We've been hard at work on your kitchen since 1968

In 1968, we expanded our range of home furnishings to include kitchens. Our goal was to create good, functional and long-lasting kitchens that people could actually afford. 44 years later, we're still guided by precisely the same values. And we still ask ourselves the same question: how can we find ways to improve our kitchens, so that you can enjoy a better everyday life at home? Here's how.

We've filled this year's brochure with as much inspiration and as many ideas as we possibly could. At prices to bring your dreams within easy reach. It's all here, in these 86 pages of great kitchens, coordinated appliances and a wide range of kitchen services. Enjoy!

*End unit: a 37cm
 deep wall cabinet
 with drawers*

Kitchen tips #1: Rustle up a bit of room

Try creating ① a U-shaped kitchen, making use of all available walls. Mounting ② wall cabinets all the way up to the ceiling. Choosing ③ a dishwasher that's 25% less wide than a regular dishwasher. And using ④ a 37cm deep wall cabinet as an end unit, with drawers opening away from your work area, to free up the central floor space. These are just four simple ways in which to generate more space for a fantastic, functional kitchen in just 5.5m².

Kitchen tips #2:

Save time and energy

Planning to buy **1** an induction hob? Good choice. It's truly a system with great benefits. To start with, it's super-fast. Up to 60% faster than glass ceramic hobs. Secondly, it uses up to 40% less energy. There you have it: a speed-heating, energy-saving, cooking appliance. All in all, what's not to like about that? Read more about how to live a sustainable life at home at IKEA.co.uk/peopleandplanet

new ROCKHAMMAR brown wood effect kitchen with FAKTUM frame £1510 ROCKHAMMAR doors/drawer fronts in foil finish. Styled with FÅGLAVIK black powder-coated zinc handles/knobs and PRÄGEL black stone effect laminate worktop.

FROSTIG BC155 integrated fridge £250 501.994.80 See page 78

Kitchen ideas #3:

Want the whole 9 yards?

Masses of worktop, comprehensive kitchen function, total style. An extensive island layout like this one can give you the cooking functions of a regular kitchen, plus the social networking a kitchen island affords. Thanks to ① the U-shaped design and ② the low base cabinets, everything will be within easy reach. Add ③ an extra deep worktop, and you get a superb bar solution. At a price that won't stretch your finances.

Wire basket with handle £6 20×19, H23cm. 102.381.48
Wire basket with handle £7 30×20, H24cm. 702.381.69

Kitchen ideas #4:

The handy plinth drawer

If you really want to maximise the storage space in your kitchen, we definitely recommend installing **1** plinth drawers. Put them underneath your cabinets, and you'll see that they're ideal for storing away everything from foil and baking trays to tea towels and cookie cutters. Or if you have young children, the colouring-in books can live in there for when Picasso gets in from play school.

3.5m²

RAMSJÖ white kitchen with FAKTUM frame £1285

RAMSJÖ doors/drawer fronts in tinted solid birch/birch veneer and glass doors in tempered glass. Styled with SVEP black powder-coated zinc handles/knobs and NUMERÄR solid birch worktop.

DINERA side plate £2.50 Stoneware. Designer: Susan Pryke. Ø20cm. Grey-blue. 501.525.43

Kitchen ideas #5:

An island with a table for two

If your room layout allows it, planning your kitchen around a kitchen island can be a great idea. You can easily turn it into a multifunctional ① cooking ② storage ③ washing up and ④ snack bar area – in a space as small as 3m². Want more island ideas? Talk to one of our kitchen experts at the IKEA store or check out kitchen island solutions online at IKEA.co.uk

Kitchen ideas #6:

Cater for kids in the kitchen

Cats don't have the monopoly on cupboard love. Whatever their age, kids love to hang out in the kitchen with you. So why not make it maximum child-friendly? In this kitchen, youngsters could enjoy ① their own play surface alongside you, at a safe distance from the cooking action. When the toys get put away, reclaim the extra workspace yourself, maybe for that yummy mummy coffee in a brief moment of calm. Make the most of it!

ÅRSTA white/aluminium kitchen with FAKTUM frame **£3125** ÅRSTA doors/drawer fronts in foil finish and aluminium. Styled with PRÄGEL light oak effect laminate worktop.

Kitchen ideas #7:

Great value starts here

If you're looking for a kitchen with all the key basic functions, and amazingly inexpensive, try FYNDIG. Yes, the fantastic price is almost unfathomably low. But we can assure you that the quality stands up to years of everyday wear and tear. To make life easy, the cabinets come as complete units with doors, drawers, hinges and adjustable legs. Then you can customise FYNDIG through your choice of worktop, sink, appliances and more.

INGOLF bar stools
with backrest

£45/ea

Kitchen ideas #9: A fresh approach

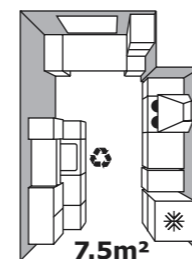

Try a new way of thinking for that space beneath your kitchen window. ① Place a base cabinet on either side, ② add a length of worktop, and ③ some stylish barstools. Now smile and enjoy the early morning with your muesli. It's the perfect place to linger over elevenses, or do a spot of work on your laptop. Others can sit here contentedly and watch while you cook them a meal. Or vice versa? We live in hope.

