

# B. AFOLUX Vertical Application Panel PCs

AFOLUX all-in-one PPC series based on its integrated multi-functions design grows to include new vertical market applications, permitting extremely flexible integration into a wide variety of applications, such as: high performance KIOSK solution, entry level all-in-one POS Panel PC RFID solution and so on.

## Retail Solutions

### AFL-3 series

- Shiny black/white glossy surface
- Back IO design allows installation in minutes
- Rich connectivity and built-in CMOS camera and microphone

Page 1-46

### AFL2D-12A(B) Fanless

- 12.1" Panel PC integrated with wide-angle, illumination 1D/2D Barcode scan module

Page 1-51

### IMK-571R Fanless

- 5.7" Panel PC integrated with wide-angle, illumination 1D/2D barcode engine
- Support PoE (Power Over Ethernet) agile deployment

Page 1-54

## In-Wall Mount Solutions

### AFL-4 series Fanless

- In-wall mounting design to have the system flush with the wall with no visible wall mount
- Changeable face plate and face plate skin sticker available to match diverse decoration styles
- One digital I/O (4 input/ 4 output)

Page 1-59

## Fan-less Dual Core Solutions

### AFL-5 series Fanless

- 17" fanless system integrated with Intel® GM45 chipset and 45nm mobile Core
- Optical drive for option

Page 1-70

## Large Screen Solutions

### AFL-6 series

- 42" FULL HD all-in-one Panel PCs with anti-scratch SAW touch panel
- Optical drive for option

Page 1-76

## RFID Solutions

### ACT series Fanless

- Integrated RFID reader in front of the panel for MIFARE 13.56 MHz or EM 125 KHz RFID tag
- Built-in 300K pixel camera and microphone

Page 1-83

## AFOLUX-3 Series

AFL-315A/ AFL-317A

### 15/17 inch Core™2 Duo Industrial KIOSK Panel PC

- Sophisticated high reflection surface**  
 Smooth and easy cleaning surface easily fits any kind of KIOSK enclosure
- All-in-one highly integrated design**  
 Multiple functions and connectors built in the one unit system fits all self service solutions and not only decreases maintenance time but also saves the space considerably
- Versatile mounting solutions and back IO design allows installed in minutes**  
 Faster installation into device such as KIOSK and ATM
- IP 64 front panel compliance**  
 System operation in a dusty or wet rigorous environment
- IEI One Key Recovery solution allows you to create rapid OS backup and recovery**

**One fits All!**

## KIOSK Ready System

### Easy to Installation

- Light Weight**  
 10.2 kg Only
- Slim Type**  
 82 mm ultra slim design
- Smart Mechanism**  
 Back IO design allows easy cable arrangement and installation

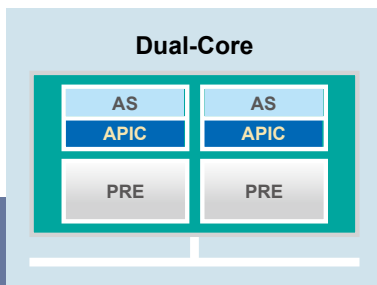

AFL-315AB / AFL-317AB

### Powerful Computing

Manufactured with open system design, IEI AFOLUX KIOSK panel PC offers flexible configuration in space-saving form factor. It comes with:

- 15 inch 1024 x 768(XGA), 17 inch 1280 x 1024(SXGA) active matrix LCD touchscreen interface
- Powered by 1.8 GHz Intel® Dual Core Desktop Processor with 533/800/1066 MHz FSB and 512 KB cache, product provides DDR2 1GB of memory, expandable to 4GB  
 For kiosk application, powerful computing is strongly required to deliver high computing power and multi-task performance.

## All-in-One System

### Typical KIOSK System

Separate peripherals occupy the space and produce additional purchase of proprietary cables for specific devices.

### AFOLUX KIOSK PPC

Designed for style, performance, and state-of-the-art built-in functions in a single package

- Space saving
- Cost saving
- No peripheral installation
- No cable installation

### AFL-315/AFL-317 KIOSK Ready System

All-in-one system with sophisticated appearance, ideal for third-party enclosure

## Higher Performance, More Energy-Efficiency

A preinstalled Bluetooth module communicates with a wide range of electronic products from PDAs, cellular phones and printers, to barcode readers.

The integrated PIFA antenna on the AFOLUX ensures an uninterrupted wireless connection. PIFA type antennas can receive high-quality, uniform signals in any location from all directions without any signal degradation or impedance and are the most efficient.

## High Performance Multimedia

AFL-315A / 317A provides outstanding image quality and high performance, immersive multimedia play back. Users will experience revolutionary performance, unbelievable system responsiveness from the following enhanced multimedia features.

- Built-in 0.3 mega-pixel webcam with digital microphone (AFL-317A)

- Built-in 2.0 mega-pixel webcam with auto focus (AFL-315A)

- Built-in two 1.5W IP 64 water proof stereo speakers

- External audio (Line in, Line out, MIC in supported)

## Dual Display

Equipped with VGA and DVI out interfaces allow second display connection to extend or duplicate your content, whether in advertising, inform or interact.

Choosing any two from main screen, VGA or DVI as dual display targets.

Independent Display

Mirror Display

Interview KIOSK

Check-in KIOSK in the airport

## Multimedia Feature

The AFL-315A / 317A built-in CMOS camera module is specially designed and fabricated for KIOSK applications. The camera module combines a UXGA CMOS sensor with integrated lens to deliver high performance images quality. It has a USB2.0 High Speed interface and has the capability of transferring uncompressed data in UXGA mode at 15 fps and VGA mode at 30 fps.

### AFL-315A

- XGA resolution image sensor
- Video resolution: 1600x1200, 1280x1024, 1024x768, 800x600, 640x480, 352x288, 320x240, 176x144, 160x120.
- Frame rate: 1600x1200@ 15 fps max, 640x480@ 30fps max.
- Video format: YUY2' MJPG' I240
- Max. image transfer rate: 2M @ MJPG 15fps; 1.3M @ MJPG 15fps; VGA @ MJPG 30fps
- Auto white balance
- Auto exposure
- Auto gain control
- Auto Focus@ 10cm ~ infinity..
- High speed USB2.0 interface
- GA compliant

2MP AF Camera

**Auto Focus**

IP-64 Speaker

### AFL-317A

- VGA resolution image sensor
- Video resolution: 640x480, 352x288, 320x240, 176x144, 160x120.
- Frame rate: 640x480@ 30fps max.
- Auto white balance
- Auto exposure
- Auto compensation
- Focus range of 25 cm to Infinity
- Flip Control Option
- High speed USB2.0 interface
- Storage Format of Image: AVI
- Storage Format of Photograph: BMP, JPEG
- Digital Microphone x 2

Note: Optional 1.3MP Camera with Digital Microphone Module

HR Employees / Job Applications Kiosk

Desk top KIOSK for employee fill out online forms and interview with managers

### Adjustable Stand (STAND-B19)

## Rich Connectivity

**Superior Connectivity**

13 total connectors to enhance system expansion capabilities

## Four RS-232 with selectable 5V/12V/RI to connect to devices

LED indicator for identifying power status selected by jumper ( Red:12V/Yellow:5V/Green: RI)

Indicator sparkle in red: RS-232 with 12V power setting

Indicator sparkle in yellow: RS-232 with 5V power setting

Indicator sparkle in Green: RS-232 with Ring Indicator setting

## Power supply provides additional 12V and 24V power for peripheral power requirements

Extra 24V power Connector for peripheral power requirement

24V Thermal Printer

## 12.1" 1D/2D Barcode Scanner AFOLUX Panel PC

**12.1" Fanless AFOLUX Panel PC with built-in 1D and 2D Barcode scan engine allowing customers/employees to access instant item information**

IEI One Key Recovery solution allows you to create rapid OS backup and recovery

**50°/37.5° (H/V) Wide Scanning Area**

### Modularized 1D/2D Barcode Scanner

#### 1D/2D Code Reading

- Accurately decodes all 1D and 2D codes, even wrinkled, damaged or poorly printed
- 1.3 mega-pixel CMOS sensor captures high resolution images for decoding
- 50°/37.5° (H/V) large scanning area

Technology	1D Code	2D Code
Read Condition	20 to 25 characters	100 to about 2,000 characters

### Efficient Scanning Performance

- 50°/37.5° (H/V) wide scanning area reads twice the area of typical scanner
- Area-scanning features non-directional reading drive scanning performance
- 25mm-310mm scanning distance

**No directional Limitation**

## Easy Deployment with VESA Mount

### Price Checking / Promotion PPC

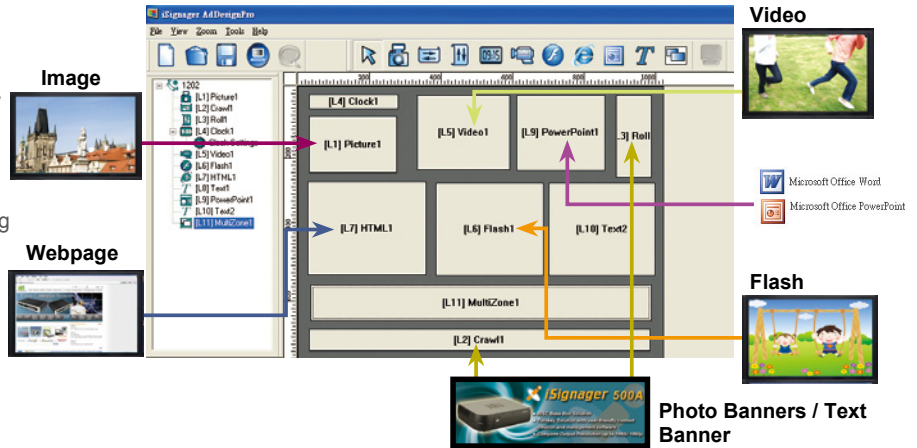

- Check price, obtain product related information
- Easy connections to USB devices, such as thermal printer and card reader
- Customer can access their loyalty card to see their accumulated credit and reward programs
- In DVD rental store, customers can watch movie preview by scanning DVD barcode
- Play multimedia video to attract attention of customers and make shopping more interesting

### X86 based Digital Signager

With the IEI content design software, your can easily create multi-zone display contents..

- Multiple media zone display
- Multiple media format support, including flash, picture, video, html, text/ photo banner, and audio
- Support multi format content display in one media block
- Content preview function

## IMK-571R MiniKiosk

### Features

- RMI Alchemy MAE multimedia platform with 5.7" VGA touch panel and stereo speaker
- Support PoE (Power Over Ethernet) agile deployment
- Wide-angle, illumination 1D/2D barcode engine
- Wired/unwired network connectivity support
- Default 2GB MiniSD for data storage

**NEW**  
Mifare Reader  
Module

### Interact with your customer

IEI R MiniKiosk is a space-saving device specially designed for slim front-end information access and customer interaction in your retail environment which is suitable for various applications. Now, no extra service and waiting is needed, customers can check the price, obtain product information through multimedia and even get a real-time promotion message by themselves through a simply scan of product barcode or convenient touch panel interface. This can greatly assist you to reduce unnecessary service effort, draw potential sales opportunity and maximize customer satisfaction and profit.

### On-site information access

In addition to customer service, IMK-571R can also improve operation efficiency by enabling on-site employee easy access and update necessary product and inventory information.

### Powerful hardware design in compact size

With compact size, PoE (Power-Over-Ethernet) power supply function and low thermal design, IMK-571R is the most cost-effective solution with easy deployment and maintenance for your IT staffs. Empowered by RMI Alchemy Au1250 microprocessor with MAE (Multimedia Acceleration Engine), IMK-571R achieves great performance in its versatile multimedia support including most available video and audio types (MPEG1/2/4, DivX and WMV9).

### Easy data and program management

To support possibly volume of product data and video content, IMK-571R offers a default 2GB large capacity miniSD storage space and a variety of connectivity. You can manage your data, multimedia content and applications via embedded LAN, WLAN or RS-232 connection or even miniSD card.

### Software development support

IMK-571R software development kit (SDK) includes most useful functions and makes software development easier and faster than ever. It includes comprehensive demonstration source code and document for most web application develop environment.

### Maximize customer satisfaction and ROI

IMK-571R is not only a multimedia self-service device but means a brand new connection between you and your customers. Now you can talk to your customers, interact with them and even collect their behavior information just in this simple machine without spending extra on-the-spot service effort. IMK-571R provides customers a new, delightful shopping experience and improves their satisfaction and loyalty, and maximizes your business profit and ROI.

## Applications

### Self-service

- Allow customer to check price, obtain product related information or even motivate them by providing promotion message

### Customer Loyalty program

- Customer can access their loyalty card to see their accumulated credit and reward programs

### Advertising

- Play multimedia video to attract attention of customers and make shopping more interesting
- In DVD rental store, customers can watch movie preview by scanning DVD barcode

### Production Line information

- Operator can scan barcode on WIP carrier to get production information and update the production status

# IMK Runtime Demo

## IMK Runtime Demo:

IMK Runtime Demo is a pre-installed application which helps user quick experience functions of IMK-571R

## Product Inquiry:

In this mode, user can scan pre-defined product barcode and display relative product information, user can check barcode type here as well

## Receipt Print:

Use Print button to print a receipt which is queried at product inquiry mode

## Access Control:

Access control allows users to read magnetic card and display pre-defined personal information

# IMK Merchandise Manager

## IMK Merchandise Manager

IMK Merchandise Manager provides a friendly interface for administrator to maintain and manage product information on IMK-571R in the network

## Find IMK-571R in your network

Use Find IMK-571R to search and list all available IMK-571R in the network. The select IMK-571R which want to upload or download product information file.

## Upload/Download Product information File

When execute download command, IMK Merchandise will grab product information file from selected IMK-571R at previous step and generate local sub folders with different device names. Oppositely, when execute upload, IMK Merchandise will transfer product information file in sub folders named by the device name onto relative IMK-571R

## Edit Product InformationFile

User can select and open product information file (\*.xml) to edit. In editing mode, user can add, remove product items or edit product details and save the change after the editing is done. Then use 'Apply to all' to generate sub folders named by selected IMK-571R device names and imitate product information file with the edited content into the folders

## IMK Web Configurator

IMK Web Configurator is a Web-based utility which allows users to access IMK-571R and modify the settings via web browser interface anytime, anywhere without any PC client application installed. It makes management of IMK-571R in the network very easy and convenient for IT administrator and minimize time and cost for system maintenance.

