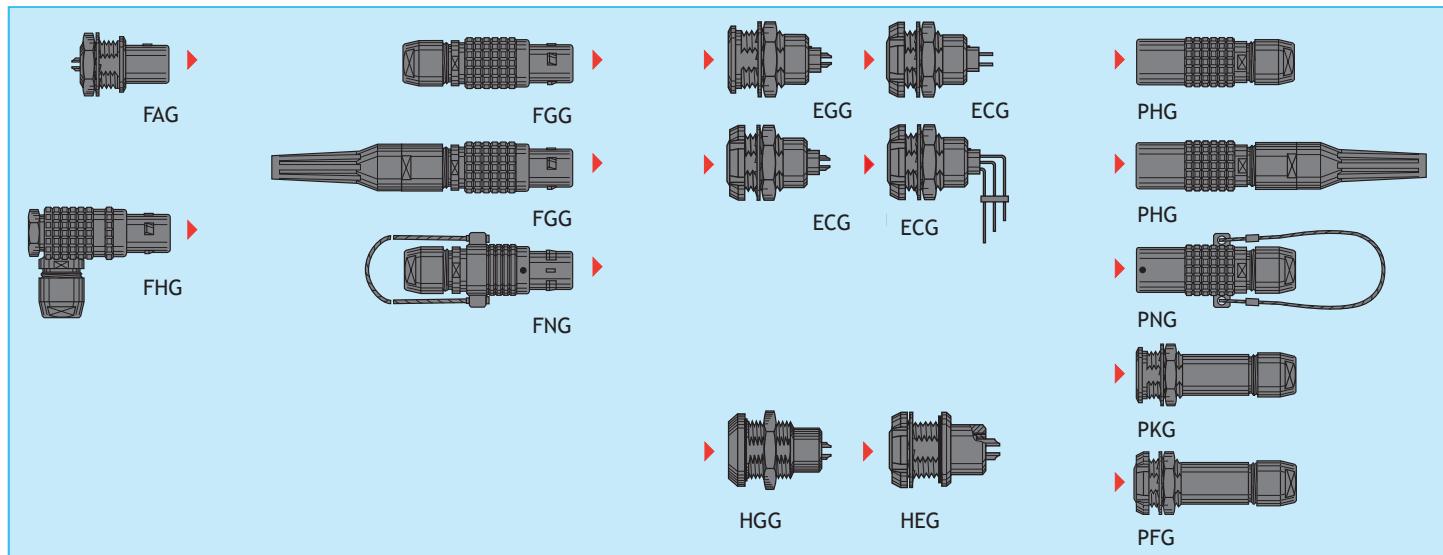

LEMO Connector Part Number System

B Series Connectors IP50

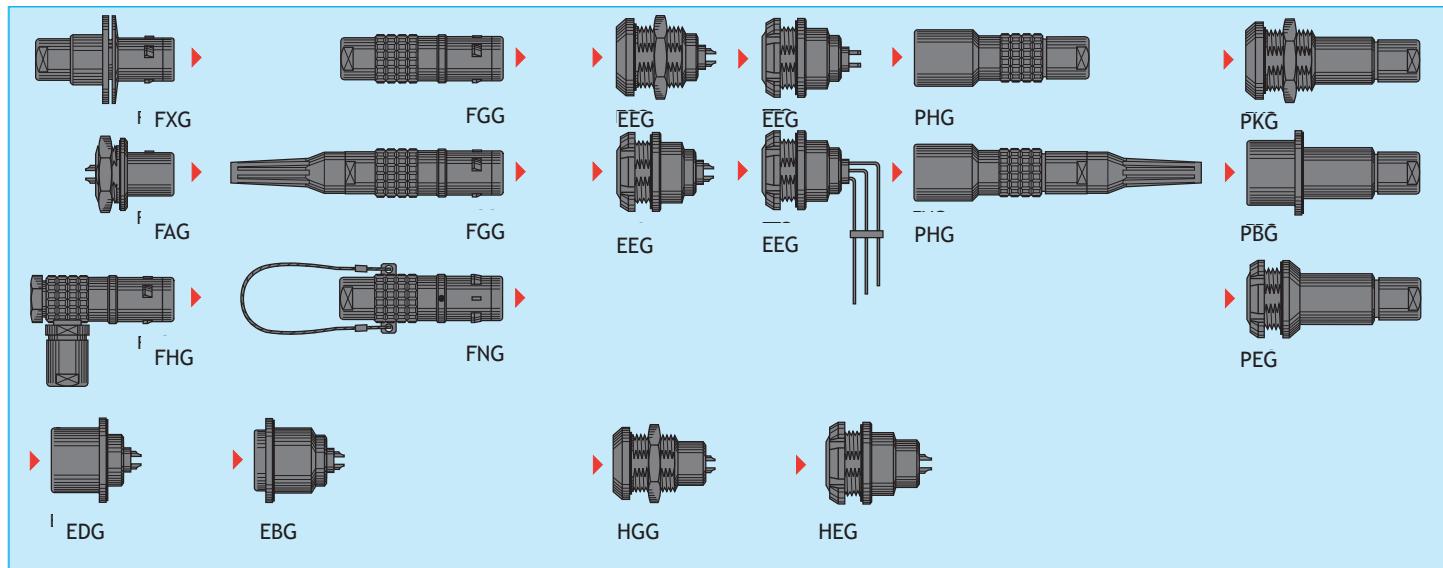

- security of the Push-Pull self-latching system
- solder, crimp or print contacts (straight or elbow)
- multiple key options to avoid cross mating of connectors
- 360° screening for full EMC shielding.
- multipole types 2 to 64 contacts
- high packing density for space savings
- keying system («G» key standard) for connector alignment

K Series Connector Models IP68

Specifically designed for outdoor applications. They include an inner sleeve and two seals to prevent penetration of solids or liquids into the housing formed by the plug, free socket, fixed socket or coupler. All models of this series are watertight when mated to give a protection index of IP68 as per IEC 60529 standard (in mated condition) when correctly assembled to an appropriate cable, (IP66 otherwise).

- security of the Push-Pull latching system
- watertight connection (IP 68/IP 66)
- multipole types 2 to 64 contacts
- solder, crimp or print (straight or elbow) contacts
- keying system («G» key standard)
- multiple key options to avoid cross mating of connectors
- 360° screening for full EMC shielding
- high packing density for space savings
- rugged housing for extreme working conditions.

Full Connector model drawings, dimensions and technical specifications can be viewed in detail in the LEMO® Unipole and Multipole connector catalogue. Contact your local Jaycor sales office for more details, or download the catalogue online at www.jaycor.co.za

M Series - Ratchet Coupling Triple-Start Micro Connectors

For designers of man-portable, vehicle-mounted and aerospace electronics, the M-SERIES is the smallest multi-pin, fully shielded, vibration-secure and sealed connector available, offering a lightweight, 'one-grip' screw-lock connection with high pin-count density, 360° EMI protection, and LEMO rugged quality.

For many of these military and aerospace applications, designers first seek MIL 38999 series connectors but when space is at a premium they need a smaller, higher contact density solution and the connector size becomes critical.

LEMO M-Series is made of high-strength aluminium and incorporates a triple start fast-locking ratchet mechanism, which enables quick and secure coupling of the connector for use in high vibration and harsh environments.