BEKVÄM kitchen trolley
£35

BEKVÄM kitchen trolley £35 Solid wood. Can be sanded and surface treated as required. Solid birch. 60x50, H85cm. 700.117.93

Kitchen ideas #10:

Four sizes for infinite variety

Is your kitchen a perfect cube of equal measurements and right angles? Probably not. That's why FAKTUM, our kitchen system, offers wall cabinets in four different heights: ① 35cm ② 57cm ③ 70cm and ④ 92cm. That way you can fit out your kitchen, including sloping ceilings, awkward angles or tight spaces.

NEXUS birch veneer kitchen with FAKTUM frame £1710
NEXUS doors/drawer fronts in tinted birch veneer. Styled with ATTEST stainless steel handles and NUMERÄR double-sided, red/white laminate worktop with white edge.

MAGASIN rolling pin £2.70 Solid birch. L43cm. 764.856.05

Kitchen ideas #11:

Have your cake and eat it

Limited floor space? Not enough room for a standard dishwasher? That's easily sorted. First, check if you can use 1 37cm deep wall cabinets instead of regular 60cm base cabinets. That way you'll gain 23cm of floor space. And if you'd need another 10–15cm to fit a standard dishwasher in your kitchen, opt for 2 a 45cm wide model like HJÄLPSAM instead. You get the room to manoeuvre that you'd love, and the dishwasher, too. Whoever's doing the cooking. For more space-saving ideas, see pages 36 and 38.

ABSTRAKT high-gloss yellow-white and RUBRIK black smoked glass kitchen with FAKTUM frame £1760 ABSTRAKT doors/drawer fronts in foil finish and RUBRIK glass doors in tempered glass and aluminium. Styled with KANSLI chrome-plated zinc handles and PRÄGEL walnut effect laminate worktop.

BEKVÅM step stool £14 Stained solid beech. 43x39, H50cm. Black. 301.788.84

Kitchen ideas #12: Style is in the detail

Love this kitchen? Here's how we created the style. To emphasise the overall dark expression, we selected **1** a black worktop and **2** a black hood. Then to enhance the effect, we used **3** a light wall colour, using white tiles. To create a cohesive result, we chose **4** knobs and wall rails in the same vintage style as the door. Want more tips and ideas? Just turn the page...

FÅGLEBODA handles
£5/2pk

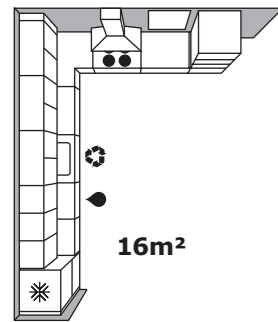

We built this glass door cabinet by putting six wall cabinets (40cm wide, 37cm deep) on top of three base cabinets (40cm wide, 60cm deep).

Kitchen ideas #13: Follow the rule of thumb

One of the secrets behind a great kitchen lies in the arrangement of workspace. Make sure there's enough* space on both sides of ① the sink and ② the hob, and ③ generous food preparation space between. Have this in mind when you're planning, and your kitchen will get the thumbs up.

* For recommended measurements, see our Planning Guide (available at the store and online).

From start to finish in 4 steps

1 Find your kitchen

Take your time to get a good overview of styles, solutions and prices before deciding. You can find even further inspiration in the main IKEA catalogue and online at IKEA.co.uk/kitchens

2 Start planning

Take your kitchen measurements and start visualising your ideas right away with our free 3D planner. You'll find it at IKEA.co.uk/kitchenplanner

3 Time to finalise

When your key plan is ready, including storage and your appliances, it's time for finishing touches. Things like organisers and trolleys add not only more function but also style. And don't forget lighting, to make your kitchen look good and work well.

Help

Contact our kitchen experts at the store if you need any assistance.

4 We support you

An IKEA kitchen is constructed so you can assemble and install it yourself easily, to save money. But if you want, we can help with delivery, assembly, installation and finance. For more details, see page 54 or contact the kitchen planning specialists at your local IKEA store.