- System Setting: User can inquire system information and set up Ethernet and Wireless parameters in system setting Remote restart option allows users to restart the system once any abnormal circumstance occurs and a restart procedure is needed

- Barcode Setting: User can adjust universal barcode parameters and variable of various barcode types in barcode settings page, the available setting items in the page will auto change when a specific barcode type at left side is selected. User can also use 'Factory default' function to recover all settings to default when needed

# Barcode Capability

IMK-571R equips with leading scanner engine Metrologic IS4920. IS4920 is a decoded miniature area imaging scan engine designed to scan 1D and 2D bar codes. It features a mega pixel imaging sensor, a wide angle lens design, integrated illumination and aiming, and industrial leading decoding software and delivers a fast and aggressive scanning performance

Features	Benefits
Powered by Adaptus® Imaging Technology	Adaptus Imaging Technology delivers leading technologies and embodies Honeywell continuous commitment to providing superior data capture solutions
Point-and-Shoot Scanning Ease of Use:	Available in high visibility LED and laser aimer versions makes reading linear and full matrix codes quick and easy with industry-leading motion tolerance, low light sensitivity, and broad depth of reading Distances
Durable	Incorporate industrial grade image sensor technology and are designed with no moving parts, these imagers can withstand rugged applications
Decoding	Read all major linear, stacked linear, and matrix bar codes, as well as machine-readable OCR fonts, quickly and Easily
Fifth Generation Image Processing	Industry-leading image processing performance. In addition to reading bar codes well, these products also capture crisp digital images.

Barcode Reading Angles		
Pitch	Skew	Tilt
40° @ 0° tilt and 0° skew	40° @ 0° tilt and 0° pitch	360° @ 0° pitch and 10° skew

PS : The scanner may not operate under conditions of specular reflection: +/- 5° (assuming Pitch & Skew @ 0° tilt only)

## Window Size Diagram (Laser Aimer)

Bar Code Element Width	Depth of Field(In the Field of View)			
	Start (From Engine Face)	End (From Engine Face)	Total	
1D(Code 39)	.203 mm 8 mil	89 mm (3.5")	193 mm (7.6")	104 mm (3.1")
	.254 mm 10 mil	81 mm (3.2")	234 mm (9.2")	153 mm (6")
	.381 mm 15 mil	53 mm (2.1")	325 mm (12.8")	272 mm (10.7")
PDF417	.168 mm 6.6 mil	114 mm (4.5")	159 mm (6.25")	45 mm (1.75")
	.254 mm 10 mil	79 mm (3.1")	229 mm (9.0")	150 mm (5.9")
Data Matrix	.381 mm 15 mil	58 mm (2.3")	259 mm (10.2")	201 mm (7.9")

## IMK-571R in a glance

### Wall Mount

Requires no cut out in the wall surface. It mounts directly on the existing wall or desk.

# In-Wall Mount Solutions

## AFOLUX\_4 Series

The fanless AFL-4xxx series with streamlined design based on the Intel® Atom™ processor is designed in flexible options to match your diverse style.

### Fanless

An on-board 1.6GHz Intel® Atom™ N270 CPU ensures low power requirements. Metal casting design housing replaces the fan as it helps the dissipate heat.

### Changeable Faceplate/Sticker Skin

Multiple faceplate/skin sticker available to match diverse decoration styles

### Easy In-wall in minutes

In-wall mounting just three simple steps: cut-out the panel, screw on and put on the faceplate

### VESA Mounting Compliant

### IEI One Key Recovery solution allows you to create rapid OS backup and recovery

Changeable Faceplate Sticker Skin

Changeable Faceplate

Easy In-Wall Mounting

## Features

- 8" ~ 15" TFT LCD with resistive touch screen.
- Fanless system with Intel® Atom™ process N270 1.6GHz CPU
- Changeable faceplate and sticker skin
- In-wall mechanism design allows easy to installation in minutes
- Build-in CMOS camera with digital microphone and two 1.5W speakers for multimedia applications
- Enabling easier access to the internet through a HSUPA network (Optional)
- Built-in bluetooth technology rids systems of cables and allows wireless connection to peripheral devices like head phones, keyboard and mouse
- VESA-mountable for flexibility in mounting and deployment
- Ambient light sensor detects ambient light for automated screen adjustments to optimize viewing.
- IP63 front panel compliant
- One Digital I/O (4 input/ 4 output)
- Windows XP Embedded/Windows CE/Linux (Debian 2.6.26) Support

## Ambient Light Sensor

AFL-4xxx series built in the ambient light sensor in front of the panel to automatically detect the amount of light in the viewing environment and auto-adjusts the brightness of the screen.

### Benefits:

- Avoid eye strained and tired, to provide comfortable viewing
- Power consumption saving
- Extend lamp lifetime

OSD Function with IR Remote Control

## Easy In-wall Installation in Minutes

AFL-4xxx series was not only increases flexibility of versatile patterns of the faceplate, but also ease of installation.

#### • Traditional Chinese

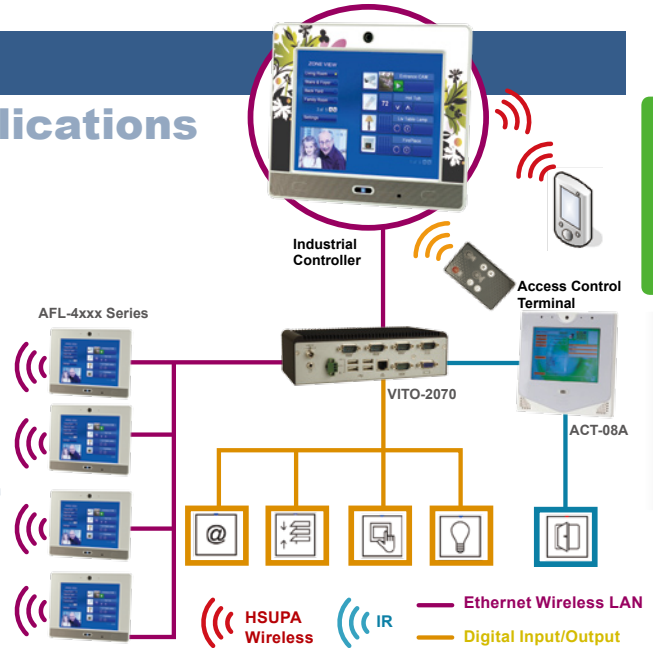

# What are we going after?

## Various Applications

### A. Controlling your digital home !

**Features:**

- Changeful face plate suitable for various in-wall environments
- Simple and attractive appearance
- Local information and services
- Advertising possibilities
- X86 architecture easy to integrate new services
- Built-in IR receiver implements the remote control capability

### Designing a Home Automation System

**Audio Control**  
Telephone announcement and music from one room can follow you down the hall and into the kitchen.

**Security**  
• Control the lighting, in the event of alarm or fire.  
• View and record surveillance video

**Lighting Control**  
Lighting set by schedule, time of day.

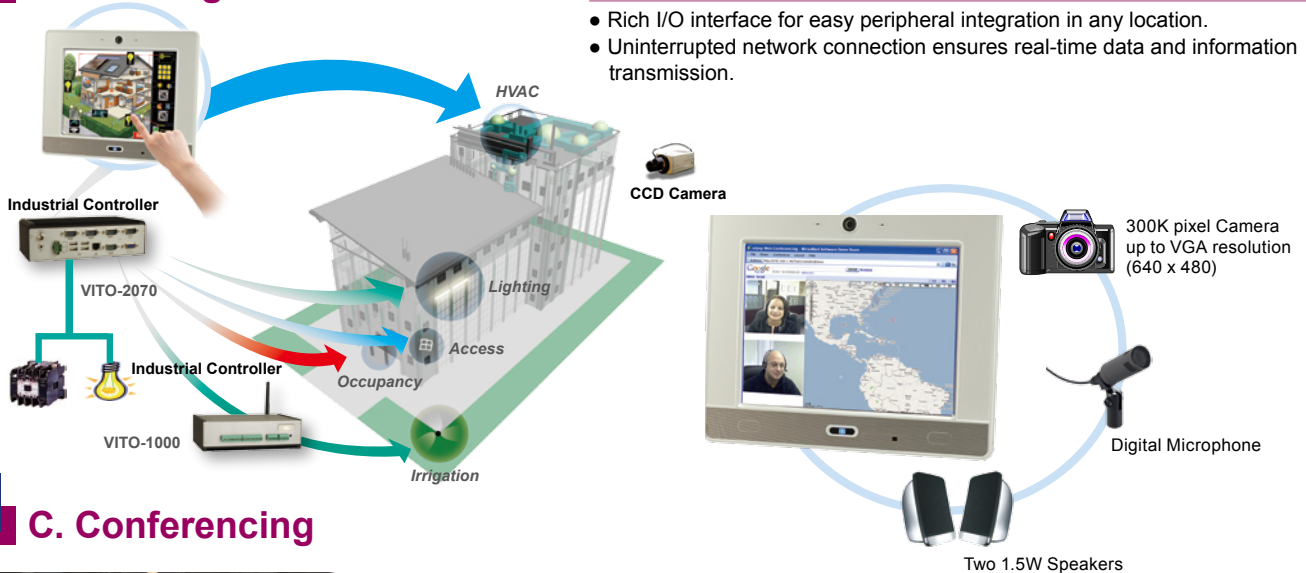

**Energy Management**  
• Lights turn off when leaving the home.  
• Settings restore automatically when returning home, saving energy.

### B. Building Automation

**Features:**

- Rich I/O interface for easy peripheral integration in any location.
- Uninterrupted network connection ensures real-time data and information transmission.

### C. Conferencing

**Features:**

- Trouble-free video conferencing with integrated audio/video hardware and wireless connection.
- Equipped with a digital I/O with to remotely control the device on and off.

## • In-wall Mounting

### Self-drilling screws

1. Diameter: M4
2. Length: >15mm

## • Wall Mount

AFLWK-12  
VESA 75mm/75mm

AFLWK-19  
VESA 100mm/100mm

## • Desktop Stand

### Easy Stand

STAND-A08  
(For 8" and 8.4" PPC)

STAND-A12  
(For 10" and 12" PPC)

STAND-A19  
(For 15" PPC)

## • V-Stand

**A** VESA 75/100 Compliant with Height Adjustable

**B** 0° to 90° adjustable hinge design

**C** Designed holes help to dissipate the system heat

### Features:

- 0° to 90° adjustable hinge design allows comfortable viewing
- Standard VESA 75/100 Compliance
- Heat dissipation holes designed
- Compact size easy to use and mount anywhere

### Comfortable Stand

Portrait/Landscape

Height Adjustment(13 cm)

STAND-B19  
(For 15" AFL Series)

Right/Left Pan (270°)

Forward & Back Tilt(+25°/-5°)

VSTAND-A10  
(For 8"~10.4" AFL Series)

VSTAND-A12  
(For 12.1" AFL Series)

## The Benefits

### **A** One fits all solution

V-Stand is designed to be compact and tilt adjustable. Provides mobility and ergonomic comfort to fit common wall and ceiling mounting situations.

#### Wall Mounting

Back office POS system

#### Ceiling Mounting

Car PC

### **C** Space saving and easy to install

1: Tighten the screws in the rear of the AFOLUX PPC VESA mounting holes

Compact size provides mobility

### **B** 0° to 90° adjustability

Change the angle of the stand from 0° to 90° to reach almost any point with ergonomic features for comfortable viewing.

POS system

**No Hinge Limitation!**

2: Select the position to mount stand kit

3: Plug in the system to operate

# Fanless Dual Core Solutions

## AFOLUX\_5 Series

Fanless

### Features

- 17" TFT LCD with Intel® GM45 chipset and 45nm mobile Core™2 Duo processor support
- High performance fanless design with optical drive
- Built-in 802.11 b/g/n Wireless LAN connection
- Built-in Bluetooth module
- Built-in HDMI and Display Port for digital dual display option.
- Built-in HSUPA module for mobile connection
- One compact flash slot for embedded applications.
- IP 64 compliant front panel with touch screen function.
- IEI One Key Recovery solution allows you to create rapid OS backup and recovery

AFL-517A-GM45

## Mobile Power Grade Fanless Panel PC

### Fanless Dual Core Performance up to 2.53 GHz

#### 45nm Penryn VS 65nm Merom Performance

- Intel® Core™ 2 Duo T7500 (2.2 GHz, 800 MHz FSB) w/ GME965 Chipset and 667 MHz DDR2
- Intel® Core™ 2 Duo processor (Penryn) (2.53 GHz, 1066MHz FSB) w/ GM45 Chipset and 667 MHz DDR2

Dual-core computing architecture bring the necessary power to address performance-hungry applications like imaging and gaming powered by Intel® Core™ 2 Duo processors and the Intel® GM45 chipset.

### Superior Silent Heat Dissipation

#### Good aerodynamics

Unique heat sink design for AFL-517A mechanism allows air to easily flow rapidly through the cooler and reach all the cooling fins.

### Applications:

Medical Image Terminal Industrial Automation Network Security Transportation Interactive Kiosk Digital Signage POS Gaming

1 Automation Panel Solutions

2 All-in-One Touch POS

3 Digital Signage

4 Video Wall Controller

5 RISC-based Solutions

6 PACSmate Medical

7 Optional Peripherals

## Mobile Intel® GM45 Solution

### Performance Leadership

- Penryn on 45nm process
- Large L2 Cache and Faster FSB (6M, 1066MHz)
- Introduces DDRII Support (800/1067)
- Enhanced Graphics Engine (Gen 5)

### Increased Integration

- Support for High Definition decode in H/W
- Integrated DisplayPort & HDMI/HDCP
- Integrated TPM and Packet Filtering

### Unmatched Efficiency

- Deep Power Down Technology (w/ C6 state)
- Thermal compatibility with Santa Rosa
- Smaller Form Factor

## • Performance Upgrades

## New HDMI / DisplayPort Choice

HDMI

DisplayPort

**DisplayPort** is a digital display interface standard put forth by the Video Electronics Standards Association (VESA). It defines a new license-free, royalty-free, digital audio/video interconnect, intended to be used primarily between a computer and its display monitor, or a computer and a home theater system.