The M Series connector is one of the lightest and most compact connectors of the LEMO product range providing a significant size and weight advantage over MIL-38999 connectors as well as over other micro circular connectors.

Full M Series Connector model drawings, dimensions, contact arrangements and technical specifications can be viewed in detail in the LEMO M Series connector catalogue. Contact your local Jaycor sales office for more details or download the catalogue online at www.jaycor.co.za

B2B Ecommerce Platform

JAYCOR supports Industry 4.0 and the Industrial Internet of Things (IIoT) by supplying automation connectivity products, services and solutions to businesses across Sub-Saharan Africa.

Mission critical components are required for automated factories, transport hubs, smart grids and industrial network infrastructure of all kinds. Physical access to and procurement of these products is essential to minimizing downtime and maximizing profitability.

For end-users, finding the right product for their application can often be challenging. To overcome these challenges, JAYCOR developed a smart B2B ecommerce platform to assist our customers, their engineers, technicians and buying departments in finding the right products quickly and easily. The ecommerce platform is incredibly dynamic and functional; searching through thousands of products is quick and easy. Check real-time stock availability, pricing, production due dates, and place orders and even generate quotes online. The platform supports desktops, tablets and mobile devices for quick-access, on-the-go ordering, anywhere, day or night.

1. Dynamic search filters – Find what you need, fast

Search by main or sub-categories and in granular detail

Filter (Main Categories)
Industry
Application
Brand
Product Rating
Specification
Product Group

Sub-categories depend on the selected 'Product Group'

Cable Type	Quad
Conductor Size	22AWG
Voltage	300
Screen	OAM Foil + TC Braid
Sheath	PVC

jaycor.co.za

2. Access Real-time product info:

Add to cart

- 1000 +

Add to Wishlist

CHECK QTY
573 available for
dispatch,
balance will be
approximately 8-10
weeks delivery

3. Wish list – your own personal catalogue:

- Save products to your personal wishlist

Hand Only T&C's Apply)

AVAILABLE IN STOCK

Generate Quote

4. Payment methods for B2B and B2C customers:

- On account
- EFT or Credit Card

5. Quote generator:

- Add your required items and quantities to the cart and generate PDF quote.

6. Online Agents:

Chat with us, we are online!