Picking and Delivery Service

Delivery Service

Assembly Service

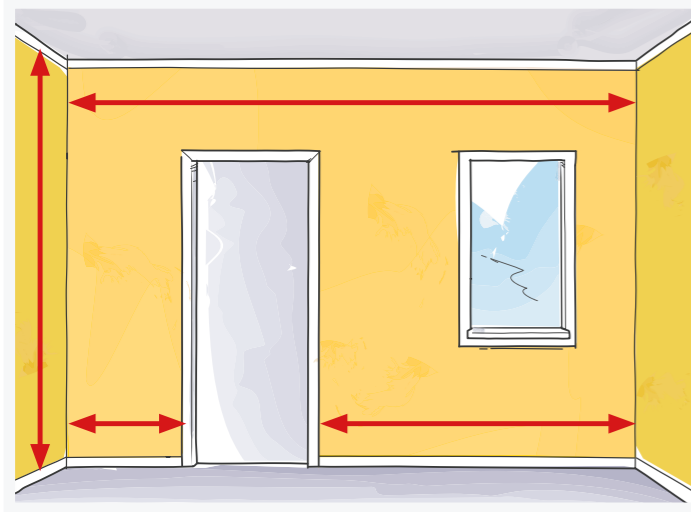

Installation Service

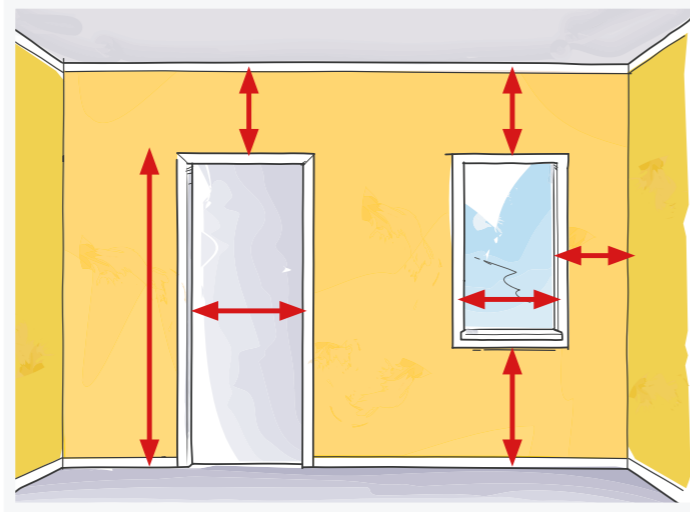

Finance

Very important

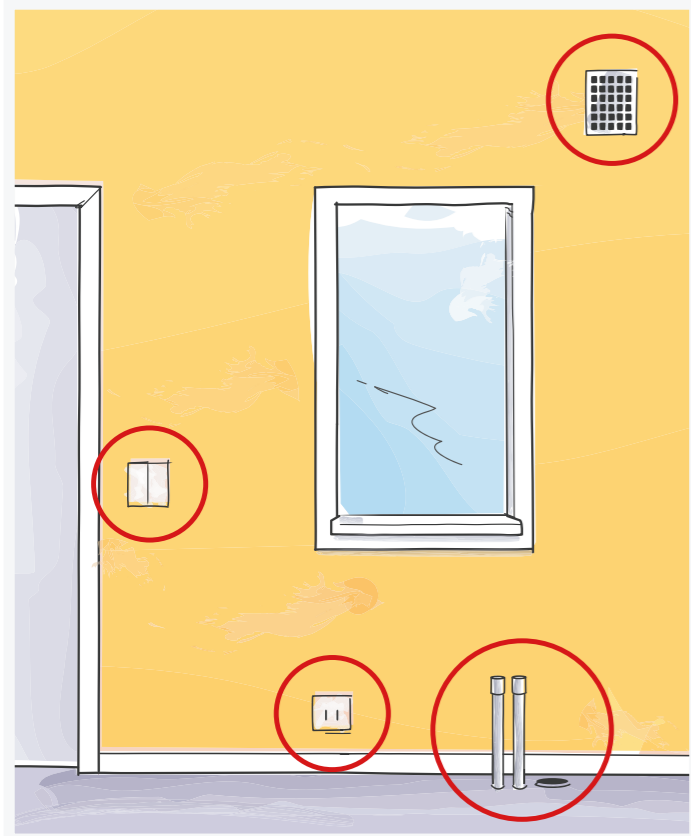

A perfect kitchen starts with precise measurements. Here's how you do it

1. Start by measuring your walls and the distances from corners to doors.

2. Measure the width and height of each window and door, plus their distance from the floor, ceiling and adjacent walls.

3. Measure anything that sticks out into the room such as radiators, ventilation shafts and pipes.

Measure and note the position of existing power outlets and light switches. Note where you would like new ones to be.

Note the position of your drains and water supply. If you are planning to relocate these, note their new positions.

Don't forget to bring both these measurements and your IKEA Home Planner login credentials with you to the store, so that we can give you any help to plan and design your new kitchen.

Very helpful

Draw it, build it and get a full 3D view of your new kitchen with the IKEA Home Planner

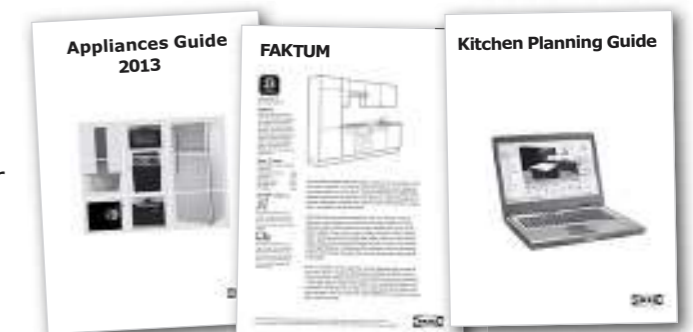

Be your own designer with our free online planner. Easy to use, our software helps you explore different layouts, product combinations, colours, finishes and functions before you come to the store. It helps you calculate the exact price of your chosen combination,

and tells you if everything is available in your store. Then you can print out a picking list to make your shopping visit to the store an easy, faster experience. Try the planner online at home, or in the kitchen area at the store. Go to IKEA.co.uk/kitchenplanner

Very detailed

If you'd like any more help or information, just download our detailed buying guides and installation guide at IKEA.co.uk or pick up free printed copies at the store.