• DisplayPort on projector

• DisplayPort on monitor

• DisplayPort connector comparison

• DisplayPort to DVI

• DisplayPort to HDMI

## 802.11 b/g/n ready with invisible antenna

The AFL 5 series features high speed WiFi 802.11 b/g/n protocol which builds on previous 802.11 standards by adding multiple-input multiple-output (MIMO) and 40 MHz operation to the physical (PHY) layer. MIMO uses multiple transmitter and receiver antennas to improve performance. The 40 MHz operation uses wider bands, compared to 20 MHz bands in previous 802.11 protocols operation, to support higher data rates. Wider bandwidth channels are cost effective and easily accomplished with moderate increases in digital signal processing.

	802.11a	802.11b	802.11g	802.11n
<b>Data Rate (Mbps)</b>	54	11	54	540
<b>Range (Radius Indoor)</b>	35 Meters	38 Meters	38 Meters	70 Meters
<b>Range (Radius Outdoor)</b>	120 Meters	140 Meters	140 Meters	250 Meters
<b>Radio Frequency</b>	5.15 GHz to 5.85 GHz	2.4 GHz to 2.5 GHz	2.4 GHz to 2.5 GHz	2.4 GHz or 5.0 GHz

**Saving cable & installation fees**

802.11 b/g/n ready with invisible antenna

27 times faster data transfer rate compare 802.11b

### Applications:

• Medical

17" SXGA Fanless Dual Core Panel PC

**AFL-517A-GM45**

Intel® Core™2 Duo T9400 2.53GHz Processor (max.)

**Features**

- 17" TFT LCD with Intel® GM45 chipset and 45nm mobile Core™ 2 Duo processor support
- High performance fanless design with optical drive
- Built-in 802.11 b/g/n Wireless LAN connection
- Built-in Bluetooth module
- Built-in HDMI and Display Port for digital dual display option.
- Built-in HSUPA module for mobile connection
- One compact flash slot for embedded applications.
- IP 64 compliant front panel with touch screen function.
- IEI One Key Recovery solution allows you to create rapid OS backup and recovery (Suggest over 4GB storage capacity)

**Specifications**

Model		AFL-517A-GM45-R10		
Display	LCD Size	17"		
	Max Resolution	1280 x 1024		
	Brightness (cd/m <sup>2</sup> )	300		
	Contrast Ratio	800 : 1		
	LCD Color	16.7M		
	Pixel Pitch (mm)	0.264(H) x 0.264(V)		
	Viewing Angle (H-V)	160° / 160°		
Motherboard	Backlight MTBF (hrs)	50000		
	CPU	Intel® Core™2 Duo T9400 2.53GHz Processor (max.)		
	Chipset	Intel® GM45 Chipset + ICH9M		
	RAM	Supports two 2.0GB 667MHz or 800MHz DDR2 SO-DIMM (System max. 4.0GB)		
I/O Ports	1 x RS-232 COM Port			
	1 x RS-232/422/485 COM port			
	2 x Giga LAN			
	4 x USB 2.0			
	1 x Power Switch			
	1 x Reset Button			
	1 x VGA port			
	1 x Audio port			
	1 x HDMI port			
	1 x Display port			
Drive Bay	SSD	CF TypeII		
	HDD	1 x 2.5" SATA HDD bay		
	CD-ROM	1 x Slim Type CD-ROM bay		
	HSUPA Mobile Solution (Optional)	1 x HSUPA Mobile Module (USB Interface)		
Other Features	Watchdog Timer	Software programmable supports 1~255 sec. System reset		
	Audio	AMP 3W + AMP 3W		
	Extension	1 x Wireless Lan Module (Mini PCIe Interface, 802.11 b/g /n LAN Module)		
		1 x Bluetooth Module (USB Interface, Bluetooth V2.0)		
	Membrane Keypad	OSD Keypad below the Front Panel		
	LED Function	1 x Power ON/OFF LED on Front Panel		
	Physical	Construction Material	ABS + PC Plastic front frame	
		Mounting	Panel, Wall, Rack, Stand and Arm (VESA 100mm x 100mm)	
		Front Panel Color	Sliver (877U) & Gray (ABSA2037)	
		Dimension (WxHxD) (mm)	428 x 350 x 79	
Environment	Operation Temperature (°C)	0°C ~40°C With HDD 0°C ~45°C with CF card or SATA interface 2.5" SSD HDD		
	Storage Temperature (°C)	-20°C ~60°C		
	Net Weight	7.5 Kg		
	IP Level	IP64		
	EMC	CE, FCC, CCC		
	Safety	CB		
Touch Screen	Resistive Type 5-Wire (Touch controller IC is on board)			
Power Adapter	Power: 150W Input: 90VAC~264VAC, 50/60Hz Output: 12VDC			
Power Requirement	12VDC			
Power Consumption	108W			

**CDRW-DVD Combo Drive Specifications**

The drive is able to write CD-R/RW discs and also can perform as a regular DVD-ROM drive.

Drive Type	Internal Slim CD-RW/DVD Combo Drive	
Data Transfer Rate	Write: CD-R: 24X / CD-RW: 24X	Read: DVD-ROM: 8X / CD-ROM: 24X
Interface	SATA	
Buffer Memory	2MB	

**Fully Integrated I/O**

## AFOLUX\_6 Series AFL-642AE-GM45

### Features

- WiFi 802.11b/g/n connection
- Built-in two speakers
- Built-in Bluetooth technology rids systems of cables and allows wireless connection to peripheral devices like headphones, printers, barcode readers or game controllers
- The Ambient Light Sensor helps conserve energy
- VESA-mountable for flexibility in mounting and deployment
- SAW touch screen with durable glass construction is perfect for healthcare, retail and hospitality applications (Optional)
- 42" tempered glass with AR(anti-reflection) coating (Optional)
- Ease of use OSD control below the front panel
- IEI One Key Recovery solution allows you to create rapid OS backup and recovery (Suggest over 4GB storage capacity)

## 42" Anti-reflective tempered glass increases legibility in high-ambient light environment (For Tempered Glass Protection Models)

AFOLUX tempered glass series use 4 layer hard coating to reduce the sunlight reflected from the surface of the panel, increases contrast ratio and image readability even when used in outdoors.

- Reduced intensity of reflected light
- No image distortion
- Higher contrast
- Wider viewing angles
- Colors are more vibrant

Conventional

With AR Coating

### Behavior of Light Reflected by LCD Screen

	Conventional Monitor	AR Coatin Tempered Glass Models	
Transmission	90%	96±3% <b>Win!</b>	AR coating (2 layers)
Reflection	9%	Less than 3% <b>Win!</b>	Tempered Glass
			AR coating (2 layers)

## 7H Stronger Protection

(For Tempered Glass Protection Models)

The IEI AFOLUX tempered glass monitor's strictly tested 7H hardness is stronger than the conventional panel and therefore is able to protect the screen from damage. It offers protection in a wide variety of applications.

Hardness Test (JIS-K5600)

MOH's Hardness Rating

# of touches in lifetime (mn)	35	200	100
Strength	Waterproof, dirt-proof	Fireproof, dirt-proof, not easily scratches, Long life	Fireproof, high reliability, not easily scratches, Long life
Weakness	Easily scratched	Easily affected by EMI	-

Durable SAW touch screen made of pure glass construction

1 Automation Panel Solutions

2 All-in-One Touch POS

## Wireless Connection

Some of the current and emerging applications that are driving the need for 802.11n are Voice over IP (VoIP), streaming video and music, gaming, and network attached storage.

	802.11b	802.11g	802.11n <b>Up to 540 Mbps</b>
Data Rate (Mbps)	11	54	540
Range (Radius Indoor)	38 Meters	38 Meters	70 Meters
Range (Radius Outdoor)	140 Meters	140 Meters	250 Meters
Radio Frequency	2.4 GHz to 2.5 GHz	2.4 GHz to 2.5 GHz	2.4 GHz or 5 GHz

## Video On Demand (VOD)

3 Digital Signage

4 Video Wall Controller

Access to email, instant image and the Internet

Streaming music Streaming video

VoIP /Gaming /NAS

Compares the time it would take to transfer a 30-minute video file. At the best data transfer rate, it would take 42 minutes to copy the file using 802.11b, and less than a minute with a 802.11n.

5 RISC-based Solutions

6 PACSmate Medical

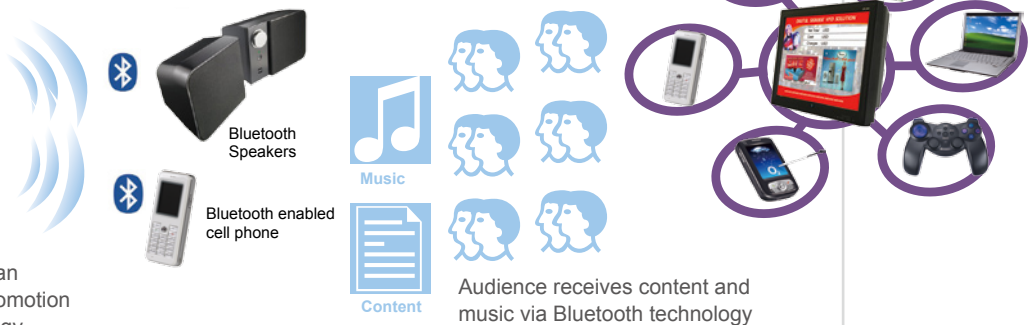

Do wires still inconvenience you when you try to connect peripherals to your system? The Bluetooth module integrated into the AFOLUX all-in-one panel PC transmits information between peripheral devices through a complete Bluetooth network.

## Push Marketing

AFOLUX PPC being used as an advertising unit to send the promotion content via Bluetooth technology

7 Optional Peripherals

# User-Friendly Interface

- **User-accessible CF**  
CF slot on the bottom panel, making installing and replacing CF cards easy.
- **Lockable HDD Drive**  
(For 42" AFOLUX PPC)

## Selectable AT/ATX Mode

Easily select the AT/ATX power mode with an easily accessed switch.

### • AT Mode

Automatic start when power connected, easy to control multiple Panel PCs from a single point.

### • ATX Mode

Power management function turns the system to standby mode to save power when the Panel PC is not used  
Remote control via Network

## Intelligent Light Sensor

Intelligent adjusts the screen brightness to match the ambient light. If the ambient light is very bright, the sensor increases the screen's brightness; conversely, if the PPC is used in a darkened room, the display is dimmed.

Typical Monitor

With Intelligent Light Sensor

- Reduces cost of operation by reducing the power usage
- Extends backlight life
- Provides comfortable viewing

## OSD Adjustment with Remote Control

For convenience, AFL-26AE/642AE series is especially designed with OSD keypad below the front panel allowing fast volume and brightness adjustment.

- Volume Adjustment
- Brightness Adjustment
- Auto Adjustment
- LCD On/Off
- OSD Lock Function

- OSD Lock
- Brightness

- Volume

# CD/DVD/Blu-ray Drive Bay provides extra storage capacity

There two options for disk drives in AFL-6 series:

## A. Slim Type CD-RW/DVD Combo Drive

For convenience, AFL-26AE/642AE series is especially designed with OSD keypad below the front panel allowing fast volume and brightness adjustment. The drive is able to write CD-R/RW discs and also can perform as a regular DVD-ROM drive.

Drive Type	Internal Slim CD-RW/DVD Combo Drive	
Data Transfer Rate	Write: CD-R: 24X / CD-RW: 24X	Read: DVD-ROM: 8X / CD-ROM: 24X
Interface	SATA	
Buffer Memory	2MB	

## B. High Capacity Full HD Storage Medium-Blu-ray (Only for Intel GM45 Platform)

- Full HD high-definition media playback
- More than five times the storage capacity of traditional DVDs
- Backwards compatible with DVD/CD

	Blu-ray <b>WIN!</b>	DVD
Laser wavelength	405 nm (blue-violet laser)	650 nm (red laser)
Storage capacity (single side)	<b>High Storage Capacity</b> 25 GB per layer 50 GB both layer	4.7 GB per layer 8.5 GB both layer
Numerical aperture, NA	0.85	0.60
Protection Layer	0.1mm	0.6mm
Raw data transfer	<b>Higher data transfer rate</b> 36.0Mbps 53.95Mbit/s (1.5x)	11.08 Mbit/s 10.08 Mbit/s
Mandatory video codecs	MPEG-2 MPEG-4 AVCVC-1	MPEG-2
Video resolution (maximum)	<b>Full HD</b> 1920x1080	720 x 480 (NTSC) 720 x 576 (PAL)

\* NTSC mean in USA and Canada or PAL mean in Europe, Australia and New Zealand.

# AFOLUX\_ACT Series

## RFID Solutions

The ACT series integrated with the RFID technology are the complete access control and security systems for commercial, residential, industrial, financial, education and government institutions.

### Reliable

- Meets MIL-STD 810F testing procedures
- Sealed against water and dust intrusion (IP64 Front Panel)
- Fanless system design decrease downtime, reduce the need for on-site support

### Wireless

- 802.11 b/g WLAN
- Bluetooth® 2.1
- HSUPA (Optional for ACT-412A)

### Innovative

- Built-in RFID reader, works with EM or Mifare cards and tags
- In-wall mounting design
- Intuitive touch panel for easy operation

### Flexible

- Built-in webcam and microphone can be used as an intercom through the LAN connection or an biometric access control system based on facial and voice recognition
- Computer architecture under Windows operating system enables system developers to easily integrate versatile applications

## Integrated RFID Technology

Since RFID technology uses radio frequency as data transmission intermediary, it can be classified by at what frequency band the RFID system adopts since different frequency will result in different physical attributes as well.