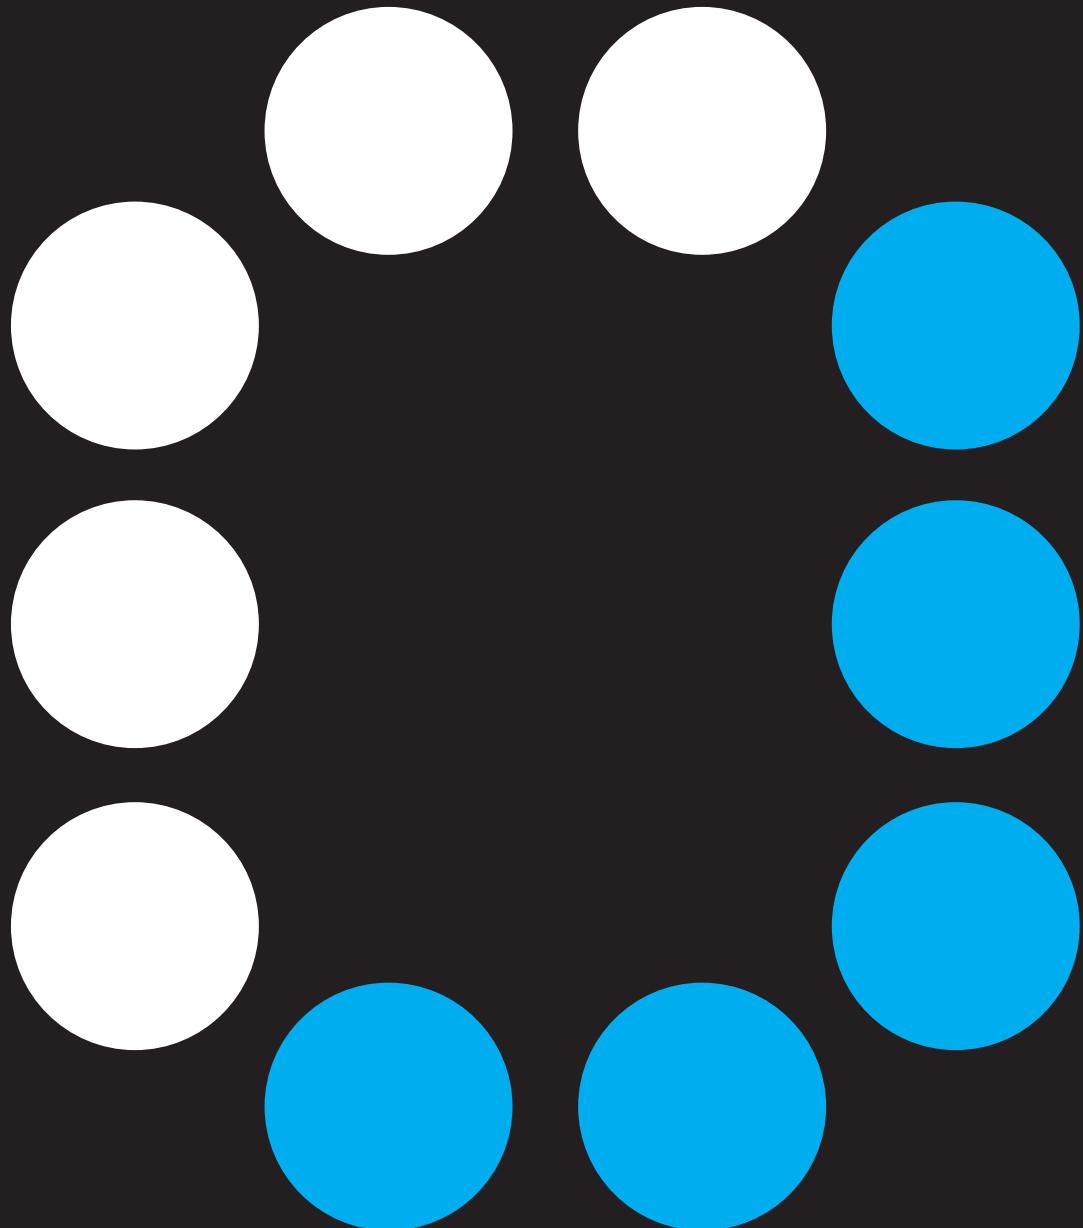

- Chat with sales agents online by Instant Message

Innovation

Supporting Industry 4.0 and the IIoT is pivotal to the development and maintenance of new industrial network infrastructure. The smart ecommerce platform provides end-users with clarity and control - 24hour access to products, real-time stock and price info, and the ability to self-procure.

JAYCOR has a vast network of products and brands with tens of thousands of products in our portfolio. The smart ecommerce platform currently has over 2,500 products with many more added regularly.