You can do it yourself, but you don't have to

Don't want to do everything yourself? No problem. We've put together a number of affordable services you can choose from – whether it's the planning, the fitting, the fetching and carrying or a bit of help with the finances. Just contact your local IKEA store, or read more at [IKEA.co.uk/services](https://www.ikea.co.uk/services)

Kitchen Planning Service

You can plan your new IKEA kitchen by yourself. But if you prefer, a kitchen expert can come to your home and plan your new kitchen with you. During the appointment, they will take accurate room measurements and consider how you like to use your kitchen, working within the space you have, to help you plan the perfect kitchen to suit your everyday needs.

Assembly Service

Most IKEA products are designed in such a way that you can easily assemble them yourself. That way, you get the very best value. However, if you prefer, you can leave the assembly of your purchase to our professional, independent partners in your area, for a competitive price. This service includes a **free 1-year workmanship guarantee** and disposal of packaging in an environmentally friendly way.

Picking and Delivery Service

If you love to get home furnishing inspiration in our stores and love our furniture products but are not so keen on fetching them from the shelves yourself, then why not leave the picking and the delivery to us. Just order and go!*

* Applies to furniture items only. Ask in store for more details.

Kitchen Installation

Our FIRA Gold certified and IKEA coordinated kitchen installation service can save you valuable time, especially when it comes to the trickier jobs like fitting sinks, taps, worktops and appliances. We offer a range of installation options that can be tailored to suit your needs, all at a great price. Our installation service comes with a **free 3-year workmanship guarantee**. It includes a pre-installation visit to ensure measurement and order accuracy. Optional interest-free credit on kitchens and kitchen installation. For more information please see in store.

Home Delivery Service

Most IKEA products are flat-packed and designed in such a way that they are easy for you to take home yourself. However, we can arrange same day/next day* home delivery for you within the store delivery area** at a great price. The prices are valid for your local store delivery region only. Please speak to a member of staff for full terms and conditions.

* Same day/next day delivery is subject to availability at our local transport partner.** Please enquire at one of the information desks for the postcodes included in our store delivery area and for prices for deliveries outside the store delivery area.

Finance Service

If you've found the solutions to create your dream home, but need some help spreading the cost, we can offer you a range of finance options to help you make the dream a reality. Check at your local store for more information. Terms and conditions apply.

HOW TO CHOOSE worktops, sinks and taps

Quick guide: materials

Laminate

Durable all-rounder. Heat, water and scratch-resistant, and easy to clean and maintain.

Wood

Hard wearing and natural. Pre-treated with oil. Just needs additional oiling and sanding now and then to maintain its beautiful quality and finish.

Acrylic

Withstands water, bacteria and stains. Easy to clean. The only worktop material that can be fully integrated with your sink.

Stone

Great option if you're looking for a moisture-resistant, hard wearing, scratch-resistant and maintenance-free worktop.

Worktops must withstand a lot. We make sure they do. We test all of our worktops carefully so that they cope with everyday wear and tear for a very long time.

FREE
25
Year
Guarantee

All worktops have a **free 25-year guarantee** (except LAGAN and FYNDIG). Find out more on page 82

Pre-cut or custom-made?

Pre-cut worktops are available in standard lengths in laminate or solid wood.

A good option when:

- you have a straight line kitchen (maximum 246cm)
- you want to take home your worktop today

Custom-made worktops

are adapted to your needs. Available in laminate, wood, acrylic and stone. A good option when:

- the dimensions and layout of your kitchen demand a tailor-made solution
- you want a ready-made worktop delivered to your door

A fully integrated sink

Order an acrylic sink and you have the option of including a moulded integrated sink. They are cast in one piece, giving a simple, hygienic finish that's available in two different colours: white or beige. Interested? Talk to a kitchen expert at your IKEA store.

More info!

We offer a free, detailed buying guide about our worktops, sinks and taps. Pick up a copy at the store or download it at IKEA.co.uk

Facts

IKEA taps reduce water consumption by up to 40% without any loss of pressure

Choose your tap

The best tap for your kitchen? It all depends on your needs and preferences. Learn more about the two popular types here.

Single lever

A single handle makes it easy to control the temperature and flow with one hand.

High spout

High spout taps are great for washing big pots, or filling vases.

Choose your sink

Single bowl, 1½ bowl or double bowl? Here's some basic info about our sinks in stainless steel and porcelain.