## RFID Identification in Access Market

The ACT-457A RFID operating system contains RFID tags, Reader Antenna, Reader and Software (operation system, middleware, applications). When a command is generated by application, reader encodes the command (we say to read tag UID for example) and transmits it with RF format. Tag in RF coverage range then receives RF, turns it into energy, decodes the command and response (return its UID '01234567') in RF format accordingly.

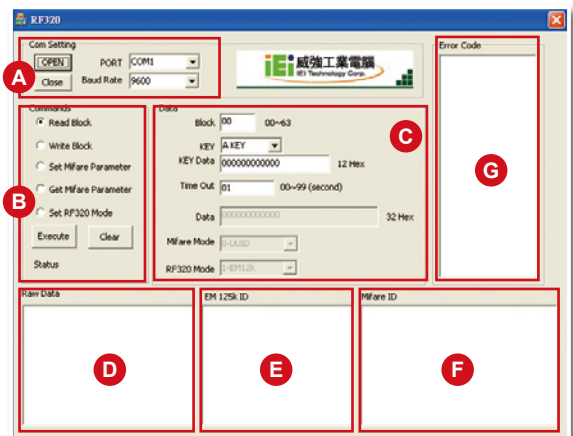

### RFID in Access Market Advantages:

- High Security**  
Each RFID tag contains an integrated chip with a unique permanent identification (UID) number burned-in during the manufacturing process and make counterfeiting difficult.
- High Efficiency**  
Multiple tags can be read in parallel; no line of sight reading
- High Durability**  
Less subject to environmental damage

## IEI RFID Software Development Kit

- A COM Port Settings and Activation Area**  
Allows the user to select the serial port used by the to communicate with the RFID reader module.
- B Commands Area**  
Shows various request options for user to select.
- C Data Input Area**  
The data input area is where the user enters block number, key, key data, and other information required by certain commands.
- D Raw Data Display Area**  
Shows all communication logs and responses of the executed commands.
- E EM Card ID Display Area**  
Displays the EM card ID when the EM card is detected.
- F Mifare Card ID Display Area**  
Displays the Mifare card ID when the Mifare card is detected.
- G Error Code Display Area**  
Shows the error message when an error occurs.

## Video/Audio Hardware Device Ready for Third-party Integration

ACT-412A is unsurpassed in functionality with built-in 3W speakers and microphone for bi-direction voice communication or voice message, 300K pixel web-camera for real-time image/video access and capture or facial identification. The ACT-412A offers the unique opportunity for third-party hardware integration.

**Low Light Function**

**300K pixel Camera up to VGA resolution (640 x 480)**

**Face Recognition**

The digital camera captures the image of a person's face and compares facial contours and other facial features with those stored in a database.

**Microphone**

**Voice Recognition**

The microphone captures the voice of a person and compares the signature frequencies with those stored in a database.

**3W Speakers**

**High quality hands-free speakerphone**

Talk with visitors while they wait outside.

## Tough System Design Ideal for In and Outdoor Applications

The housing of the ACT terminal is hard plastic with IP64 front panel protection. With anti-shock, anti-vibration shields and extended temperature -10°C~50°C system design is secured against vandalism and protected against extreme environmental conditions.

Waterproof Testing

Vibration/Shock Testing

Dustproof

**Vibration**

Follow MIL-STD-810F 514.5C-1

**Shock**

1. Operating Shock Half-Sine Wave Shock **3G:** 11ms, 3 shocks per axis: Vertical / Transverse / Longitudinal.
2. Non-Operation Shock Half-Sine Wave Shock **10G:** 11ms, 3 shocks per axis: Vertical / Transverse / Longitudinal.

## Windows® Environment for Easy and Fast 3rd Party Integration

Windows® CE 6.0 and Windows® XP Embedded operating system are able to integrate with other application to create a complete solution.

LED only for display of time and card number.

This pre-built IEI standard OS image comprises all necessary peripheral drivers, library and API (Application Programming Interface) for accessing peripherals, and standard Windows application software and development support.

**Windows Applications**

**Application Development Support**

- Win32 (C/C++)
- MFC (C++)
- NET Compact Framework (C# and VB .NET)
- ATL (Active Template Library)
- COM and DCOM
- XML
- JScript 5.6

**Networking**

- Standard Modem Support for Dial Up
- Networking
- Network Utilities (IpConfig, Ping, Route)
- TCP/IP, TCP/IPv6
- Windows Networking API/Redirector (SMB/CIFS)
- Winsock Support
- FTP Server, Web Server (HTTPD), Telnet Server

Signage

## Membership Management

### We Offer:

- Proximity EM card/tag reading capability to control access to areas and resources in a given physical facility
- 5.7" large color TFT LCD shows the visitor information, delivers event information
- Interactive touch panel allows users access the information by fully interface display, all operation can be done on the touch screen directly
- Sleek frame and in-wall mounting match ever location

## RFID Automated Parking Control System

### We Offer:

- **Serial port for Data Transmission**  
We provide Two independent RS-232 and RS-422/485 serial ports for connecting data acquisition equipment and many other serial devices .

7  
Optional  
Peripherals

# Access Control Door System

The two-in-one EM/MIFARE compliant RFID reader installed in the ACT-08A x86 based panel PC supports sophisticated security applications. Advanced third-party voice and face recognition software can be integrated with the embedded camera and microphone to enable the development of complete security systems to protect restricted environments in banks, government buildings and other sensitive areas.

300K pixel Camera up to VGA resolution (640)

### • Face Recognition

The digital camera captures the image of a person's face and compares facial contours and other facial features with those stored in a database in a few seconds.

Microphone

### • Voice Recognition

The microphone captures the voice of a person and compares the signature frequencies with those stored in a database.

MIFARE/EM Card

### • High quality hands-free speakerphone

Talk with visitors while they wait outside.

Speakers

### We Offer

- **x86 architecture that is easy for system integrator application development**
- **Bluetooth Connectivity**  
Bluetooth infrastructure eliminates the use of wires or line-of sight.

# Healthcare Solutions

The ACT-08A with Radio Frequency Identification (RFID) technology applied in hospitals and healthcare facilities can identify and track patients, objects, and assets, and can speed up or eliminates many manual operations in checking and processing patients.

### • Medication Tracking System

Monitoring the entire flow of medication use, from shipment to administration, helps prevent medical mistakes.

### • Asset Tracking

Attaching an RFID tag to each piece of equipment and strategically locating ACT-08A readers throughout the area of operations where the hardware is used.

### • Family Access Control to Babies in Neonatal Care

After authorization, families have the ability to view details about their babies on the ACT-08A outside the baby care room.

### Patient Tracking

### We Offer

- **Compact Fanless System**
- **Optional Uninterruptible Power System**  
Protecting your ACT-08A from damage in medical environments is critically important. Uninterruptible power supplies reduces the risk of losing valuable data when power failures occur.

Mobile PDI **WiFi CERTIFIED** bg

Wireless Access Point

• **AUPS-A10/A20**  
Optional **Uninterruptible Power Systems**

Wristband (with space to insert small paper card tag)

1  
Automation Panel Solutions

## Features:

- Integrated with RMI Alchemy™ AU1250 500MHz media processor provides hardware decode for MPE1/2/4, DivX and WMV9
- Dual 125KHz-EM/13.56MHz-Mifare RFID reading capacity
- 5.7" TFT touch color screen, fully interface display, all operation can be done on the touch screen directly
- Built in open door relay, alarm relay and exit button input.
- Built-in 2W speaker & microphone for bi-direction voice communication or voice message
- 300K pixel web-camera for real-time image/video access and capture or facial identification
- Windows® CE5.0 operating system support
- IP64 Front panel watertight and dustproof is the perfect solution for harsh environments
- IEI One Key Recovery solution allows you to create rapid OS backup and recovery (Suggest over 4GB storage capacity)

## Low Power, High Multimedia Performance

Integrated with RMI Alchemy™ technology to enable users to play DVD quality video efficiently at full-frame rates with low power consumption. The integrated MAE (Media Acceleration Engine) supports common digital video media including MPEG1, 2, 4, DivX, and WMV9, and delivers full D1 resolution without the need for a DSP or specialized coding.

Multi Video/Audio Format Support Table			
Format	Stream Type	Audio Format	Supported Bit Rates
MPEG-1	System	MPEG	8 Mbps
	Program	MPEG	10 Mbps
MPEG-2	Transport	MPEG	8 Mbps
	Unencrypted only	WMA	2.5 Mbps
WMV9	CBR w/o filters, 720x480	WMA	2.5 Mbps
	VBR w/o filters, 720x480	WMA	2.5 Mbps
DivX	Unencrypted only/ no subtitles - V3.11	MP3/AAC/MPEG	4 Mbps
	V4	MP3/AAC/MPEG	4 Mbps
	V5	MP3/AAC/MPEG	4 Mbps
MPEG-4 MP4 ISO/EIC 14496-2.	Advanced Simple Profile – level 5	AAC	3 Mbps
MPEG-4 AVI	Advanced Simple Profile – level 5	MP3, AC-3	4 Mbps

## In-Wall Mount

Using an in-wall mounting box allows you to achieve breath taking "picture frame" style installations.

1cm Thick Only! Before

System On/Off USB 2.0 In-wall Mounting Holes Removable Faceplate

# How a Relay Switch Works in ACT-457A?

ACT-457A is built-in two relay output controls which are electromechanical switches operated by a flow of electricity in one circuit and controlling the flow of electricity in another circuit. When the electromagnet is energized, it exerts a force on the armature that overcomes the pull of the spring and moves the contact so as to either complete or break a circuit. When the electromagnet is de-energized, the contact returns to its original position.

### • Normal Close Example:

Relay normally closed means that in its normal state the relay is closed. So when energized it will open and break the circuit.

### • Normal Open Example:

When the relay is normally open, there will be no connection between the two wires until the relay receives a signal (outside source to energize relay) to close. Simply put, an open relay is the same as a light switch that is turned off, and will always be off until told to turn on.

## EM Application Access Control

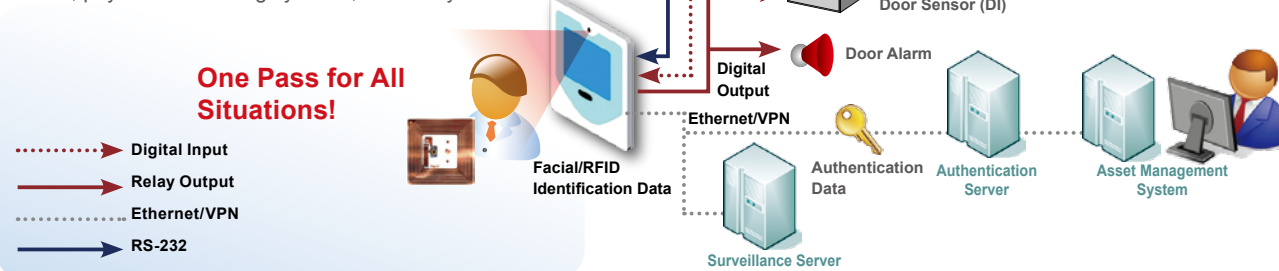

User is identified by RFID sensor, and then the personal access information will be automatically stored and backup at surveillance server. At the same time, Identification data will be sent to back-end system to process. Authentication server will compare with valid list and feedback the result via Ethernet.

## Mifare Application Restrict Assets

What is MIFARE®?

MIFARE is a contact-less smart card technology owned by Philips. The MIFARE technology is based on ISO 14443A operating at a frequency of 13.56 MHz. Its application segments are ranging from the identification, access control, payment and billing systems, and many more.

## Remote Management Tool

IEI RMT enables remote management of several distributed ACT terminals at the same time via network. You can quickly access distributed ACT terminals from anywhere in the world and control/resolve issues remotely!

### IEI RMT Tool

Input the range of IP address on the Internet, the management system will automatically scan the distributed ACT terminals in allowed range.

## Web-based Configurator

Allows users to access ACT-457A and modify the settings via web browser interface anytime, anywhere without any PC client application installed. It makes management of ACT-457A in the network very easy and convenient for IT administrator and minimize time and cost for system maintenance.

### System Setting

User can inquire system information and set up Ethernet and Wireless parameters in system setting. Remote restart option allows users to restart the system once any abnormal circumstance occurs and a restart procedure is needed.

## Runtime DEMO

ACT Runtime Demo is a pre-installed application which helps user quick experience functions of ACT-457A

### 300K Pixel CMOS Camera

In video camera window, user can preview video from camera. Capture and Open function enable user to capture preview image, save as bitmap file and open it immediately.

### Access Control by Smart Card or Exit Button

In home automation page, user can open the magnetic door by press exit button or read sample RFID card.

### Member Login

User can experience RFID reading function in the member login page. When sample card is read, application will identify and display personnel information on the screen. User can edit the valid XML member list file with PC based utility IEI provides and upload to the ACT-457A

### Alarm

When user press light button on the screen, the lights on the screen will enable (represented the access door alarm is activated)

# ACT-408A 8" EM/Mifare Access Control Terminal

## Features:

- Intel® Atom™ processor N270 1.6 GHz CPU for ultra low voltage fan-less support
- Dual 125KHz-EM/13.56MHz-Mifare RFID reading capacity
- 8" TFT touch color screen, fully interface display, all operation can be done on the touch screen directly
- Built-in open door relay, alarm relay and exit button input
- Reader tamper proof detection function
- Able to connect external Wiegand 26 slave reader
- Built-in 3W speaker & microphone for bi-direction voice communication or voice message
- 300K pixel web-camera for real-time image/video access and capture or facial identification
- 802.11 b/g wireless connection
- Advanced in-wall mounting mechanism design
- IP64 Front panel watertight and dustproof is the perfect solution for harsh environments

## Windows® Based Terminal easy for Application Development

### Low Power Intel® Atom™ CPU Inside

The ACT-408A integrated with the 45 nm Intel® Atom™ processor N270 has a 1.60 GHz clock speed and a 533 MHz FSB with a 512 KB L2 cache. The Intel® Atom™ is interfaced through the 533 MHz FSB to an Intel® 945GSE graphics memory controller hub (GMCH) which is in turn interfaced through a high-speed direct media interface (DMI) to an Intel® Mobil ICH7-M I/O controller hub (ICH).