Single bowl

Lots of space for rinsing food and doing the dishes. Mini sink bowl for pouring out leftover liquids while you're washing up. No pre-drilled hole: you decide where to put the tap.

Single + drainer

Room for both washing up and drying dishes. (Keeps water away from the worktop, too). Reversible. No pre-drilled hole: you decide where to put the tap.

Double bowl

Classic sink type with space for dishes, rinsing and draining. Reversible. No pre-drilled hole: you decide where to put the tap.

1½ bowl with drainer

The all-in-one sink: washing up, rinsing and drying in one unit. Reversible. No pre-drilled hole: you choose where to put the tap.

Porcelain sinks

Smooth finish, easy to clean and nearly impossible to scratch or stain. Pre-drilled holes for the tap.

All our taps comply with the market standards.

Laminate worktops withstand most liquids – from water and wine to oil, hot drinks and chemicals.

WORKTOPS PRE-CUT

Pre-cut worktops are available in set lengths, widths and thicknesses and can be taken home today. Choose between laminate in many different styles and colours, or wood in birch, beech and oak.

FREE
25
Year
Guarantee

All worktops have a **free 25-year guarantee** (except LAGAN and FYNDIG). Find out more on page 82

Even though laminate worktops are very durable, we recommend using a chopping board when preparing food, and trivets to protect your worktop from hot pans.

Wood: a natural, living material, is easy to renew and maintain in good condition. Stains and scratches are easily removed through occasional sanding and oiling.

LAMINATE

A practical, durable material. Heat, water and scratch-resistant, and easy to clean and maintain. Depending on what front edge you prefer, you can choose between PRÄGEL (rounded) and NUMERÄR (square).

Year
Guarantee

All PERSONLIG custom-made worktops have a **free 25-year guarantee**. Find out more on page 82

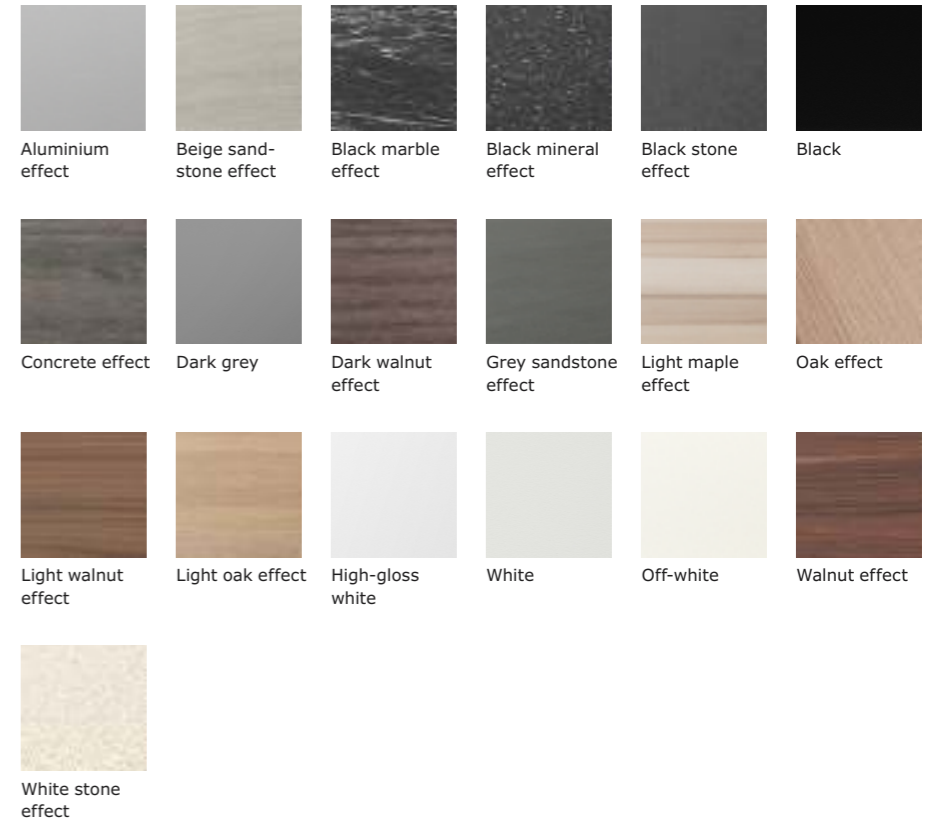

How is the total price calculated? The total price (see guide to the right) is based on a 284 x 62cm worktop with a rounded edge on the front and one side. The worktop comes with a pre-cut opening for the hob and an under-glued sink.

PERSONLIG	Worktop with rounded edge	Cut-out for hob	Under-glued sink	TOTAL PRICE
1. Laminate	£145.62	£23	£250	£418.62
2. Wood beech	£319.12	£56	£225	£600.12
3. Wood birch	£398.64	£56	£225	£679.64
4. Wood oak	£374.88	£56	£225	£725.08
5. Acrylic	£603.54	£33	£250	£886.54
6. Stone	£929.28	£102	£375	£1406.28

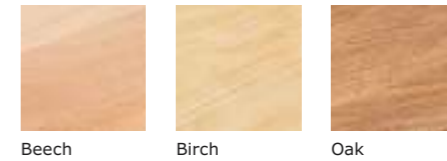

PERSONLIG laminate

Laminate worktops are water-resistant, and very easy to clean and maintain. Custom-made laminate worktops can be combined with a choice of edging strips in polypropylene or solid aluminium.

PERSONLIG wood

Hard-wearing and natural. All solid worktops are pre-treated with oil, but will need additional oiling and sanding now and then to maintain its quality and finish.

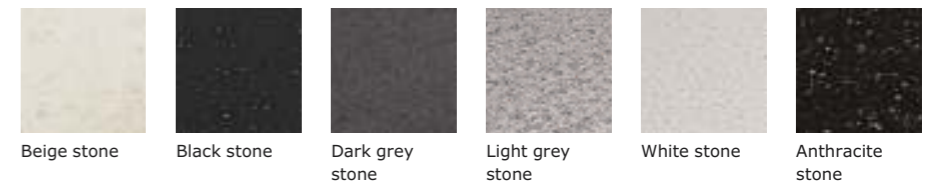

PERSONLIG acrylic

Acrylic worktops are water, bacteria and stain-resistant, and easy to clean thanks to the virtually seamless surface.

PERSONLIG stone

Extremely durable. Maintenance free. Stain-resistant and easy to keep clean. Available only as part of a full IKEA kitchen installation.

BOHOLMEN single-bowl inset sink drain and strainer with trap £60 Reversible. Can be used with the drainer to the right or left. Fits cabinet frames min. 50cm wide. Stainless steel. Designer: Mikael Warnhammar. 70×50, H18cm. 598.474.50

HOW TO CHOOSE ovens, hobs, fridges and freezers

All our appliances are developed in close cooperation with Electrolux and Whirlpool Corporation.

Cookware for induction hobs

Looking to buy an energy-efficient induction hob? Good choice! Just remember that you'll need pots and pans with magnetic bases. Check by holding a magnet underneath your cookware, and you'll know if your pots and pans are safe to use. If they're not, you'll find a wide range of cookware that's perfect for induction hobs, (such as IKEA 365+ and FAVORIT), in our cookware department in store.

Facts

Induction hobs heat up to 60% faster than glass ceramic hobs and use up to 40% less energy

Small... but perfectly informed

Product symbols carry a lot of useful information about each appliance's specific features and benefits, to help you make the perfect choice.

Integrated vs free-standing

Integrated means matching fronts and allows you to fully hide your appliance behind a door with the same style as the rest of your kitchen.

Free-standing means easy to move around and replace which gives you increased layout flexibility compared to an integrated solution.

Only A+ and A++

The higher energy rating you choose, the more environmentally friendly appliance you get. Our fridges, freezers and dishwashers are rated A+ and A++. This means that they're among the top performers when it comes to saving energy and water. And, hence, they're also very good at reducing your energy bills.

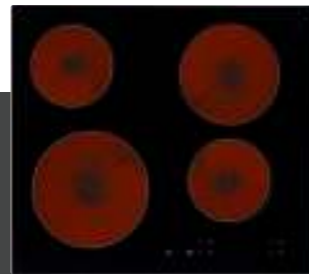

Induction, glass ceramic or gas?

At IKEA you have three hob types to choose from, each of them with special features for different needs and preferences.

Induction

Induction is powerful and energy-efficient. It heats up food extremely fast, and cools down automatically as soon as you remove the pot from the burner (residual heat may be present). The smooth glass surface makes the hob very easy to clean.

Glass ceramic

Glass ceramic hobs give an even heat and have a smooth easy-to-clean surface of tempered glass. Some have variable cooking zones that can be adapted to the size of the cookware.

Gas

Gas hobs heat up instantly, and the temperature is easily regulated. IKEA gas hobs have electric ignition and integrated safety valves that shut off the gas if the flame goes out.

Good looking, great cooking

All our new ovens are designed to fit our IKEA kitchens perfectly, and to match our range of microwave ovens. So you can be sure of great results with your cooking, and complete coordination with your kitchen style.

More info!

Pick up a copy at the store or download it from IKEA.co.uk

OVENS

A new range of ovens with features that make your daily cooking easier than ever before, in styles that match our microwave ovens and the entire design of your kitchen.

- Energy consumption with a standard load, forced air: 0.78kWh
- Usable volume: 57L
- Size of oven: medium 35L <= volume < 65L
- Noise level: 47dB (A)

What do the symbols mean?