<b>Processor</b>	Intel® Atom™ N270 1.6G
<b>Chipset</b>	Intel® 945GSE / ICH7M
<b>Memory</b>	Supports one 2GB (maximum) 400MHz or 533MHz DDR2 SO-DIMM

## Wiegand 26 Slave Reader Connection

ACT-408A remains an Wiegand communications bus interface allowing physical entrance control via a standard Wiegand 26 protocol through the slave reader. Its remarkable advantage is that it can match with most of the access controllers on the market.

### WIEGAND

### Extending communications with the WIEGAND protocol

This wiegand format consists of a parity bit, 8-bit facility code, 16-bit user ID, and parity bit, for a total of 26 bits.

**WIEGAND Card Reader**

- **High reliability**  
Snow, rain, extreme temperatures, radio frequency interference or external magnetic fields will not affect a Wiegand-based reader.
- **100 Meter Long Distance Transmission**

## Access Control Management

Place the ACT-408A outside the door to play the advertising to attract people's attention, and identify the personal information by RFID technology. Via the Wiegand interface, connecting the slave reader inside the door, swiping the card when people leave. Dual identification for use ensure higher security level.

### We Provide:

- Send out warning message by relay output
- Anti-tamper function: the alarm will activate if the ACT-408A or slave reader is destroyed

## 2 NC/NO Relay Output

ACT-408A is built-in two relay output controls which are electromechanical switches operated by a flow of electricity in one circuit and controlling the flow of electricity in another circuit. When the electromagnet is energized, it exerts a force on the armature that overcomes the pull of the spring and moves the contact so as to either complete or break a circuit. When the electromagnet is de-energized, the contact returns to its original position.

### 1. Normal Close Example:

Relay normally closed means that in its normal state the relay is closed. So when energized it will open and break the circuit.

Electric Lock Type		
<b>Electromagnetic Lock</b>	<b>Electric Bolt Lock</b>	<b>Electric Strike Lock</b>
Fail Secure/Fail Safe		
<b>Fail Secure/Fail Safe</b>	<b>Fail Secure</b>	<b>Fail Secure/Fail Safe</b>

\* Fail Secure: Unlocked When Energized  
\* Fail Safe: Locked When Energized

## 2. Normal Open Example:

When the relay is normally open, there will be no connection between the two wires until the relay receives a signal (outside source to energize relay) to close. Simply put, an open relay is the same as a light switch that is turned off, and will always be off until told to turn on.

## Elevator Security Management

To improve security level in the elevator, ACT-408A with the RFID technology integrates with elevator control system and has the ability to connect to the second reader, allows double security check from the ground to other floors, restrict access to elevators from the ground floor, so only authorized people can be allowed to enter in, fit in to hospitals, office buildings and apartments.

### We Provide:

- The ACT-408A equipped with Intel® Atom™ performance grade processor has the ability to run multimedia files and shows information, advertising and other messages via Ethernet.
- The main system located in front of the elevator to perform access control on the building
- The inside reader limits accessible floors for authorized people

## Complete Solutions for You

### A. ACT-08A-9103

► 8.4" SVGA High Performance Access Control Terminal

#### Embedded High Computing Performance

The slim Intel® 910GMLE powered ACT-08A-9103 is a high-performance, low-power information access control terminal. The ACT-08A-9103 is ideal for processing-intensive applications that require superior computing performance.

With low power consumption benefit, BGA type enhances thermal performance and system stabilities significantly.

Processor	Intel® Celeron® M 1.0 GHz/ 512k Cache
Chipset	Intel® 910GMLE
Memory	one 200-pin 2GB (maximum) DDR2 SO-DIMM

### B. ACT-08A-N270

► Extremely Low Power Consumption

The 45 nm Intel® Atom™ processor N270 has a 1.60 GHz clock speed and a 533 MHz FSB with a 512 KB L2 cache. The Intel® Atom™ is interfaced through the 533 MHz FSB to an Intel® 945GSE graphics memory controller hub (GMCH) which is in turn interfaced through a high-speed direct media interface (DMI) to an Intel® Mobil ICH7-M I/O controller hub (ICH).

**CPU TDP 2.5W Only**

We Offer

Processor	Intel® Atom™ N270 1.6G
Chipset	Intel® 945GSE / ICH7M
Memory	Supports one 2GB (maximum) 400MHz or 533MHz DDR2 SO-DIMM

- RISC-based Solutions
- PACsmate Medical
- Optional Peripherals

## Specifications

Model	ACT-08A-9103	ACT-08A-N270
LCD Size	8.4"	
Max Resolution	800 x 600	
Brightness (cd/m <sup>2</sup> )	400	
Contrast Ratio	500 : 1	
LCD Color	262K	
Pixel Pitch (mm)	0.213 (H) x 0.213 (V)	
Viewing Angle (H-V)	120° / 100°	
Backlight MTBF	50000hrs

## 12.1" EM/Mifare Access Control Terminal

CMOS Camera with Low Light Function

### Features:

- Intel® Atom™ processor N270 1.6 GHz CPU for ultra low voltage fan-less support
- Dual 125KHz-EM/13.56MHz-Mifare RFID reading capacity
- 12.1" TFT touch color screen, fully interface display, all operation can be done on the touch screen directly
- 2 DI and 2 DO provide device control applications
- Built-in 3W speaker & microphone for bi-direction voice communication or voice message
- 300K pixel web-camera for real-time image/video access and capture or facial identification
- 802.11 b/g wireless connection
- Integrated Bluetooth V2.0 connection
- Advanced in-wall mounting mechanism design
- Optional high speed 3.75G broadband connectivity
- IP64 Front panel watertight and dustproof is the perfect solution for harsh environments
- IEI One Key Recovery solution allows you to create rapid OS backup and recovery (Suggest over 4GB storage capacity)

### Digital Input & Output

- Automation Panel Solutions
- All-in-One Touch POS
- Digital Signage
- Video Wall Controller

## Extremely Low Power Consumption

The 45 nm Intel® Atom™ processor N270 has a 1.60 GHz clock speed and a 533 MHz FSB with a 512 KB L2 cache. The Intel® Atom™ is interfaced through the 533 MHz FSB to an Intel® 945GSE graphics memory controller hub (GMCH) which is in turn interfaced through a high-speed direct media interface (DMI) to an Intel® Mobil ICH7-M I/O controller hub (ICH).

Processor	Intel® Atom™ N270 1.6G
Chipset	Intel® 945GSE / ICH7M
Memory	Supports one 2GB (maximum) 400MHz or 533MHz DDR2 SO-DIMM

- RISC-based Solutions
- PACsmate Medical
- Optional Peripherals

## In-Wall Mount

Using an in-wall mounting box allows you to achieve breath taking "picture frame" style installations.

Match your Decoration Style!

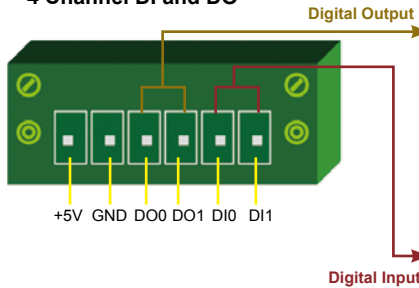

1cm Thick Only! Before

## Digital I/O Controls

The ACT-412A features its 4 channel DI/DO (2 inputs plus 2 outputs) with screw terminals design making for quick interfacing. Digital input/output (DIO) devices enable direct control of equipments, and are used in a wide variety of applications from factory automation, machine control, to home automation. You can control motors, heaters, valves, lamps and so on under the ACT-412A DIO interface.

### 4 Channel DI and DO

### What is Digital I/O

Digital output pin provides a means of turning something on or off.

Digital inputs has two state, a high and low, is capable of accepting a digital signal

### Control Units

## Mobile/Backup 3.75G Wireless Connection (For Option)

HSUPA (High speed uplink packet access) is a 3G mobile telephony protocol with up-link speeds up to 5.76Mbit/s. The improvement helps the efficiency of VoIP and multimedia file uploading, reducing the working time consuming, while mobile connecting.

GSM Generation	Uplink/Downlink Speed
2G-GSM	9.6Kbps-14.4Kbps
2.5G-GPRS	9.6Kbs-115Kbps
2.75G-EDGE	384Kbps
3G-WCDMA	64Kbps/2Mbps (Indoor) 384Kbps (Outdoor)
3.5G-HSDPA	384Kbps/14.4Mbps (Max)
3.75G-HSUPA	5.76Mbps/14.4Mbps

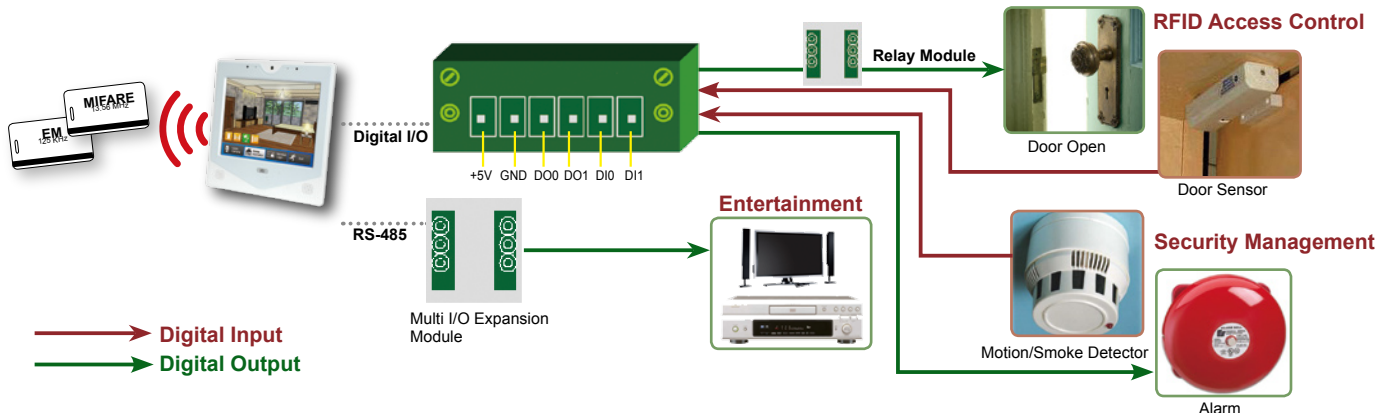

- HSUPA**
- Backup LAN
  - Mobile wireless solution for the location where don't have the access point or LAN support

## Home Automation

### We Provide:

- 2 digital input and 2 digital output interface for diverse device controls such as lighting, air conditioning and other electronic devices on and off.
- Bluetooth V2.0/WLAN technology allows remote control for viewing surveillance video or adjust the temperature before returning home.
- This is an intuitive touch screen interface which can be operated using the fingertips. This system allows users to switch lights on and off, adjust brightness, and more.

## Boardroom Management

In the luxury hotel or commercial environments, you can book the meeting room on the web, and all the reservations can be displayed in the ACT-412A system on the front door of every meeting room and the system has the capability to identify personal information. Integrated with software can be used as appointment booking or meeting room booking system.

## Emergency Room Management

Place the RFID system ACT-412A in the emergency room, to read the personal information from the individual patient. The medical staffs can monitor the status and location of each individual ER patient and reducing waiting time to manage the rapidly changing care environment.

- Calculate the numbers of patients in the emergency room
- Actively give the nurses name list of waiting for a long time

### We Provide:

- X86 system architecture and Windows environment easy for application development
- RS-485 data transmission extends distances to up to 1.2 km

# Heavy Industrial Panel PCs

IEI's rugged industrial panel PCs (PPC) all have reliable IP 65 aluminum front panels are suitable for the demands of harsh industrial environments. Powerful Intel® Core™ 2 Duo, Pentium® 4 and Pentium® M processor and AMD low power processor are integrated onto a wide range of feature-rich IEI embedded motherboards that drive the IEI industrial PPCs. Multi I/O and expansion capabilities enables you to interface your system with many external devices.

## Feature 1 / IP65/IP67 Waterproof Panel PCs

The IP (ingress protection) rating system is an international standard for classifying the degrees of protection from solid objects and liquids afforded by electrical equipment and enclosures. IEI waterproof laboratory was found to have the facilities, equipment and personnel needed to conduct the waterproof tests and fully witnessed by UL International. All of the industrial panel PC products designed to be rugged, ideal for any industrial environment where dust and drizzle is encountered.

### IP65 Front Panel Compliant

[ IP65 ] Dust-Tight

[ IP65 ] Protected against water sprayed from all directions

	Water Flown Rate	Hose Diameter
IP64	10.0L/min	0.5mm
IP65	12.5L/min	6.3mm
IP66	100L/min	12.5mm
UL50	246L/min	25.4mm

### Full IP67 Sealed

[ IP67 ] Dust-Tight

[ IP67 ] Temporary immersion under water 1m

Waterproof OSD Keypad

Testing Procedures  
Protected against the effects of temporary immersion between 15 cm and 1m. Duration of test 30 minutes

Table of NEMA Enclosure Rating and Comparison to IP Code	
Enclosure Type Number IEC	Enclosure Classification Designation
1	IP 10
2	IP 11
3	IP 54
3R	IP 14
3S	IP 54
4 and 4X	IP 56
5	IP 52
6	IP 67
12	IP 52
13	IP 54

### NEMA Enclosure Rating and IP Rating

NEMA (National Electrical Manufacturers Association) sets the industry standards in the USA for electrical equipment enclosures. The European Standards are determined by the Institute of Petroleum and are sometimes referred to as Ingress Protection (IP) numbers. The standards are listed below.

- IP Classification – addresses the European market
- NEMA Classification – addresses the American market

## Feature 2 / Rigorous Vibration and Shock Testing

IEI rugged industrial Panel PCs follows the strict environmental testing procedures performed to ensure the panel PC can withstand the relatively infrequent, non-repetitive shocks or transient vibration encountered in handling, transportation and service environments.