- Forced air** The fan spreads preheated air evenly throughout the oven, allowing simultaneous cooking of different foods at different levels without the foods taking on flavours from one another. The oven warms up quickly and holds an even temperature. Saves time and electricity.
- Top and base heating** Combination of higher heat in the top part of the oven and lower in the base. Ideal for slow cooking and gratin.
- Top heating** Gives a crispy finish and cooks the top of the food thoroughly. For baking gratins and desserts.
- Base heating** Gives the underside of the food extra heat without burning the top. Ideal for cooking fruit cakes, quiches and pizza, especially at the end of the cooking cycle to brown the base.
- Grill** For grilling small amounts of food, and for even results. Ideal for vegetables or small pieces of meat.
- Fast grill** For grilling steak, kebabs and sausages, vegetables au gratin, and for toasting bread.
- Grilling and fan** Allows you to grill, brown and cook larger dishes and meat, thoroughly.
- Fast grill with fan** To grill large joints of meat (roast beef and other roast meats).
- Convection bake** Ideal for baking cakes with liquid filling (sweet or savoury), tarts and other pastry.
- Bread and pizza baking** For a more intensive browning and a crispy base.
- Meat function** To prepare very tender, moist roasts.
- Keep warm** Does what it says... Keeps food warm after cooking is complete. Now you can rest the meat like the TV chefs keep telling us to. It's also perfect when feeding the 5000 in shifts.
- Defrost** For fast, safe defrosting.
- Pyrolytic cleaning** Burns off grease and dirt, turning it to ashes that you simply brush out, then wipe clean.

new RUTINERAD forced air oven £300
59.4x56, H58.9cm. White. 802.451.88

Induction hobs save time, money and energy They heat up food very quickly, while minimising energy consumption – and reducing your energy bills.

Direct effect The slider control on the touch panel makes it easy to regulate the heat quickly and precisely.

HOBS

Glass ceramic hobs and gas hobs each have their own advantages. However, if you're looking for speed and energy efficiency combined, our range of induction hobs are indisputable winners. Read our guide on the next page for a brief introduction.

What do the symbols mean?

- Bridge function** The bridge function allows you to link two 210mm cooking zones to form one large area that can be controlled as a single zone, which gives you great versatility and the option of cooking with larger pans and casseroles.
- Double heating zone oval**
- Double heating zone**
- Triple heating zone**
- Pause function** When the pause function is activated the cooking zone switches automatically to the "keep warm" setting.
- Child lock** By holding the lock key for 4 seconds when the hob is not in operation, the child lock is activated, locking the hob so it cannot be switched on accidentally.
- Booster function** The booster function makes additional power available to the induction cooking zones.

Expandable cooking zones Induction hobs with a bridge function allow you to link two cooking zones to form one larger area. Perfect for those larger pans, when you're cooking for a party or a big family dinner.

All about our guarantees

FREE
25
Year
arantee

Everyday life at home makes high demands of a kitchen, which is why we test our kitchens thoroughly to ensure that they can easily take the strain of heavy weights, high temperatures and constant use.

We offer you a **free 25-year guarantee** that covers defects in the materials and workmanship of our FAKTUM kitchen system.

All kitchen mixer taps have a free 10-year guarantee and all IKEA appliances have a free 5-year guarantee.

These guarantees are valid for domestic use and are subject to the terms and conditions stated on the next page.

FAKTUM kitchen system

FREE
25
Year
Guarantee

What products are covered under this guarantee?

This guarantee covers all of the following parts of the FAKTUM kitchen system: • Cabinet frames • Fronts • INTEGRAL hinges • RATIONELL fully-extending drawers • RATIONELL shelves in tempered glass and melamine • RATIONELL wire baskets • Plinths • Legs • Cover panels

- Deco strips/mouldings • Worktops that are at least 3.8cm thick • Sinks
- PERFEKT shelf and wine shelf • RATIONELL base trays for base cabinets
- RATIONELL under-oven drawers • RATIONELL floor-level drawers • RATIONELL dish drainers for wall cabinets.

Products not covered under this guarantee

Knobs, handles and worktops that are less than 3.8cm thick. See also general conditions mentioned below.

Free-standing kitchens

What products are covered under this guarantee?

This guarantee covers defects in materials and workmanship on all the parts in the VÄRDE free-standing kitchen range.

Products not covered under this guarantee

VÄRDE knobs and handles, appliances (separate guarantee applies see below), mixer taps, shelves and wall shelves in solid wood are not covered under this guarantee. See also general conditions mentioned below.

FYNDIG kitchen system

FYNDIG is not covered by this guarantee.

APPLIANCES

FREE
5
Year
Guarantee

What is covered under this guarantee?

The guarantee covers faults in the appliance, which have been caused by faulty construction or material faults, from the date of purchase from IKEA or delivery by IKEA if later. This guarantee applies to domestic use only. The exceptions are specified under the heading: "Not covered under this guarantee". Within the guarantee period, the cost of

remediating the fault e.g. repairs, parts, labour and travel for the IKEA engineer or service provider, will be covered, provided that the appliance is accessible for repair without special expenditure. Defective parts become the property of IKEA.

How long is the guarantee valid?

This guarantee is valid for 5 years from the original date of purchase of the IKEA appliance from IKEA, or delivery by IKEA if later. LAGAN appliances have a 2-year guarantee valid from the original date of purchase, or delivery by IKEA if later. If service work is carried out during the guarantee period, this will not extend the guarantee period for the appliance, or the new parts.