### 1. Vibration Testing Specifications

- Testing Standard: MIL-STD-810F 514.5C-1
- Operating Random Vibration Mode  
10-500 Hz, 60min/axis. Equivalent to Z:1.04 Grms X:0.204 Grms Y:0.74 Grms
- Non-Operating Sine Mode  
5~17Hz, 0.1" double amplitude displacement  
17~640Hz, 1.5G acceleration peak to

### 2. Shock Testing Specifications

- Testing Standard: IEC68-2-27
- Operating Shock Half-Sine Wave Shock  
3G acceleration part to part (11ms)
- Non-Operation Shock Half-Sine Wave Shock  
10G acceleration part to part (11ms)

HDD with Anti-shock buffer rubber enhances protection performance.

## Feature 4 / User Friendly Interface

### 1. User-accessible CF

PPC has a CF slot on the bottom panel that makes installing and replacing CF cards easy.

### 2. Securing Your CF Card

PPC has a CF slot on the bottom panel A security door on the PPC protects the CF card from being stolen in public places.

### 3. Lockable Power Cord

Power plug lock keeps power cable securely in place.

### 4. CMOS Reset button

The CMOS reset button forces the BIOS to be reset to its default values for the following reasons:  
 ---Fast BIOS updating  
 ---Hard device conflicts slows down or disrupts system operation

### Restoring default system settings!

### 5. Selectable AT/ATX mode switch

Easily select the AT or ATX power mode with an easily accessed switch.

#### Production Line

AT power mode allows multiple panel PCs automatically start when the central power unit is connected.

#### General Ticketing Machine (GTM)

The ATX power mode allows the panel PCs to be turned on/off remotely via network.

# SAILORPC-12A 12.1" Full IP67 Panel PC

**Full IP67**  
Up to 1 meter of submersion

The rugged SAILORPC-12A panel PC based on Intel's Atom processor is designed in a very robust and waterproof (IP 67/NEMA 6) in aluminum housing. Withstanding even the highest demands of all-day field use, and protected against shock and vibration permitting extremely flexible integration into a wide variety of applications, such as: avionics, military, marine, mining, industrial...etc.

## Features:

- 12.1" 1000 nits super high brightness TFT LCD available
- IP67 (NEMA 6) fully-enclosed aluminum die casting enclosure and IP67 waterproof lockable I/O
- Fanless system integrated with Intel® Atom™ N270 1.6G processor for ultra Low voltage
- Supports one 2.0 GB (max.) 400/533 MHz DDR2 SO-DIMM
- Built-in internal WiFi antenna supports 802.11 b/g/n high standard
- One Compact Flash® Type II socket
- CAN-Bus interface for automotive applications
- Ambient light sensor detects ambient light for automated screen adjustments to optimize viewing. (Advanced Deep Dimming to Black for sunlight readable model)
- Touch Screen
- Standard VESA 75/100 compliance
- Panel mounting support
- IEI One Key Recovery solution allows you to create rapid OS backup and recovery (Suggest over 4GB storage capacity)

- 1 GbE LAN
- 2 RS-232
- 3 RS-232/422/485
- 4 CAN bus and Audio line out
- 5 Two USBs
- 6 POWER Adapter

- Invisible Antenna Inside
- Ambient Light Sensor
- System Power On/Off
- OSD Adjustment:
  - LCD On/Off
  - Brightness Up
  - Brightness Down
  - Speaker Volume Up
  - Speaker Volume Down
  - Ambient Light Sensor On/Off

## Rugged Panel PC with Fanless Intel® Atom™ Processor

The fanless intelligent display computer, SAILOR-12A, is using 45 nm Intel® Atom™ processor with up to 1.6 GHz frequency and can be used in harsh and safety-critical applications in transport, avionics, engineering or industrial automation.

Better graphic performance is excellent for:kiosk, self-service terminal, and digital signage applications.

Evaluating 3D mark performance with different generation CPU and chipset combination, Intel® Atom™ processor is the best solution for low power consumption and better graphic performance choice.

3 Digital Signage

4 Video Wall Controller

5 RISC-based Solutions

6 PACSmate Medical

7 Optional Peripherals

## IP67 Fully-Enclosed Design

The SAILORPC-A12 is designed by front sealing and test in the certified house chamber under UL's witnessed Test Data Program (TDP). IEI is following the IP67 standard testing procedures, This full IP67 touch monitor provides full IP67 protection including connectors, cables and Touch.

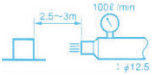

### [ IP67 ] Dust-Tight

**First Digit** The first digit indicates the level of protection that the enclosure provides against access to hazardous parts

Level		Effective Against
6		No ingress of dust; complete protection against contact

### [ IP67 ] Temporary immersion under water 1m

**Second Digit** Protection of the equipment inside the enclosure against harmful ingress of water

Level		Effective Against
6		Water projected in powerful jets against the enclosure from any direction shall have no harmful effects
7		Ingress of water in harmful quantity shall not be possible when the enclosure is immersed in water under defined conditions of pressure and time (up to 1mof submersion)

## Sealing enclosure with all sides of IP67 !

## IPX7 Test

### • Test for protection against Water

Protected against the effects of temporary immersion between 15 cm and 1m. Duration of test 30 minutes

**Up to 1m of submersion**

### • Air Flow Test

Air pressure measurement is used as the IP67 test method, the air flow tester is capable of detecting leaks in product and evaluates the pass/fail status of the watertight system.

## IP6X Test

### • Test for protection against Dust

## Sunlight Readable

### • Super High Brightness

SAILORPC-12ASR (Sunlight Readable Model) has greatly improved luminance through edge lighting to achieve super high brightness (up to 1000 cd/m<sup>2</sup>).

### • Low Reflection through AR (Anti-Reflection) Technology

Outdoor applications in daylight or other bright environments require technology that can suppress surface reflection. SAILORPC-12ASR sunlight readable model offer special AR (anti-reflection) surface treatment to prevent reflection, which ensures excellent visibility in daylight conditions.

Reduced Reflection of Light

**Super High Brightness: 1000 nits**  
**High Contrast: 700:1**  
**Wide Viewing Angle: 60/60 (R/L) 45/75 (U/D)**

### • Ambient Light Sensor

The SAILORPC-12A built in the ambient light sensor in front of the panel to automatically detect the amount of light in the viewing environment and auto-adjusts the brightness of the screen.

#### Benefits:

- Avoid eye strained and tired, to provide comfortable viewing
- Power consumption saving
- Extend lamp lifetime

#### Day Mode:

Adjust to maximum 1000 nits  
 Sunlight Readable automatically

#### Panel brightness auto-

adjustment depends on the  
 ambient light amount to save  
 the system power

#### Night Mode:

Adjust to acceptable brightness  
 automatically in a insufficient  
 light ambient

## Uninterrupted Wireless Connection

The SAILORPC-12A series featuring high speed WiFi IEEE 802. n protocol which builds on previous 802. standards by adding multiple-input multiple-output (MIMO) and 40 MHz operation to the physical (PHY) layer. MIMO uses multiple transmitter and receiver antennas to improve the system performance.

802.11b/g/n ready with invisible antenna

27 times faster data transfer rate compared to 802.11b

Protocol	Freq. (GHz)	Thru. (Mbit/s)	Data (Mbit/s)	Range indoor (m)	Range outdoor (m)
802.11a	5 GHz	23	54 Mbit/s	~35	~120
802.11b	2.4 GHz	4.3	11 Mbit/s	~38	~140
802.11g	2.4 GHz	19	54 Mbit/s	~38	~140
802.11n	5 GHz and/ or 2.4 GHz	74	300 Mbit/s (2 streams)	~70	~250

802.11b/g Wi-Fi, which gives you up to broadband-speed browsing and connectivity, compared to traditional wired LAN.

The benefits here:

- Simple configuration
- Without hinders worker movement
- Without lessens man-hour productivity
- Without additional purchase of proprietary cables for specific devices
- Without the barrier to space

#### Benefit

- \* Half the size of Mini-PCI
- \* Higher bandwidth interface
- \* Rigid mechanical spec.

802.11a	802.11b/g	802.11n
Access to email, instant image and the Internet	Streaming music Streaming video	VoIP /Gaming /NAS

## CAN-Bus Automotive Applications

The SAILORPC-12A is equipped with automotive applied CAN-Bus interface. The Control Area Network (CAN) is a serial bus system, originally developed by Bosch for use in automobiles, and now is increasingly being used for control in industrial and automotive applications

### Controller Area Network

- 1Mb/s data rate
- High reliability bus
- CAN is an open standard with many variants
- Is capable of providing real-time communication.

#### CAN in cars and truck engine

- Networking controllers for engine timing, transmission, chassis and brakes.
- Networking components of chassis electronics and electronics which make the vehicle more comfortable. Examples of such multiplex applications are lighting control, air-conditioning, central locking and seat and mirror adjustment.

#### Other Application Fields:

## Reliable Die-Casting Aluminum Chassis

These ruggedized LCD products are also designed for high reliability, shock and vibration tolerance, survival of high temperature, and corrosive environments. External materials like dust/ water can be very destructive to any type of equipment over time.

#### • Fanless and Completely Sealed Strong Housing

Sealed housing strictly avoids the water invasion and the rugged die-cast aluminum enclosure helps the need for using a fan as a heat dissipation device to minimize the troublesome overheating problem.

#### • Rigorous Shock/Vibration Test

Compliant with MIL-STD-810F shock and vibration protection, as well as offering IP67 water and dust proof front panel protection.

Operating Temperature: With on-board 1.6GHz Intel® Atom™ Processor N270 -10°C~50°C

## Dedicated Applications

### High Brightness Marine Panel PC

**CAN-Bus Transmission**

Day

Night

**1000 nits Sunlight Readable !**

**0%~100% brightness control for Navigation Safety !**

**We Offer:**

- Transflective technology super high brightness 1000 nits enhance visibility
- Intel® ATOM Platform, Fanless Design
- Dimming keypad control backlight brightness from nearly 0% to 100%
- Ease of use front panel OSD control
- Enhanced shock and vibration resistance
- Touch Screen Capable
- Panel mounting support

### Logistics and Warehousing

**We Offer:**

- Wireless functions can also be implemented via a PCIe mini card slot in
- combination with an internal antenna.
- Designed for automotive applications featuring built in CAN-Bus interface

## 12.1" Aluminum UPS Panel PC with Smart Battery Backup

**Rugged Aluminum Die-casting Body!**

UPC-12A, a revolutionary model featuring smart battery technology, which allows users to monitor and manage battery's status directly through IEI unique user interface. The UPC-12A boasts a 12.1-inch XGA LCD screen with sunlight-readable 1000 nits options. The UPC-12A series equipped with battery pack provides emergency power when the main power source is not available, eliminating the risk of main power shutdown suddenly, permitting extremely flexible integration into a wide variety of applications:

- Lift Truck System
- ATM
- Medical Cart
- Order Pick Cart
- Warehousing and distribution

**Smart battery backup provides emergency power (14.8V, 3800 mAH)**

**Waterproof USB Cover**

Smart Battery

Sunlight Readable

wireless 802.11 b/g/n

Touch Screen

Light Sensor

PCI/PCle Expansion Capability

IP 65 Front Panel

One Key Recovery

### Features:

- 12.1" all-in-one PPC with touch technology
- 1000 nits sunlight readable panel available
- Powerful all-in-one panel PC
  - Intel® GM45 chipset and 45nm mobile Core™2 Duo processor support
  - An onboard ULV Intel® Celeron® M 1GHz plus 512K with Intel® 910GMLC chipset support
- Battery backup power protects your productivity from the constant threat of power outages and lost data
- Ambient light sensor detects ambient light for automated screen adjustments to optimize viewing. (0%~100% brightness control for sunlight readable version)

- Dual Gigabit Ethernet to allocate reduce the network collision and crash, or virus infection
- Remote power On/Off switch
- 802.11 b/g/n Wi-Fi support
- PCI expansion slot for adding more capacity (Optional PCI express expansion interface)
- One Compact Flash® Type II socket
- Standard VESA 75/100 mounting
- Robust die-casting aluminum chassis
- IP 65 compliant aluminum front panel compliant
- IEI One Key Recovery solution allows you to create rapid OS backup and recovery (Suggest over 4GB storage capacity)

## UPS Panel PC Applications

### A. Mobile System Solution

Providing backup power for the data sensitive part of movable equipment, allowing charging and battery replacement of the primary power without shutting down the data terminal.

### Benefits:

- Provides power for certain period of time after a power fail has occurred.
- Continue to provide stable power to equipment during line sags & spikes.
- Absorb power surges & transients.
- Smooth out noisy power sources.

### B. Power Bank Solution

Acts as power input regulator to prevent unstable power input damage and avoid protect against unexpected power loss.

### C. Other Relative Applications

#### Production Line

Blue Screen

#### With UPS Protection

The IEI Smart Battery is immediately enabled when power failed, and provides stable power so the operator can save important system parameter.

#### Without UPS Protection

System shuts down or hangs-up suddenly and all data is lost because no backup power is available.

# A. Smart Battery Backup

Protect your productivity from power outages and data lost

## 1. Rechargeable Battery

The UPC series is equipped with rechargeable "smart battery" which can supply voltage to systems up to 60 minutes without any external power supply.

Platform	Smart Battery Run-time
Intel@910GMLE	40-60 mins
Intel@GM45	40 mins

## 2. Battery Monitoring Utility

- Battery detection
- Battery capacity status
- Battery charge
- DC Input Indicator
- Battery Indicator
- Temperature warning
- Low battery alarm
- Connection port status

## 3. Temporary Mobile System

UPC Battery Mode

Under the battery mode, the UPC system can boot by power switch while the UPS battery supplies the main power to the unit as a temporary mobile system.

### Protection

Automatic self-test	Battery self-test ensures early detection of a battery that needs to be replaced.
Back Up Power	An Back-UPS instantly switches your computer to emergency battery backup power and allows you to work through brief power outages

### Convenience

Audible Alarms	Proactively notifies you of changing battery under 10% capacity.
Automatic self-test	User friendly graphical interface.

### Manageability

Software	This ensures real time monitoring and networking remote management Network based power management Internet ready monitoring
----------	---

## Manageability

### LAN CONFIGURATION

- LAN shows system IP Address information

### AUPS STATUS

- STATUS shows DC / Battery power input detection

Auto-Scan Connection port

Auto Shutdown

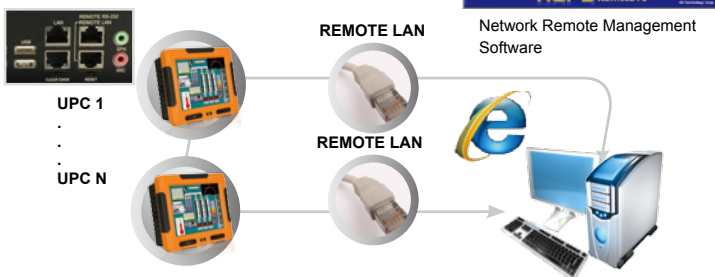

System shuts down condition by battery capacity setting

## Network Based Power Management and Monitoring

The UPC series carries with smart battery software utility and application program for user to monitor the battery real time status and remotely control system power on/off from anywhere and anytime through network. Remote management software allows users to use static IP or DHCP for remote management.

### Multiple Systems Power Control

The remote management software utility and application program allows users to easily get the status of the UPC and to control the UPC power functions from anywhere with an internet connection.

### UPC Network Remote Management Battery Capacity Status

Power On/OFF

UPS Status Monitoring

### Email Status Report

Remote control DC output ON/OFF via web interface.

7 Optional Peripherals

# B. Powerful Computing

The powerful UPC-12A are designed for embedded performance grade applications. Featuring an Intel® GM45/910GMLE provides total compatibility in a wide variety of high performance end lower power industrial control applications.

## Intel® GM45

The UPC-xxA series integrated with the 45nm next generation Intel® Core™2 Duo processor family (Penryn) which extends leadership in performance and energy efficiency for low power embedded applications.

### Performance Leadership

- Penryn on 45nm process
- Large L2 Cache and Faster FSB (6M, 1066MHz)

### Increased Integration

- Support for High Definition Decoder in H/W

Format	Decoding Stage	GME965	GM45
MPEG2 (DVD)	HW Motion Comp	v	v
	Inverse DC Transform	v	v
	Variable Length Decode	v	v
VC-1 (WMV9)	HW Motion Comp + In Loop Deblocking	v	v
	Inverse Transform	v	v
	Variable Length Decode	v	v
AVC (H.264) (HD DVD)	HW Motion Comp + In Loop Deblocking	v	v
	Inverse Transform	v	v
	Variable Length Decode	v	v

For performance-oriented users, socket type allows customers to easily upgrade processors from Celeron® M 2.0GHz to Core™2 Extreme 2.53GHz.

Package Type	Brand Name	Code Name	CPU No.	Clock Speed	FSB (MHz)	L2	TDP	Chipset

### Military Application:

- Powerful PC with super high brightness LCD Screens for demanding military applications
- Touch Screen Capable
- Integrated Intel® Core 2™ Duo CPU with high performance graphics speeds up to 533 MHz improve graphics and 3D rendering performance, enable high-definition video playback, for graphic intensive applications (i.e. mapping, simulation)

## Intel® 910GMLE

### Intel® Celeron® M 1GHz plus 512K cache with Intel® 910GMLE chipset

Offers the best combination of high performance computing features with the lowest power dissipation, ideal for industrial automation applications.

The pressure between the heat sink and the heat source must be high for easily flow for good thermal transfer.

### Comparison of CPU Performance Benchmark-SANDRA (Higher index values are better)

## Selectable AT/ATX Power Mode

Convenient External Switch in the Rear

### • AT Power Mode

The AT power option allows multiple systems to be powered on directly by turning on the power supply. A room of computers can be controlled by a central power switch, so all systems are turned on and off by a central switch. This power mode is best suited for multiple computers where constant connectivity is not necessary, as the computers cannot be accessed or turned on remotely.

#### UPC switch settings

**BATT / UPS**   **AT / ATX**

#### Benefits:

- Automatic start when power connected

### • ATX Power Mode

The ATX power option allows systems to be powered on and off remotely over a network. Systems must be plugged in all the time, but they can be turned on from a "soft-off" using software that sends the appropriate signal over the network connections. Individual PCs can be turned on at the same time. The always-on ability allows complete remote administration, reducing technician visits to only when there are hardware issues.

#### UPC switch settings

**BATT / UPS**   **AT / ATX**

#### Benefits:

- Power Management: Turn the system to standby mode to save power when the PPC is not used.
- Remote Control: The standby function on the ATX mode power supply allows the PPC to be turned on/off remotely via network.

System Off

System On

System Off

## C. Flexible Expansion Interface (PCI/PCIe/PCIe mini Expansion Interface)

UPC series provide many expansion interfaces including one standard 32-bit PCI slot for various PCI add-on card, and one PCIe mini card socket for a small form factor extender such as wireless module.

1  
Automation Panel Solutions

2  
All-in-One Touch POS

3  
Digital Signage

4  
Video Wall Controller

5  
RISC-based Solutions

6  
PACsmate Medical

7  
Optional Peripherals

### 1. PCI/Optional PClex1 Expansion Slot

**Anti-vibration Riser**  
Tightly secured riser card design.

• PCI Riser

• PCI e x 1 Riser (Optional)

• PCI-E x 1 card

• PCI serial card

• PCI interface Capture Card

### 2. PCIe mini slot for 802.11b/g/n wireless module

The UPC series featuring high speed WiFi IEEE 802.11 n protocol which builds on previous 802.11 standards by adding multiple-input multiple-output (MIMO) and 40 MHz operation to the physical (PHY) layer. MIMO uses multiple transmitter and receiver antennas to improve the system performance. The 40 MHz operation uses wider bands, compared to 20 MHz bands in previous 802.11 operation, to support higher data rates. Wider bandwidth channels are cost effective and easily accomplished with moderate increases in digital signal processing.

**27 times faster data transfer rate compared to 802.11b**

Protocol	Freq. (GHz)	Thru. (Mbit/s)	Data (Mbit/s)	Range indoor (m)	Range outdoor (m)
802.11 a	5 GHz	23	54 Mbit/s	~35	~120
802.11 b	2.4 GHz	4.3	11 Mbit/s	~38	~140
802.11 g	2.4 GHz	19	54 Mbit/s	~38	~140
802.11 n	5 GHz and/ or 2.4 GHz	74	300 Mbit/s (2 streams)	~70	~250

**The UPC System Features**

- Invisible antenna delivers 802.11n wireless network connectivity
- Wireless IEEE 802.11 b/g/n module with PCI Express Mini-Card interface

## D. Sunlight Readable

### • 1000 nits Super High Brightness

The UPC-12AH series has greatly improved luminance through edge lighting to achieve super high brightness

### • Low Reflection through AR (Anti-Reflection) Technology

Outdoor applications in daylight or other bright environments require technology that can suppress surface reflection. The UPC-12AH sunlight readable model offers special AR (anti-reflection) surface treatment to prevent reflection, which ensures excellent visibility in daylight conditions.

Super high brightness: 1000 nits  
High contrast: 700:1  
Wide viewing angle: 60/60 (R/L) 45/75 (U/D)

## E. Ambient Light Sensor

### Ambient Light Sensor provides Comfortable Viewing and Power Saving

Auto-detects the amount of light in the viewing environment and auto-adjusts the brightness of the screen.

- Avoid eye strained and tired, to provide comfortable viewing
- Power consumption saving
- Extend lamp lifetime
- Extends backlight life

Note: Fully Dimmable Controls (for UPC-xxAH model)

## F. Rugged Design

The UPC series ultra-rugged design survives the continuous shocks and jolts of a forklift. Engineered with a tough, anti-vibration and IP65 front panel dust and water rating.

### Robust Die-Cast Aluminum Enclosure

A rugged die-cast aluminum enclosure helps the need for using a fan as a heat dissipation device to minimize the troublesome overheating problem.

### Rigorous Shock/Vibration Test

Compliant with MIL-STD-810F shock and vibration protection, as well as offering IP65 water and dust proof front panel protection.

HDD install with Anti-shock buffer rubber enhances protection performance.

### Dismantleable Fan Module for Easy Maintenance

## Applications

### 1. Lift Truck PPC

Lift truck mounted with UPC-12A, just as with barcode scanners, enable real-time data collection which allows operators to accomplish traditional warehouse tasks – faster – thus reducing labor costs.

#### We Offer:

- 9~28V DC Input for Mobile Application.
- WiFi 802.11 b/g/n 802.11b/g Wi-Fi, which gives you up to broadband-speed browsing and connectivity while moving, compared to traditional wired LAN. Without hinders worker movement and lessens man-hour productivity.

### 2. Power Bank

#### We Offer:

- Redundant Power Protection  
As the redundant power supply, in the event of the main power source failing or running out, the UPC unit is able to power the load to provide greater reliability.
- Wide Range 9V~28VDC Input  
The UPC series provides wide range +9~+28VDC power input for regulator function to prevent unstable power input damage, also avoid unexpectedly power lost.
- Rechargeable temporary battery pack
- Providing up to 60 minutes uninterrupted operation time for external battery change or relocation data back up.
- Reduce Risk of Losing Valuable Data as Continuous System Operation
- VESA Compliance Easy to Employ

# WIDS-515A/517A

## 15"/17" Wireless Panel Mount Panel PC

The WIDS series featuring high speed WiFi IEEE 802.11n protocol which builds on previous 802.11 standards by adding multiple-input multiple-output (MIMO) and 40 MHz operation to the physical (PHY) layer. MIMO uses multiple transmitter and receiver antennas to improve the system performance. The 40 MHz operation uses wider bands, compared to 20 MHz bands in previous 802.11 operation, to support higher data rates. Wider bandwidth channels are cost effective and easily accomplished with moderate increases in digital signal processing.

### Features

- LGA 775 Intel® Core™2 Duo / Celeron® D FSB 533/800/1066 MHz processor
- Supports two 2.0 GB (max.) 667 MHz DDR2 DIMM
- Dual Gigabit Ethernet support
- Built-in invisible WiFi module supports 802.11 a/b/g/n
- Additional PCI expansion slot capacity (Optional PCIe x4 slot with PCIe x1 expansion slot capacity)
- Lockable power connector to ensure secure power cable connection
- Easily accessible external AT/ATX mode selection switch
- External CMOS reset button for fast system recovery
- One Compact Flash® Type II socket
- IP 65 compliant aluminum front panel
- IEI One Key Recovery solution allows you to create rapid OS backup and recovery (Suggest over 4GB storage capacity)

### WiFi 802.11 a /b/g/n WLAN Networking

**27 times faster data transfer rate compared to 802.11b**

802.11 a/b/g/n ready with invisible antenna

Protocol	Freq. (GHz)	Thru. (Mbit/s)	Data (Mbit/s)	Range indoor (m)	Range outdoor (m)
802.11 a	5 GHz	23	54 Mbit/s	~35	~120
b	2.4 GHz	4.3	11 Mbit/s	~38	~140
g	2.4 GHz	19	54 Mbit/s	~38	~140
n	5 GHz and/or 2.4 GHz	74	300 Mbit/s (2 streams)	~70	~250

### IP 65 Security Front USB Port

Designed for industrial use, WIDS waterproof front USB cover is based around the standard USB interface, with USB Ver.2 performance offering data transfer up to 480Mbps.

Front USB function switch allow user to enable or disable the front USB port function. Depends on application and security demands, the system administrator can easily make decision to release the front USB port or not.

**Dimensions (Unit: mm)**

• **PPC-2710GS**

• **PPC-2712GS**

**Optional 802.11 b/g Wireless LAN Module**

The PPC-2710G and PPC-2712G equip with a wireless module that make larger bundles of data be transmitted at high speed and in real-time. The application of wireless LAN facilitates its use in large warehouses and at greater distances.

**Fanless System**

The PPC-2710G and PPC-2712G are designed with an AMD LX-800 platform. The AMD Geode™ LX 800 generates less heat than other processors but maintains an above-average performance enabling a fanless design. A fanless design reduces the failure caused by fans and extends the operation life of the device.

## Intel® Atom™ Power Efficiency

New Microarchitecture design for Intel® Atom™ CPU reduces 50% power consumption.

## Different Type for Different User

IEI always close to customer's needs through offering multiple choices.

BGA type CPU

With low power consumption, BGA type enhances thermal performance and system stabilities significantly.

Socket type CPU

For performance-oriented users, socket type allows customers to easily upgrade processors from Pentium® M 1.1GHz to 2.1GHz.