Which appliances are covered under this guarantee?

The 5-year guarantee is valid for all IKEA appliances, except LAGAN appliances, which have a 2-year guarantee.

Not covered under this guarantee

All appliances purchased from IKEA before 1st of August 2007.

Who will execute the service?

The IKEA service provider will provide the service through its own service operations or authorised service partner network.

What is not covered under this guarantee?

• Normal wear and tear • Deliberate or negligent damage, damage caused by failure to observe operating instructions, incorrect installation or by connection to the wrong voltage, damage caused by chemical or electro-chemical reaction, rust, corrosion or water damage including but not limited to damage caused by excessive lime in the water supply, damage caused by abnormal environmental conditions • Consumable parts including batteries and lamps • Non-functional and decorative parts which do not affect normal use of the appliance, including any scratches and possible colour differences • Accidental damage caused by foreign objects or substances and cleaning or unblocking of filters, drainage systems or soap drawers • Damage to the following parts: ceramic glass, accessories, crockery and cutlery baskets, feed and drainage pipes, seals, lamps and lamp covers, screens, knobs, casings and parts of casings - unless such damage can be proved to be due to production faults • Cases where no fault could be found during a technician's visit • Repairs not carried out by our appointed service providers and/or an authorised service contractual partner, or where non-original parts have been used • Repairs caused by installation which is faulty or not according to specification • The use of the appliance in a non-domestic environment i.e. professional use • Transportation damages. If a customer transports the product to their home or other address, IKEA is not

liable for any damage that may occur during transport. However, in the case of IKEA delivery of the product to the customer's delivery address, eventual damage to the product that occurs during this delivery will be covered by IKEA (but not under this guarantee). For claims under this last particular condition, the customer should contact IKEA Customer Service at IKEA.co.uk • Cost for carrying out the initial installation of the IKEA appliance. These restrictions do not apply to work carried out by a qualified specialist using our original parts in order to adapt the appliance to the technical safety specifications of another EU country.

See also general conditions mentioned below.

KITCHEN MIXER TAPS

FREE
10
Year
Guarantee

What is covered under this guarantee?

The 10-year guarantee is valid for all kitchen mixer taps at IKEA, except LAGAN kitchen mixer tap. This guarantee covers defects in materials and workmanship. This guarantee applies to taps put to domestic use only.

Not covered under this guarantee

This guarantee does not apply if the products have been used in a corrosive environment. See also general conditions mentioned below.

What will IKEA do to correct the problem?

IKEA will examine the product and decide if it's covered under the guarantee. IKEA will then, at its choice, either repair the defective product or replace it with the same or a comparable product. In these cases, IKEA will be responsible for the cost of repairs, spare parts, labour and travel for IKEA repair staff or service engineers, provided that the product is accessible for repair without IKEA incurring additional expenditure to gain access. This will not apply in cases where repair work has not been authorised by IKEA. Any defective parts removed in the course of repair works will become the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. IKEA will decide, at its discretion, what will constitute an appropriate replacement.

Conditions for the guarantees

The guarantees are valid from the date of purchase at IKEA (or delivery by IKEA if later). The original purchase receipt (or email confirmation if ordered online) is required as proof of purchase.

Exclusions

The guarantees do not apply to products that have been stored or assembled incorrectly, used inappropriately, abused, misused, altered, or cleaned using incorrect cleaning methods or cleaning products, (see "Care instructions"). The guarantees do not cover normal wear and tear, cuts or scratches, or damage caused by impacts or accidents. The guarantees do not apply if products have been placed outdoors or in a humid environment or if the products have been used for non-domestic purposes (unless otherwise stated). The guarantees do not cover consequential or incidental damage suffered by any person. The guarantees are for the benefit of the original purchaser of the product. For details, see the guarantee conditions and description for every product.

Care instructions

To be able to benefit from these guarantees, you must follow the specific care instructions for every product. You will find all care instructions in the IKEA stores and on the IKEA web site: IKEA.co.uk

General legal rights:

Each guarantee gives you specific legal rights. The guarantee is provided to you free of charge and in addition to the rights given to you by law. It does not, in any way, affect the rights given to you by law. Items excluded from the IKEA free extended guarantees will still be covered by the rights given to you by law.

How to reach us if you need service:

Contact your local IKEA store. You will find the address and phone number on page 317 in the IKEA catalogue or at IKEA.co.uk Save your sales receipt or email confirmation as proof of purchase. Proof of purchase is required for the guarantees to be valid.

SMAKLIG induction hob
with bridge function

£450

up to 40%
less energy

up to
60% faster

Did you know that induction hobs heat up to 60% faster than glass ceramic hobs and use up to 40% less energy? So, induction hobs mean less wasted energy for everyone. That's why we are making a commitment to replace all of the electric hobs in our range with energy efficient induction hobs over the coming years. But, of course, you don't have to wait until that is done to save energy in your home.