Processor Number	Processor Generation (Architecture)	Clock Speed
705	Dolhan 90nm	2.16 GHz
708	Dolhan 90nm	2.16 GHz
750	Dolhan 90nm	1.86 GHz
758	Dolhan 90nm	1.86 GHz
745	Dolhan 90nm	1.86 GHz
740	Dolhan 90nm	1.73 GHz
735	Dolhan 90nm	1.78 GHz
730	Dolhan 90nm	1.66 GHz
725	Dolhan 90nm	1.66 GHz
715	Dolhan 90nm	1.58 GHz
758	Dolhan 90nm	1.58 GHz
738	Dolhan 90nm	1.48 GHz
735	Dolhan 90nm	1.28 GHz
733	Dolhan 90nm	1.18 GHz
733	Dolhan 90nm	1.18 GHz
723	Dolhan 90nm	1.18 GHz
713	Sanjour 130nm	1.16 GHz

LCD Monitor Stand	STAND-100-RS

Industrial Aluminum PPC-51 Series

# PPC-5150

Intel® Pentium® 4 / Pentium® Dual-Core Processor with 15" XGA TFT LCD and Touchscreen

## Features

- 15" TFT XGA LCD
- Intel® Pentium® 4 / Celeron® D CPU support FSB 533MHz up to 2.8GHz
- DDR 266/333MHz DIMM memory up to 4GB
- Dual Gigabit Ethernet support
- One CompactFlash® Type II socket
- Easy installing and mechanism design
- IP 65 compliant aluminum die-casting front panel
- IEI One Key Recovery solution allows you to create rapid OS backup and recovery (Suggest over 4GB storage capacity)

## Specifications

Model		PPC-5150GS/8520	PPC-5150A-R11/9455	
Display	LCD Size	15"		
	Max Resolution	1024(W) x 768(H)		
	Brightness (cd/m²)	350		
	Contrast Ratio	700 : 1		
	LCD Color	262K		
	Pixel Pitch (mm)	0.297(H) x 0.297(V)		
	Viewing Angle (H-V)	140° / 125°		
	Backlight MTBF (hrs)	50,000		
Motherboard	SBC Model	POS-8520	POS-9455	
	CPU	Socket 478 Intel® Pentium® 4, Celeron® M with 533MHz(max.) FSB	LGA 775 Socket with Intel® Core™2 Duo, Celeron® D with 533/800/1066 MHz	
	Chipset	Intel® 852GME + ICH5	Intel® 945G + ICH7R	
	RAM	Supports two 266/333MHz DDR DIMM (2GB Max.)	Supports two 400/533/667MHz DDR2 DIMM (4GB Max.)	
I/O Ports and Switches	4 x RS232 COM Port 1 x RS-232/422/485 Port 2 x RJ-45 for LAN Port 4 x USB 2.0 1 x VGA Port 1 x Audio (Line-in, Line-out, MIC-in) 1 x PS/2 (KB/MS) 1 x Power Switch 1 x PCI Slot 1 X LPT		4 x RS232 COM Port 1 x RS-232/422/485 Port 2 x RJ-45 for LAN Port 4 x USB 2.0 1 x VGA Port 1 x Audio (Line-in, Line-out, MIC-in) 1 x PS/2 (KB/MS) 1 x Power Switch 1 x AT / ATX Switch 1 x PCI Slot 1 X LPT	
	Driver Bay	HDD Driver Bay	1 x 2.5" SATA/IDE HDD bay with anti-shock (or two 2.5" SATA/IDE HDD bay without anti-shock)	1 x 2.5" SATA HDD bay with anti-shock
		SSD	CF Type II	
		CD-ROM Driver Bay	Slim Type CD-ROM Bay	
	Extension Slot	1 x PCI slot		1 x PCI slot 1 x PCIe mini card 1 x PCIe by 1 slot (Option)
		Construction Front Panel	Aluminum	
	Physical	Construction Chassis	Heavy-duty Steel	
Mounting		Panel, Wall, Rack, Stand and Arm VESA 100mm x 100mm		
Front Panel Color		Silver (Pantone 8001C)		
Dimension (WxHxD) (mm)		410 x 309 x 110.5		
Net Gross Weight		7 Kg / 11 Kg		
Environment	Operation Temperature (°C)	-10°C ~50°C		
	Storage Temperature (°C)	-20°C ~60°C		
	Vibration	5~17Hz, 0.1" double amplitude displacement , 17~640Hz, 1.5G acceleration peak to peak		
	Shock	10G acceleration part to part (11ms)		
Touch Screen	Resistive Type 5-Wire with RS-232 interface			
Power Supply	ATX AC-Input	AC Input ATX Power Supply - P/N: ACE-4518AP-RS - 180W Power Supply - Input: 90VAC~240VAC, 50/60Hz - Output(max.): 3.3A@16.8A, 5V@12A, 12V@10A, -12V@0.8A	AC Input ATX Power Supply - P/N: ACE-A618A-RS - 180W Power Supply - Input: 90VAC~264VAC, 50/60Hz - Output(max.): 3.3A@14A, 5V@16A, 12V@14A, -12V@0.5A	
	ATX DC-Input	DC Input ATX Power Supply - P/N: ACE-4520C-RS - 200W Power Supply - Input: 24VDC, 50/60Hz - Output(max.): 3.3A@12A, 5V@12A, 12V@15.4A, -12V@0.5A	DC Input ATX Power Supply - P/N: ACE-4520C-RS - 200W Power Supply - Input: 24VDC, 50/60Hz - Output(max.): 3.3A@12A, 5V@12A, 12V@15.4A, -12V@0.5A	
Front Panel Protection	IP65 Compliant			
Certificate	Meets CE, FCC			
Ethernet	Dual Realtek RTL8110S GbE LAN		Dual Broadcom RTL8111CP PCIe Controllers

### Fully Integrated I/O

#### • PPC-5170G/8520

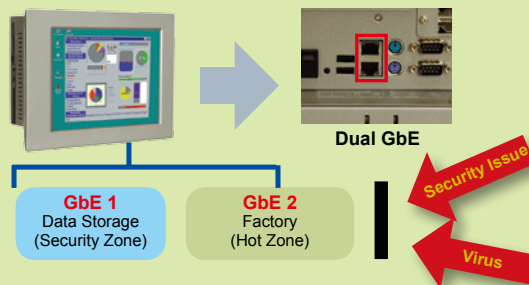

#### • PPC-5170A/9455

### Dual 10/100/Gigabit Ethernet Support

PPC-5170GS provides dual independent gigabit LAN ports. In HMI application environments, many system integrators prefer dual independent LAN to allocate factory zone and data storage zone to reduce the network collision and crash, or virus infection.

### Big Screen for Multi-Display

PPC-5190GS equips 19" TFT LCD which is ideal for multi-display requirement such as digital surveillance or multi-operating system. With multi-display configuration, users can handle more tasks at the same time as well as saving resource and space.

Industrial Aluminum PPC-53 Series

# PPC-5350

Intel® Celeron® M / Pentium® M Processor with 15" TFT LCD and Touchscreen

## Features

1. 15" TFT LCD touch Panel PC
2. New upgrade model from PPC-5350/A300 model
3. Aluminum die-casting IP 65
4. Intel® Celeron® M mobile CPU with 400 MHz FSB supported
5. Two DDR2 SO DIMM 667 MHz SDRAM DIMM support up to 2GB
6. Two SATA connectors supported by ICH6M
7. Dual PCIe Gigabit Ethernet support
8. High speed express card and PCIe mini card support
9. Optional 802.11 b/g PCIe mini wireless kit
10. IEI One Key Recovery solution allows you to create rapid OS backup and recovery (Suggest over 4GB storage capacity)

symantec

## Specifications

Model		PPC-5350GS/A300	PPC-5350GS/A311	
Display	LCD Size	15"		
	Max Resolution	1024(W) x 768(H)		
	Brightness (cd/m <sup>2</sup> )	350		
	Contrast Ratio	700 : 1		
	LCD Color	16.2M		
	Pixel Pitch (mm)	0.297(H) x 0.297(V)		
	Viewing Angle (H-V)	140° / 125°		
Backlight MTBF (hrs)	50,000			
Motherboard	SBC Model	A300	A311	
	CPU	Socket 479 Intel® Pentium® 4, Celeron M with 400MHz(max.) FSB 1 GHz ULV Intel Celeron zero cache CPU	Socket 479 Intel® Pentium® M, Celeron® M with 400/533MHz(max.) FSB 1 GHz ULV Intel® Celeron zero cache CPU	
	Chipset	Intel® 855GME + ICH4	Intel® 910GML + ICH6M	
	RAM	Supports two 266/333MHz DDR DIMM (2GB Max.)	Supports two 400/533MHz DDR2 DIMM (2GB Max.)	
I/O Ports and Switches		5 x RS-232 COM Port 2 x RJ-45 for LAN Port 4 x USB 2.0 1 x VGA Port 1 x Audio (Line-in, Line-out, MIC-in) 1 x PS/2 (KB/MS) 1 x Power Switch 1 x AT / ATX Switch 1 x DVI port 1 x PCI Slot	5 x RS-232 COM Port 2 x RJ-45 for LAN Port 4 x USB 2.0 1 x VGA Port 1 x Audio (Line-in, Line-out, MIC-in) 1 x PS/2 (KB/MS) 1 x Power Switch 1 x AT / ATX Switch 1 x DVI port 1 x PCI Slot	
	Driver Bay	HDD Driver Bay	1 x 2.5" SATA/IDE HDD bay with anti-shook	1 x 2.5" SATA HDD bay with anti-shook
		SSD	CF Type II	
		CD-ROM Driver Bay	Slim Type CD-ROM Bay	
	Extension Slot		1 x PCI slot	1 x PCI slot 1 x PCIe mini card
		Construction Front Panel	Aluminum	
	Physical	Construction Chasis	Heavy-duty Steel	
		Mounting	Panel, Wall, Rack, Stand and Arm ,VESA 100mm x 100mm	
		Front Panel Color	Silver (Pantone 8001C)	
		Dimension (WxHxD) (mm)	410 x 309 x 110.5	
Net Gross Weight		8 Kg / 12 Kg	7 Kg / 11 Kg	
Operation Temperature (°C)		-10°C ~50°C		
Environment	Storage Temperature (°C)	-20°C ~60°C		
	Vibration	5~17Hz, 0.1" double amplitude displacement / 17~640Hz, 1.5G acceleration peak to peak		
	Shoock	10G acceleration part to part (11ms)		
Touch Screen		Resistive Type 5-Wire with RS-232 interface		
Power Supply	ATX AC-Input	AC Input ATX Power Supply - P/N: ACE-4518AP-RS - 180W Power Supply - Input: 90VAC~240VAC, 50/60Hz - Output(max.): 3.3A@16.8A, 5V@12A, 12V@10A, -12V@0.8A		
	ATX DC-Input	DC Input ATX Power Supply - P/N: ACE-815C-RS - 100W Power Supply - Input: 24VDC, 50/60Hz - Output(max.): 3.3A@4A, 5V@13A, 12V@2.5A, -12V@0.3A		
Front Panel Protection		IP65 Compliant		
Certificate		Meets CE, FCC		
Ethernet		Dual Realtek RTL8110S GbE Controllers		
Audio		AC' 97 2.3 Realtek ALC 655	AC' 97 2.3 Realtek ALC 655

## New PPC-5350 Features

Serial ATA is the next -generation internal storage interface designed to replace parallel ATA technology. Serial ATA was introduced at **150Mbytes/sec**. New PPC-5350/A311 supports two native SATA ports without additional driver requirement which is highly increasing device compatibility in all different OS

### Native serial ATA interface support

**NEW**

PPC-5350/A311

PPC-5350/A300

## New ExpressCard Features

**ExpressCard** is a hardware standard replacing PC cards (also known as PCMCIA cards), both developed by the Personal Computer Memory Card International Association (PCMCIA). The host device supports both PCI Express and USB 2.0 connectivity through the Express Card slot, and each card uses whichever the designer feels most appropriate to the task. The cards are hot-pluggable.

### ExpressCard Technology vs. CardBus

ExpressCard Modules	Brand
FireWire	Abcom, Addonics, Belkin, SIIG
Memory Card Adapter	Atech Flash, Buffalo, Delkin, Griffin, Hagiwara
TV tuners	AverMedia, HP
WLAN/WWAN/Smart Card/SATA	Abcom, Addonics, Belkin, SIIG, Atech Flash, Buffalo, Delkin, Gemplus, Hagiwara, Novatel, Rotoc, SCM
Bluetooth device	Newton
Expansion chassis and docking stations	Belkin
Remote control devices	HP, Interlink

## New PPC-5350/A311 Expansions

**Flexible extension interface: 1 x PCI slot, 1 x PCIe mini slot, 1 x ExpressCard**

PPC-5350 provides most rich expansion interfaces, including one standard 32 bit PCI slot for various PCI add-on card, one PCIe mini card socket for small form factor extender like wireless module, and one express slot for expansion.

PCI

## New PPC-5350/A311 Placement

All new PPC-5350/A311 system board is designed with native SATA and PCIe interfaces supported from chipset directly with no extra driver requirement. All internal connector placements are redesigned for easy installation and better internal air flow inside.

## Upgrading Performance

Featuring the Intel® Graphics Media Accelerator 900, the 910GMLE chipset in PPC-5350/A311 enables 2x the graphics performance of the previous generation of platforms based on the Intel® 855GME chipset in PPC-5350/A300.

### Extra CPU support list :

Package Type	Brand Name	CPU No.	Clock Speed	FSB (MHz)	L2	TDP	Chipset	
Socket 479	90nm	Pentium M	780	2.26G	533	2M	27W	915GME
			770	2.13G		2M	27W	
			760	2G		2M	27W	
			755	2G		2M	27W	
			750	1.86G		2M	27W	
			740	1.73G		2M	27W	
			730	1.6G		2M	27W	

### Comparison Graphic Core

Chipset	910GMLE	855GME
DirectX Support	9	7.1
OpenGL Support	1.4	1.3
Core Clock	333/320 MHz 200 MHz 166/160 MHz 133 MHz	250 MHz 200 MHz 166 MHz 133 MHz
Pixel Pipes	4	1
Display Support	Dual Independent	Dual Independent
Video Memory	DVMT 3.0	DVMT 2.0
Memory Bandwidth	8.5 GB/sec	2.6 GB/sec
Max. Resolution	QXGA 75 Hz 2048x1535	QXGA 60 Hz 2048x1535

Features / Options	DDR	DDR2	DDR2 Advantages
Voltage	2.5V / 2.5V I/O	1.8V / 1.8V I/O	Reduces memory system power demand
Densities	128MB-1GB	256MB-4GB	High-density components enable large memory subsystems
Speed (data pin)	200, 266, 333, 400	400, 533, 667	Migration to higher speed IO
Read Latency	2, 2.5, 3 CLK	CL + AL / CL = (3,4,5)	Eliminating one-half clock helps speed internal DRAM logic and improves yields
Additive Latency	N/A	AL options (0,1,2,3,4)	Mainly used in Server applications to improve command bus efficiency
Write Latency	1 clock	read latency-1	improves command bus efficiency
Data Strokes	Single-ended	Differential or single-ended	Improves system timing margin by reducing strobe cross-talk

## Rich I/O in PPC-5350/A311

Fully I/O function support: 6 x COM (One for Touch screen), 4 x USB, 1 x CF socket PPC-5350 combines multiple traditional UART ports (five RS-232 ports) and four most popular USB 2.0 ports for IO extension. Additionally, PPC-5350 also support one CompactFlash® Type II socket for storage usage.

AT power mode allows multiple panel PCs automatically start when the central power unit is connected.

The ATX power mode allows the panel PCs to be turned on/off remotely via network.
